SECTION A: 40 MARKS

1. Name any one process in plants supported by the presence of sunlight.

.....
.....

2. Give any one sign of African swine fever in pigs.

.....
.....

3. State the importance of colostrum to a calf.

.....
.....

4. Mention the body part of an insect that serves the same function as the nostrils of a fish.

.....

5. Point out any one piece of advice you would give to a person who suffers indigestion.

.....

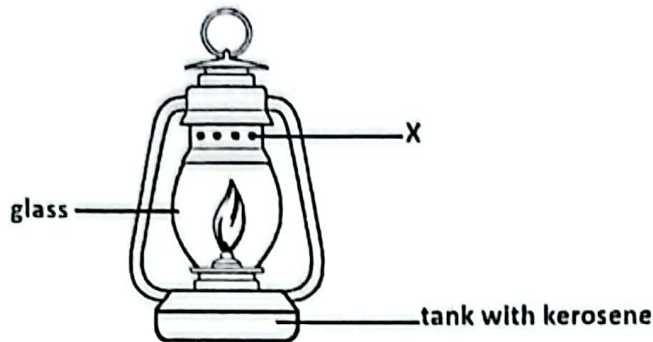

6. Identify the type of change that takes place when an iron tool rusts.

.....

7. State the force of attraction that enables ink to stick on a piece of paper after writing.

.....

The diagram below shows a kerosene lamp. Study and use it to answer questions 6 and 7.

8. Name the part of a living house that has the same function as holes marked X.

.....

9. By what process does kerosene in the tank move up in the wick?

.....

10. Give any one reason why farmers carry out earthing up of their tuber crops.

.....

11. State any one use of bones to the circulatory system.

.....

12. Name any one type of teeth that contains cusps and ridges.

.....

13. Give any one way in which timely weeding of crops helps to control crop diseases.

.....

14.State any one way farmers can control the breeding of poor quality animals in a cattle farm.

.....

15.Give any one sign of worm infestation in young children.

.....

16.State any one quality of essential drugs.

.....

The diagram below shows a beak of a bird. Study and use it to answer questions 17 and 18.

17.Name the food eaten by the above bird.

.....

18.State any one adaptation of a bird with such a beak to its mode of feeding.

.....

19.Apart from hydroelectricity, give any one other example of energy that does not pollute the environment.

.....

20.Give any one characteristic of arthropods.

21. State any one reason why water is not used in thermometers for temperature measurement.

.....

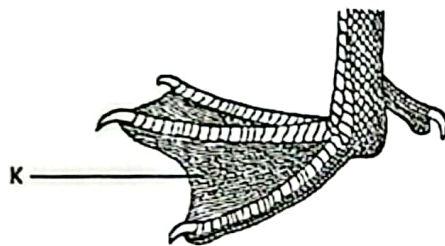

22. Give any one reason why vitamins and mineral salts are not digested in the alimentary canal but absorbed into the blood stream.

.....

23. State any one reason why grains should be dried properly before storage.

.....

The diagram below shows a foot of a bird. Study and use it to answer questions 24 and 25.

24. State the function of part marked K to the bird.

.....

25. Name the group of birds with such a foot.

.....

26. State any one danger of excessive consumption of alcohol to the stomach.

.....

27. Write any one danger of excessive transpiration to plants.

.....

.....

28. Give any one way flowers attract pollinators at night.

.....

29. Identify the type of clouds that are nearest to the ground.

.....

30. Mention the importance of a vacuum seal of a thermos flask.

.....

.....

31. Write down any one example of a stringed musical instrument.

.....

32. State any one major cause of soil exhaustion.

.....

33. Give any one use of echoes to a bat.

.....

.....

34. State any one reason why it is difficult to control diseases in free range system.

.....

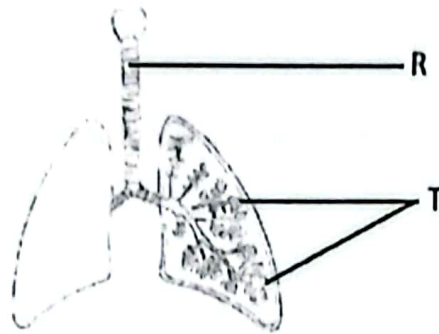

.....

