P.7 SOCIAL STUDIES – PLE PREPARATION

CLIMATE OF AFRICA

NAME ……..……

STREAM……..……

Answer all questions. Give precise geographical responses.

1. State the main factor responsible for the decrease in temperature from the Equator towards the poles.

_____

2. Identify the climatic region that receives heavy rainfall throughout the year in Africa.

_____

3. State the type of rainfall commonly experienced in the equatorial regions of Africa.

_____

4. Name the major pressure belt associated with heavy equatorial rainfall in Africa.

_____

5. State one characteristic of temperature in the equatorial climatic region.

_____

6. Identify the climatic region characterised by distinct wet and dry seasons in Africa.

_____

7. State the main factor that controls the seasonal movement of the rain belt over tropical Africa.

_____

8. Name the prevailing winds that bring rainfall to much of West Africa from the Atlantic Ocean.

_____

9. Identify the dry, dusty wind that blows from the Sahara towards the Gulf of Guinea.

_____

10. State the climatic effect of the Harmattan winds on West Africa.

_____

11. Identify the climatic region covering most of the Sahara Desert.

_____

12. State one characteristic of rainfall in the hot desert climatic region of Africa.

_____

13. Name the cold ocean current that contributes to aridity along the south-western coast of Africa.

_____

14. Identify the desert whose dryness is strongly influenced by the Benguela Current.

_____

15. Name the cold ocean current that influences the climate of north-western Africa.

_____

16. State the effect of altitude on temperature in the highland regions of Africa.

---

17. Identify the type of climate experienced on the Ethiopian Highlands and other high mountains of Africa.

---

18. State the main cause of relief rainfall on the windward slopes of African highlands.

---

19. Identify the side of a mountain that normally receives less rainfall after moist air crosses the summit.

---

20. Name the climatic condition produced on the leeward side of a mountain due to reduced rainfall.

---

21. Identify the climatic region found around the north-western and south-western tips of Africa.

---

22. State the season in which Mediterranean climatic regions of Africa receive most of their rainfall.

---

23. State one characteristic of summers in the Mediterranean climatic regions of Africa.

---

24. Identify the major factor responsible for generally high temperatures over much of Africa.

_____

25. State the effect of distance from the sea on the annual temperature range of inland areas of Africa.

_____

26. Identify the climatic influence that makes coastal areas generally more moderate in temperature than inland areas.

_____

27. State the effect of warm ocean currents on rainfall along nearby African coasts.

_____

28. Identify the instrument used to measure the amount of rainfall received at a weather station.

_____

29. Name the instrument used to measure atmospheric temperature.

_____

30. State the two main climatic elements represented on a standard climate graph.

_____

_____
