14. If Oluka.....enough money, he would have bought data. (have)
15. The doctor failed to treat Musa's.....foot. (smell)

*In questions **16 to 17**, arrange the words in alphabetical order.*

16. reuse, recycle, refuse, reject

.....

.....

17. environment, fauna, poach, conserve

.....

.....

*In questions **18 to 19**, use each of the words in a sentence to show that you know the difference in their meanings*

18. lick

.....

.....

19. leak

.....

.....

*In questions **20 to 21**, write the full form of these words.*

20. I'll.....

21. Cf.....

*In questions **22 and 23**, rewrite the sentence giving one word for the underlined group of words.*

22. The chairperson presented the <u>list of items to be discussed in the meeting</u> at the beginning.

.....

.....

23. The motorist drove the lorry <u>with a lot of care</u>.

.....

*In questions **24 and 25**, rewrite the sentences giving the opposite of the underlined words.*

24. Our team lost the match.

.....

.....

25. The successful applicants have been shortlisted for interviews.

.....

.....

*In questions **26 to 28**, give singular form of the given words.*

26. men's watches.....

27. halves.....

28. equipment.....

In the questions 29 to 30, arrange the given words to make a correct sentence.

29. Important debating how is!

.....

.....

30. Malcom preparing are PLE and I.

.....

.....

Sub - section II

*In questions **31 to 50,** re write the sentences as instructed in the brackets*

31. The tourists slept in a hotel. The hotel had good Wi-Fi.

(Rewrite the sentence using: .....in which.....)

.....

.....

32. When the waiter came, we made our order.

(Rewrite the sentence beginning: Scarcely.....)

.....

.....

33. Holiday makers should spend their holidays wisely.

(Rewrite the sentence using: .....ought to.....)

.....

.....

34. Both roads lead us to the destination.

(Rewrite the sentence beginning: Either.....)

.....

.....

35. The party was very marvelous. We all enjoyed it

(Rewrite as one sentence using .....so.....that.....)

.....

.....

36. Apart from being a carpenter, he is also a farmer.

(Rewrite the sentence beginning: Besides.....)

.....

.....

37. My aunt gave birth to triplets a while ago.

(Rewrite the sentence using: .....just.....)

.....

.....

38. The invigilator was a very friendly person.

(Rewrite the sentence beginning: What.....!)

.....

.....

.....

.....

49. Zacchaeus climbed the tree. His intention was to see Jesus.

(Rewrite as one sentence using: .....so that.....)

.....

.....

50. The potter made some pots. They were circular. They were nice and very small. *(Rewrite as one sentence without using: which, that or and.)*

.....

.....

SECTION B:(50Marks)

*(Questions **51 to 55** carry ten marks each)*

51. Read the passage below carefully and answer the questions that follow in full sentences.

A responsibility is a duty to deal with or take care of somebody or something so that one may be blamed if something goes wrong. Ae right is a moral or legal claim to have or get something or behave in a particular way.

At most times, children tend to think that they don't have any responsibilities since they are a responsibility themselves to their parents, which is wrong. Children too need to be responsible for instance, it is their responsibility to go to school leave alone other preferences. Though they might be more interested in playing than in doing anything else. Some of the children's responsibilities include: protecting the environment, doing homework, being obedient, doing domestic chores, among others

On the other hand, children have plenty of rights. These rights include: a right to play, a right to basic needs, a right to speak, a right to worship, a right to go to school, among others. They are not supposed to be sexually, physically, and emotionally harassed, mistreated, abused, tortured, forced into early marriages, experience forced labour, etc. It's everyone's responsibility, especially the elders, to take care of the children and protect their rights. For the evil-minded, you either stop the habit or risk being imprisoned.

Questions

a) What is the passage about?

.....

.....

b) According to the passage, what is a responsibility?

.....

.....

c) What do children like to do?

.....

.....

d) How many responsibilities of children are talked about in the passage?

.....

.....

e) Who should protect children's rights?

.....