35. State one effect of wind in the environment.

.....

.....

The diagram below shows the lungs. Study and use it to answer questions 36 and 37.

36. Name the part marked T.

.....

37. State the reason why part marked R is made up of rings of cartilage.

.....

38. Write down the importance of the cotyledon of a bean seed.

.....

39. State the role of yeast during the brewing of alcohol.

.....

.....

40. Find the density of a stone of mass 90g and volume of 30cc.

.....

SECTION B: 60 MARKS

41. a) Explain how cholera leads to dehydration.

.....
.....

b) Give any two signs of dehydration in adults.

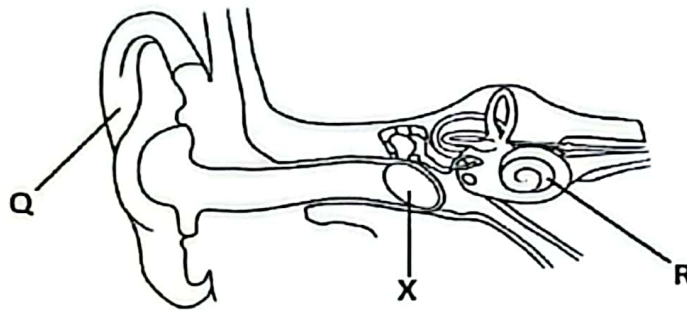

i)

ii)

c) State the reason why water is used for preparing the solution of ORS.

.....

42. The diagram below shows a mammalian ear. Study and use it to answer questions that follow.

a) Name the parts marked R and Q.

R.....

Q.....

b) State the function of part marked X.

.....
.....

c) Give any one disease that affects the mammalian ear.

.....

43. a). Give any one similarity between monotremes and birds.

.....

.....

b) Write any one difference between monotremes and advanced mammals.

.....

.....

c) Mention any two examples of even toed ungulates.

i)

ii)

44. a) Define essential drugs.

.....

.....

b) Give any one importance of drug prescription.

.....

.....

c) Mention any one danger of failing to complete the required dose during medication.

.....

d) State the meaning of 2 x 3 prescription of tablet drugs.

.....

.....

45. a) Give any two causes of road accidents in Uganda.

i)

ii)

b) Suggest any two ways of reducing road accidents in Uganda.

i)

ii)

46. The table below shows parts of thermos flask and their functions.
Complete it correctly.

Part	Function
.....	Prevents entry of matter into the vacuum
Cork	
.....	Minimizes heat loss or gain by radiation
Vacuum	

47. a) State how charcoal is made from wood?

.....

b) Give any one reason why wood is covered with soil during the making of charcoal.

.....

c) Write any two dangers of irresponsible making of charcoal to the environment.

i).....

ii).....

48. The diagrams below show types of teeth. Study and use it to answer.

L

M

a) Identify the type of teeth marked L and M.

L.....

M.....

b) Give any one adaptation of tooth marked L to its function.

.....

c) Mention any one sign of poor oral health.

.....

49. a) State any two ways of promoting food security in a community.

i)

ii)

b) Give any two dangers of food insecurity in the community.

i)

ii)

50.a) State the importance of the following resources in the environment.

i) Sun shine.....

ii) Water

b) Give any one way water is replaced naturally in the environment.

.....

c) Suggest any one way of conserving resources in the environment.

.....

51.a) State any two principles of Primary Health Care.

i)

ii)

b) Name the element of Primary Health Care promoted by;

i) Feeding on a balanced diet.....

ii) Washing and ironing clothes.....

52.a) State the importance of the following farm practices.

i) Staking.....

ii) Hardening off.....