.....

f) Why do you think children are not supposed to be physically harassed?

.....

.....

g) What will happen to the evil-minded people?

.....

.....

h) Mention one right of children according to the passage.

.....

.....

i) Give another word or group of words to mean the same as following as used in the information.

(i) for instance

.....

(ii) imprisoned

.....

52. Read the poem below and then answer, in full sentences, the questions that follow.

Nyama Choma Restaurant
My best restaurant
Where a customer is welcome
Sits with hope and comfort
Given a menu to order delicious meals available.

Nyama Choma Restaurant
Located in the heart of Ntinda Town
With smart waiters and waitresses around
In a very clean environment
Where soft music accompanies the meals.

Nyama Choma Restaurant
Where a customer is a king
Taken care of with patience
Dining tables coloured with flowers
Cutlery arranged wonderfully
Nyama Choma Restaurant; a place to be.

Marie Abisinguza

Questions

a) Which restaurant is talked about?

.....

.....

b) Where is this restaurant located?

.....

.....

c) Which kind of people are this restaurant?

.....

.....

d) What accompanies the meals?

.....

.....

e) How many verses are in the poem?

.....

.....

f) Who is a king in this restaurant according to the poem?

.....

.....

g) How is cutlery arranged?

.....

.....

h) Why do you think dining tables are coloured with flowers?

.....

.....

i) Give a word or group of words with the same meaning as delicious as used in the poem.

.....

.....

j) Suggest a suitable title to the poem.

.....

.....

53. ***A) This information was put on the school noticeboard of Hillside Primary School. Study it carefully and answer the questions that follow in full sentences.***

ELECTION OF PREFECTS

WHEN: 15th March 2026

WHERE: School Parking Yard

TIME: 8:00a.m – 4:00 p.m

POSTS: Various prefects posts

PARTICIPANTS: Primary Four to Primary Seven

Remember your vote counts

CHAIRPERSON, ELECTORAL COMMISSION

Questions

a) What is the information about?

.....

.....

b) Where was this information put?

.....

.....

c) At what time will the voting begin?

.....

.....

d) How many classes are going to participate in these elections?

.....

.....

e) Why do you think elections are important in schools?

.....

.....

53B. Study the information below carefully and answer the questions that follow in full sentences.

JOHN WEDS ANITAH

Together with their families, John Wekesa and Anitah Namalyo invite the company of ***Dr Kimaite Oscar*** to their wedding ceremony due to take place on Saturday 9th September 2026 at St. Jude Catholic Parish, Naguru at midday and thereafter to a reception at Royal Suites Bugolobi.

Your presence will grace the occasion

R.S.V.P

Damalie
O703617241

Thomas
0774561564

Questions

a) What do we call the above information?

.....

.....

b) Who are going to wed?

.....

.....

c) Who has been invited according to the card?

.....

.....

d) Where will the wedding take place?

.....

.....

e) Mention one person who can be contacted in case one is unable to attend?

.....

21-30		
31-40		
41- 43		
44- 46		
47- 49		
50- 52		
53- 55		
TOTAL		

1. State one importance of seed selection before planting.

   .....

   Give a reason why it is difficult for one to view him/herself in a mirror that has been breathed on several times.

   .....

   .....

2. State the reason why dew is formed at night.

   .....

3. State one effect of nicotine to a tobacco smoker.

   .....

4. State one way the bones are important to the circulatory system.

   .....

5. Mention one way of conserving charcoal at home apart from using energy saving stoves.

   .....

6. Give one way information and health education is an important element of PHC.

   .....

7. Mention one way the supply of clean water in rural areas is being improved.

   .....

8. State one way people get infected by tetanus.

   .....

9. State one reason why air is important in the soil.

   .....

10. Give a reason why adolescent girls are advised to feed on enough green leafy vegetables.

.....

11. A married couple has 15 children, the oldest is 15years and the youngest is 3months. State one health problem the mother may face.

.....

12. State the reason why it is advisable to cover the mouth with a handkerchief when sneezing.

.....