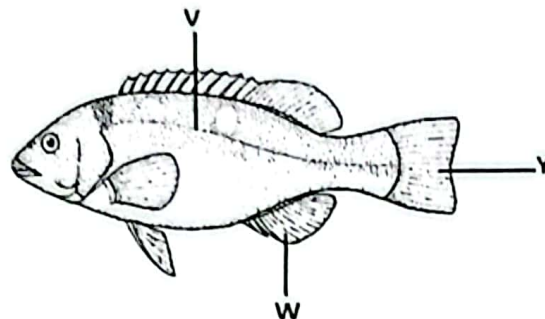

b) Mention any one material used for mulching gardens.

.....

c) State any one danger of mulching.

.....

53. The diagram below is of a fish. Study it and answer the questions that follow.

a) Identify the structure marked V.

.....

b) State the function of the structures marked W and Y.

.....

c) State any one adaptation of fish to life in water.

.....

54. a) State any one similarity between biological and chemical changes.

.....

.....

b) Give any two examples biological changes in the environment.

i)

ii)

c) State any one importance of biological changes in the environment.

.....

55a) State one reason why a cockroach dies when its abdomen is dipped in cooking oil.

.....

b) Mention any one structure that forms the cephalothorax of a spider.

.....

c) State any two dangers of insects in the environment.

i)

ii)

TOTAL		

SECTION A: (40 Marks)

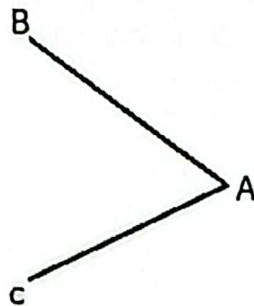

Answer **all** the questions in this section

Questions **1** to **20** carry equal marks

1. Workout: $39 \div 3$
2. Write 'six hundred thousand fifty' in figures.
3. Simplify: $4k - 3m + k - m$
4. Given that $R = \{m, a, n, g, o, e, s\}$ and $n = \{a, g, o, n, y\}$. Find $n(R - N)$
5. Convert 2100 grams to kilograms

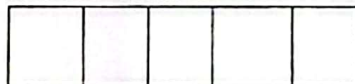

6. A parent 2 books at sh.8000 and 3 fountain pens at sh.10,500.
which of the above items is more expensive?

7. Using a pair of compasses, a ruler and a pencil, bisect the ~~obtuse~~ acute angle BAC

8. Without dividing, show that 510 is exactly divisible by 6.

9. Rose scored 8 marks in a test marked out of 10. Shade the diagram below to represent the marks she failed.

10. Using the symbol $>$, $<$ or $=$, complete the statement below

$$-4 \times 3 \dots\dots\dots -2 \times 3$$

11. A teacher recorded the attendance of pupils in a certain week as shown below
30, 35, 33 and **35**. Find the median number of pupils who attended that week

12. A pupil left school at 5:00 p.m. and walked for 1 hour 35 minutes. Write the time the pupil reached home in 24-hour clock.

13. Workout: 101_{two}
 $\underline{- 11_{\text{two}}}$
 $\underline{\hspace{2cm}}$

14. A motorist covered a distance of 120 km in 45 minutes. Calculate the speed used by the motorist.

15. Find the 121st equivalent fraction of $\frac{2}{3}$

16. A regular polygon has 12 right angles. Name the polygon.

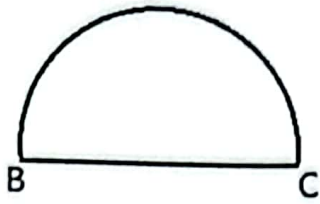

17. Find the next number in the sequence:

15, 17, 20, 25, 32,

18. Given that set $R = \{c, r, a, t, e\}$. Calculate the number of proper subsets in set R.

19. A trader borrowed a loan of sh. 120,000 from a village SACCO, which gives an interest rate of 10% per month. Calculate the interest the trader paid back after 2 years.