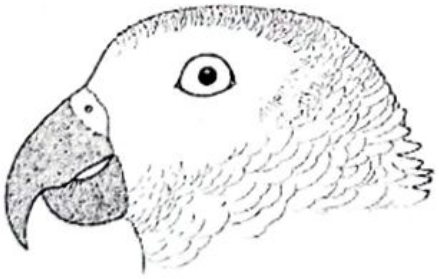

13. Name the mammal in Uganda that lives both in water and land.

.....

14. Derrick had a container with lime water and breathed through it several times. State what happened.

.....

Use the diagram below to answer questions **16** and **17**

15. Identify the type of food eaten by the above bird.

.....

16. Name the group of birds to which the above bird belongs.

.....

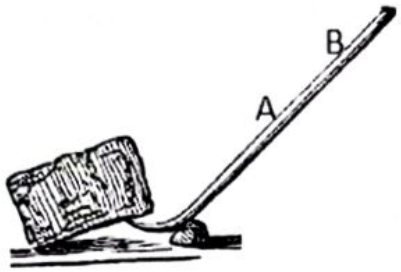

17. State the principle on which shadows are formed.

.....

18. Ethan dropped a leaf and stone from the same height, give a reason why the leaf reached the ground last.

.....

Use the diagram below to answer question **20** and **21**.

19. Use an arrow on the above diagram to show the direction of the effort.
20. Give a reason why Emma would use less effort to overcome the load while touching a**t B** than at **A**.

.....

.....

21. Name the type of change that takes place when one eats food to get energy.

.....

22. Give a reason why people with **HIV/AIDS** should not be isolated.

.....

23. State one way lack of money in a family encourages drug misuse.

.....

24. Agnes used water to put out petrol fire. State the disadvantage of her practice.

.....

25. Name the condition caused by shortage of red blood cells in the body.

.....

26. State one reason why vaccines are kept under cold chains.

.....

27. Alex keeps left over food well covered. State the reason why the food still goes bad after some time.

.....

28. State the first aid you would give to a person with an insect in the ear.

.....

29. Give a reason why mango fruits are likely to be dispersed by man.

.....

30. State the disadvantage of having anthills near a maize garden

.....

31. On a hot day a boy was running but didn't have a lot of sweat on the face. Immediately he came under shade, the whole face was full of sweat. Explain the reason for too much sweat under shade.

.....

.....

32. State one reason why farmers prefer cross breeds to exotic breeds.

.....

33. Mention the reason why car tyres wear out quickly on tarmac roads than marram roads.

.....

34. Give one difference between the air we breathe in from the air we breathe out.

.....

.....

35. Give one way animals are important during photosynthesis.

.....

36. Mention the reason why it is not advisable to give a drink to a person that is convulsing.

.....

37. Name the part that protects the growing embryo by closing the lower end of the uterus.

.....

38. Give a reason why people are able to hear more clearly at night than during day.

.....

.....

39. Give a reason why married couples should treat gonorrhea together in case of an infection.

.....

40. Give a reason why toads lay very many eggs.

.....

41. a) Give a reason the queen excluder is made of small wires.

.....

b) state the reason why the poles for hanging bee hives are smeared with engine oil.

.....

c) Mention one difference in structure between a work bee and a queen bee.

.....

.....

a) Apart from ripe banana, state one other bait used I stocking a hive.

.....

42. Use the diagram below to answer questions that follow.

b) Name the source of heat used in firing bricks.

.....

c) State the danger of using the above source of heat to the environment.

.....

.....

d) Give a reason why bricks are covered with mud before firing.

.....

e) State one way brick making encourages the spread of malaria.

.....

.....

43. a) Identify two activities that a health committee should do in a village.

i).....