20. The length of the arc BC is 44dm. Find its diameter.

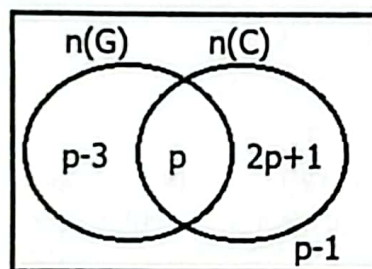

SECTION B: 60 MARKS

Answer all the questions in this section

Marks for each question are indicated in brackets

21. The Venn diagram below shows the tourists who visited a Zoo and saw Giraffes (G) and Cheetah(C). Study it and answer the questions that follow.

a) If 28 tourists saw only one type of animals, find the value of P.
(3 marks)

b) How many tourists saw Giraffes?

(2 marks)

22. Okello paid sh.180,000 for a goat which was sold by Akatukunda at 20% profit. He later sold it to Abindu at a loss of 10%.

a) How much did Akatukunda buy the goat?

(3 marks)

b) How much money did Abindu pay for the goat?

(2 marks)

23. a) Using a ruler, a pencil and a pair of compasses only, construct a parallelogram ABCD, in which $AB = 7\text{cm}$, $\angle ABC = 120^\circ$ and line $BC = 5\text{cm}$
(5 marks)

- b) Drop a perpendicular line from C to meet AB at X. (1 mark)

24. a) Solve for x: $\frac{x+3}{2} = \frac{2x-4}{3}$

(3 marks)

b) Given that $a = 3$, $b = -2$ and $c = 4$, find the value of $\frac{3a-(a-c)}{b}$
(2 marks)

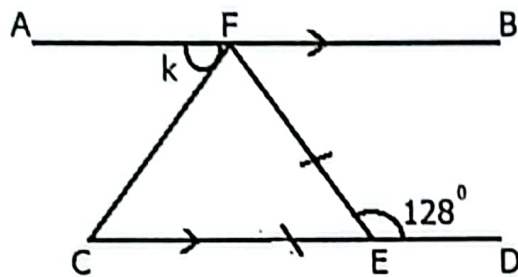

25. Given the digits 6, 3, 0 and 4, use them to answer the questions that follow.

a) Form the smallest and the largest 4-digit numerals from using the above digits and find their sum. (3 marks)

b) Find the difference between the value of 4 and the place value of zero from the smallest numeral formed in a) above. (3 marks)

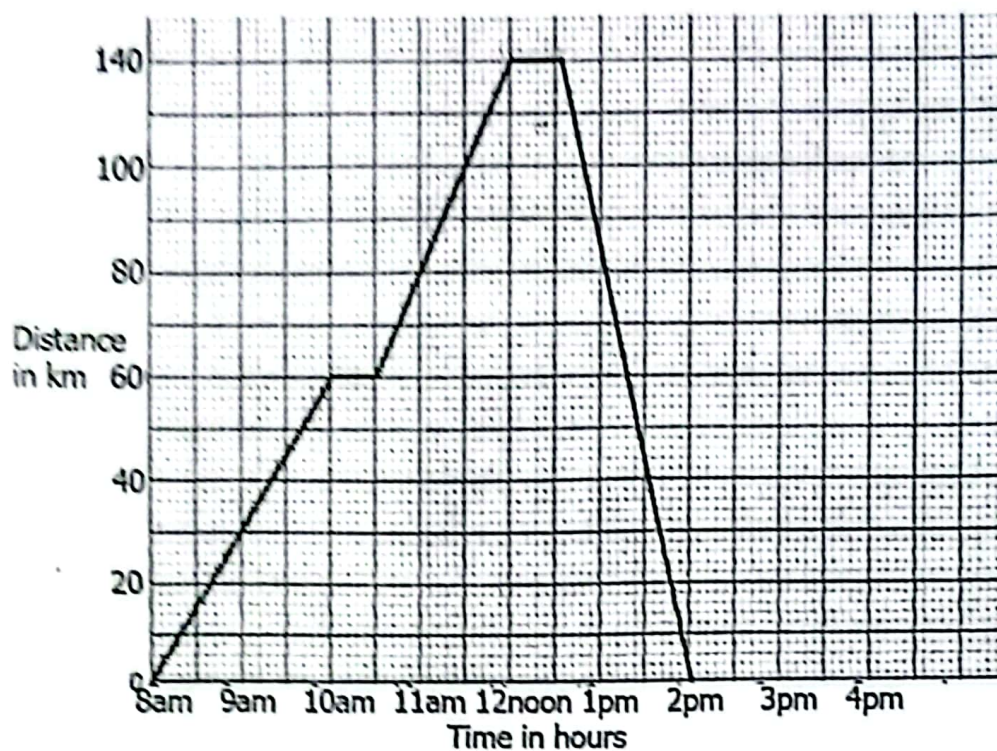

26. On his farm, Maganda rears goats and guinea fowls. Altogether, the animals have 31 heads and 86 legs. Find the number of goats and guinea fowls on Maganda's farm. (4 marks)

27. In the diagram below, line **AFB** is parallel to line **CED**. **EFC** is an isosceles triangle and **FED** = 128° . Study it carefully and use it to answer the questions that follow.

- a) Find the value of **k** in degrees
- b) Calculate the size of angle **EFB**.

28. The graph below shows the journey of a cyclist from town K to town M via town L and back to town K. Study it carefully and use it to

- How far is town M from town L
- Find the total time the cyclist took at the stopovers.
- Calculate the cyclist's average speed for the whole journey.

29. The exchange rates in afro bank were displayed as follows

1 US dollar (\$) = Ug.sh.3650

1 British Pound sterling (£) = Ug.sh.4500

1 Kenya shilling (K.sh.) = Ugsh.28.30

a) Convert Ksh.7500 to Uganda shillings.

(2 marks)

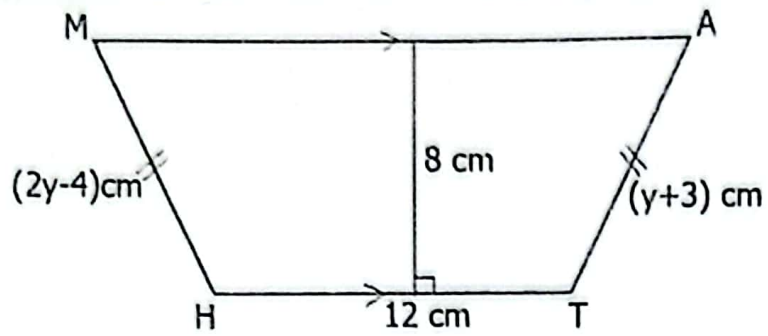

b) A trader bought two fridges at \$900. How many Pound Sterling did the trader pay for each fridge?

(4 marks)

30. A jerrycan full of cooking oil weighs 20.58 kg. The empty jerrycan weighs 5.58 kg. Find the mass of the jerrycan when it is $\frac{4}{5}$ full of cooking oil.

(4 marks)