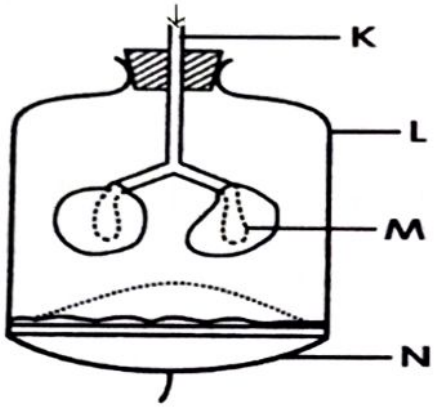

ii).....

b)State two ways of caring for the disabled as vulnerable groups of people.

i).....

ii).....

44. Study the diagram below and use it to answer the questions about it.

(a) Identify the system of the body illustrated above.

.....

(b) What does the part labelled **N** represent in the system of the human being?

.....

(c) Which type of breathing is illustrated above?

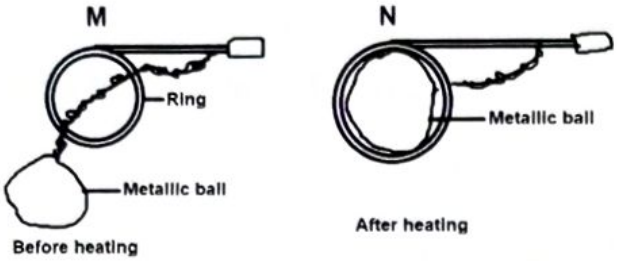

.....

(d) Give a reason why there is change in percentage of inhaled and exhaled carbon dioxide

.....

.....

45. The diagram below shows an experiment carried out by Chloe. Use it to answer questions that follow.

a)Identify the state of matter affected by heat in the experiment above.

.....

b)Give the reason why the metallic ball failed to pass through the ring at **N**.

.....

c)State what should be done for the metallic ball to pass through the ring.

.....

d)What does the experiment above show about matter?

.....

46. a) Name the germ that causes polio.....

b) Explain how immunization with polio vaccine protects children against polio. **2marks**

.....

c) Apart from immunization, state one other way of controlling polio.

.....

47. a)Name the group of tuber crops.

.....

b)Give any two reasons for preserving tuber crops after harvesting.

i).....

ii).....

c)How is propagation of a carrot different from that of the sweet potato

.....

48. a) Give the main reason why farmers keep each of the following;

i)white leghorn.....

ii)light Sussex.....

b) State two reasons why some farmers prefer rearing cross breeds to exotic breeds.

i).....

ii).....

49. a) State two factors to consider before starting a family garden.

i).....

ii).....

b) State two ways in which the family members benefit from a family garden.

i).....

ii).....

50. Use the list of plants below to answer questions that follow.

A	B
Pine	**moss**
Cypress	**liverwort**
Ginkgo	**fern**

a) state one way plants in list **A** are

i) similar to those in **B**

.....

ii) different from those in **B**

.....

b) State one way cotyledons are useful to a bean seedling.

.....

c) Name the type of germination common in monocotyledonous plants.

.....

51. a) Give the meaning of the term matter.

.....

b) Mention one characteristic of gases.

.....

c)State one way the following physical processes are important in our daily lives.

i) freezing.....

ii) evaporation.....

52. a) State one way feeding on a balanced diet helps in proper functioning of the circulatory system.

.....

b) Apart from feeding on a balanced diet, state one way of caring for the circulatory system.

.....

c)Give the function of each of the following component of blood

i) platelets.....

ii) plasma.....

53. a) Apart from polythene bags, name two other materials that are harmful to soil.

i).....ii).....

b) State any two harmful effects of polythene bags on soil.

i).....

ii).....

54. match items in list A with those in list B

A	B
fulcrum	ratio of load to effort
mechanical advantage	fixed point at which a machine turns
Fulcrum	ratio of effort distance to load distance
Velocity ratio	percentage of work output to work input

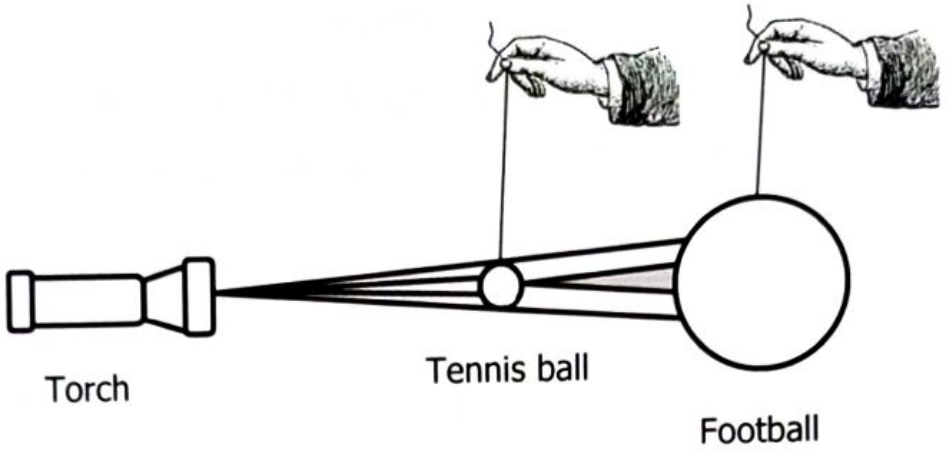

fulcrum .....

mechanical advantage.....

efficiency.....

velocity ratio.....

55. In an experiment below, an electric torch, tennis ball, football were used to demonstrate how an eclipse is formed. Study it and use it to answer questions that follow.

a) Identify the type of eclipse demonstrated above.

.....

b) State what the following represent in the experiment.

i) Tennis ball.....

ii) Football.....

c) State one importance of shadows in the environment.

.....

23- 24		
25- 26		
27- 28		
29- 30		
31- 32		
TOTAL		

SECTION A: (40 Marks)

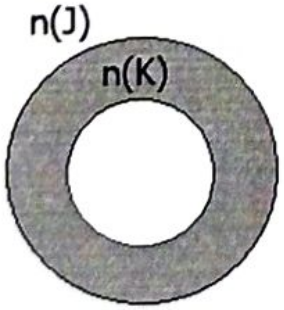

1. Reduce $\frac{5}{10}$ to its simplest form.

2. Write "***one thousand one***" in figures.

3. Find the number expanded to give: 5 tens + 5 tenths

4. Solve for m: 4m = 5 (finite 7)

5. Describe the shaded region on the Venn diagram below.

6. Given that b = 2, a = 3 and c = 4, find the value of $b \div a + 1 \div c$

7. On a certain rainy day, a flight which was meant to be at 25minutes to 4:00 p.m. was delayed by 15 minutes. Find the time the flight took place.

8. Without dividing, show that 13574 is exactly divisible by 11.

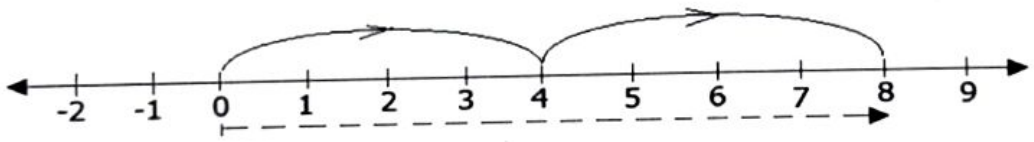

9. What percentage of $2\frac{1}{2}$ hours is 30 minutes?

10. Expand 34.72 using exponents.

11. Simplify: $5 \div (0.05)^2$

12. Two numbers, ***m*** and ***n*** are in the ratio of 3:5. If their lowest common multiple is 60, find the values of ***m*** and ***n***.

13. Write the mathematical sentence represented by the number line below.

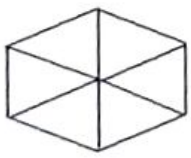

14. Opondo bought a pair of shoes at sh. 50,000. At what price must he sell it in order to make a profit of $12\frac{1}{2}\%$?