31. Use the figure below to answer the questions that follow.

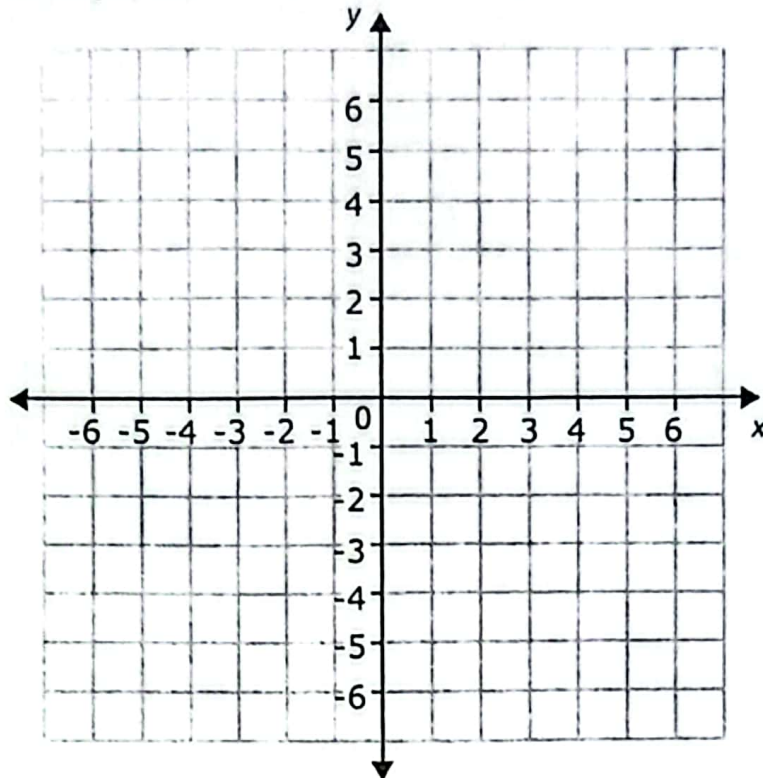

a) Find the value of y .

(2 marks)

b) Find the perimeter of the figure **MATH**

(4 marks)

32. On the grid below, plot the following points: A(2, 2), B(2, -1), C(-2, 2) and D(-4, -1)

- a) Join points A to B, B to D, D to C and C to A. (4 marks)
- b) Name the figure formed after joining the points. (1 mark)

.....
.....

50. That book belongs to Amos. (Rewrite the beginning: That is)

.....
.....

SECTION B

51. Read this passage and use it to answer the questions that follow in full sentences.

During Christmas holidays, there was a wedding in Tinkula Village. Chakachaka, a primary seven vacationer attended the wedding ceremony. The ceremony took place in Tinkula Church. It began with singing of gospel songs. Chakachaka enjoyed the songs as they waited for the priest.

At midday, Reverend Oliech Ambrose entered the church. He presided over the church service and prayed for the couple. The couple were smartly dressed. The bride, Barbara, as well as the bridegroom, Benjamin, looked happy. Everybody admired them. When the time to exchange vows came, something strange happened. The bridegroom abandoned the bride and ran out of the church. This shocked the congregation. At first the priest thought it was a joke. He too was left confused on the pulpit. Chakachaka could not believe what happened. Imagine this was her first time to attend a wedding ceremony.

Now the bride was left in tears. The best man followed the groom. He tried to persuade him to return to church. But he refused and ran even faster. Meanwhile, the bridesmaid and the priest comforted the bride. When the best man came back, the bride asked him to replace Benjamin. At this time, the best man became the bridegroom. The priest wedded the new couple. The disappointed bride's parents blessed the couple. Chakachaka had seen a lot to narrate to her classmates in senior one.

Questions:

a) When did Chakachaka attend a wedding ceremony?

.....
.....

b) In which church did the wedding occur?

c) Who presided over the wedding ceremony?

d) According to the passage, who was the bride?

e) What happened during the exchange of marriage vows?

f) Why did the best man run after the bridegroom?

g) What shows that the bride's parents allowed the priest to wed the best man with the bride?

h) Give another word or group of words with the same meaning as each of the underlined words in the passage.

i) ceremony

ii) persuade

i) Suggest a suitable title to the passage.

52. The table below shows the candidates who aspired to become prefects. This was at Zero Junior School in 2025. Study it and use it to answer the questions that follow in full sentences.

S/N	Name of Candidate	Class	Age	Sex	Post	Campaign Manager	Promise to the voters
1.	Olang Jethro	P4	11	M	library prefect	Teke Ruth	To promote reading culture
2.	Junga Annabella	P6	16	F	head girl	Bwonjo Mary	To protect pupils' rights
3.	Dero Zainabu	P3	09	F	compound prefect	Seya Amuza	To make our environment green
4.	Panda Putho	P7	14	M	head boy	Peace Dumba	To stop bullying among pupils'
5.	Mayiga Ritah	P6	12	F	head girl	Charles Opio	To improve meals at school
6.	Byero Cindy	P5	12	F	library prefect	Ankunda Joy	To ask for more dictionaries
7.	Ntanda Patterson	P6	16	M	games prefect	Tabisa Akello	To promote pupils' talents
8.	Chumbi Fredrick	P6	13	M	compound prefect	Naisiga Rose	To fight litter in our compound
9.	Esese Sirage	P7	14	M	games prefect	Isabella Chebet	To introduce more games
10.	Kagali Brendah	P5	12	F	head girl	Masaba Sowali	To promote respect for girls

a) What does the above table show?

.....

.....

b) Which candidate do you think became a prefect unopposed?

.....

.....

What did Kagali Brenda promise to do during campaigns?

.....

.....

c) For which post did Olang Jethro stand?

.....

.....

d) Who promised to promote pupils' talents if elected a prefect?

.....

.....

e) What shows that there is democracy in the school?

.....

.....

f) Which post had the highest number of aspirants?

.....

.....

g) Who was the oldest female candidate in the election?

.....

.....

h) What was the name of Esese Sirage's campaign manager?

.....

.....

i) How many posts did the pupils contest for?

.....

.....

53. Kakeeto and Lusiba met during the first term holidays. They had a dialogue. What Kakeeto said is given below. Complete the dialogue with what Lusiba said.

Kakeeto: Good morning, Lusiba.

Lusiba:.....

Kakeeto: Where did you spend your holiday?

Lusiba:.....

Kakeeto: At your aunt's place? Where does she live?

Lusiba:.....

Kakeeto: Okay. Kasese is a district with a lot of tourist potentials

Lusiba:.....

Kakeeto: Yes, I have ever been to Kasese.

Lusiba:.....

Kakeeto: In Kasese, we visited Queen Elizabeth National Park, Lake Katwe and Kilembe Mines.

Lusiba:.....

Kakeeto: I enjoyed looking at wild animals and how salt is mined.

Lusiba:.....

Kakeeto: I brought some salt from Lake Katwe and beautiful art pieces from Queen Elizabeth National Game Park.

Lusiba:.....

Kakeeto: No, I had not completed my holiday work before I went to Kasese.

Lusiba:.....

Kakeeto: I had not completed it because I thought I would do it in the last week of the holiday.

Lusiba:.....

Kakeeto: Yes, I am sure I will complete all the work in one week

Lusiba: I wish you the best.

Kakeeto: Thank you, Lusiba.

54. Read this poem and use it to answer the questions that follow in full sentences

I don't like cooking using charcoal
That black fuel that dirties my hands
And produces toxic black dust
That can make me fall sick

I don't like cooking using charcoal
The black fuel my father buys from an old woman
And rolls on his bicycle to our home
For us to use for cooking daily

I don't like cooking using charcoal
I wish Father could buy a gas cooker
And relieve me from dirtying my hands
As I set the black fuel on a stove daily

I don't like cooking using charcoal
This black fuel that leads to deforestation
And makes us miss rain in our village
For a lot of trees are cut down for charcoal

Zawadi Fisher

a. Which fuel does the writer use for cooking?

.....

.....

b. What happens to the writer's hands as she cooks?

.....

.....

c. Where does the writer's father buy the black fuel?

.....

.....

d. How does the writer's father take the fuel home?

.....

.....

e. What does the writer want her father to buy instead of a stove?

.....

.....

f. In how many stanzas was the poem written?

.....

.....

g. Why is the black fuel dangerous to the environment?

.....

.....

h. Who is the writer of the poem?

.....

.....

Give another word or group of words with the same meaning as the words underlined in the poem.

i. toxic

.....

a) relieve

.....

55. Imagine you know the head teacher of Entebbe Secondary School P O Box 77, Entebbe. Her name is Mrs. Karata Janet. Using your school address, Savana Primary School P O Box 49, Kapchorwa, write a letter to her to allow you use their school computer room. Tell her that you would like to browse the internet to read more about children's rights during your vacation. Ask her to allow you have meals from their school kitchen for one week. Promise that you will handle the computer given to you with a lot of care.