15. Complete correctly using either **>**, **<** or **=**

5 kg of sand ..... 5 kg of cotton wool

16. A retailer bought a 50 kg bag of rice at sh.125,000 and packed them into smaller $\frac{1}{2}$ kg packets. If he sold each packet at sh.1800, how much profit did he make in total?

17. Shade $\frac{2}{3}$ of the diagram below

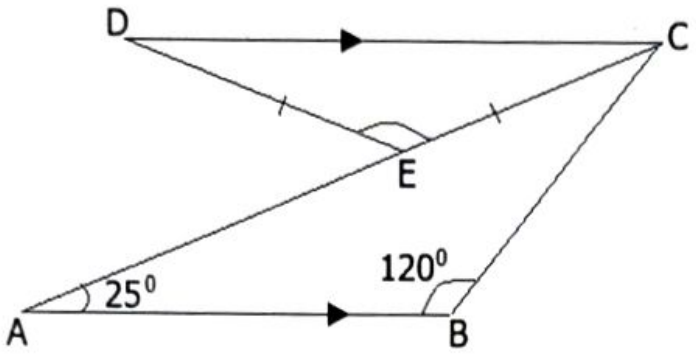

18. A school bursar had coins of sh.500 each and sh.200 each respectively. If she had a total of 20 coins amounting to sh. 6400, how many coins of sh.200 did she have?

19. Mubiru was standing facing in the North-East direction. If he turned anti-clockwise through an angle of 225^0, what is his new direction?

20. In Owino market, the cost of a mango was twice that of an orange. After increasing the price of each item by sh.500, the total cost of the two items became sh. 4000. Find the cost of a mango before the price increase.

SECTION B: (60 Marks)

21. In the figure below, line AB is parallel to line DC and line CE=line DE. Angle ABC = 120^0. Study it and use it to answer the questions below.

a) Find the size of; i) BCD

ii) AED

b) Name a regular polygon with 5 triangles

22. a) Solve for a in: $a^2 + a^2 = 1003_{five.}$

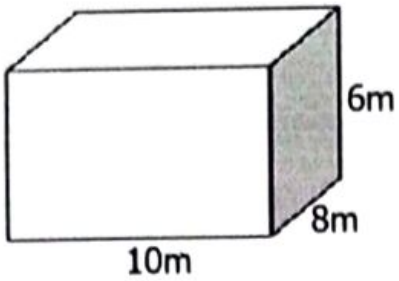

b) Find the value of 3 in 234_{six}

23. In a village, $\frac{2}{3}$ of the male farmers are grow maize while $\frac{1}{4}$ of the females grow cassava. The percentage of male farmers in the village is 60%. The village has 120 farmers growing maize.

a) How many farmers are in that village? (3 marks)

b) How many farmers grow cassava? (2 marks)

24. The diagram below shows a rectangular tank measuring 10 metres long, 8 metres wide and 6metres high. Use it to answer the questions that follow.

a) Calculate the total surface area of the rectangular tank. (2 marks)

b) Calculate its capacity. (3 marks)

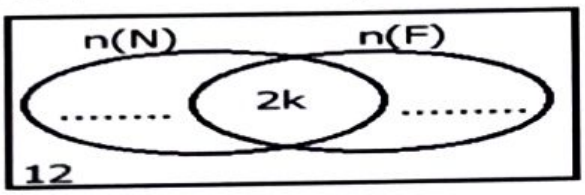

25. Grace was standing near the 12th pole from either side of the line.

a) Find how many poles were in the line. (2 marks)

b) If she bought each at pole at sh. 2,000, calculate the total amount spent on all poles. (2 marks)

26. During the sports day competitions, in a certain house, 24 pupils participated in football (F), 16 pupils participated in netball (N), 2k played both football and netball while 12 pupils participated in other activities.

a) Complete the Venn diagram below. (2 marks)

b) If those who played netball only are half of those who played football only, find the value of k. (2 marks)

c) Calculate the total number of participants in that house many participants were in that house. (1 mark)

27. Ethan bought 20 tomatoes from a market each at sh.300. some of the tomatoes went bad and he sold the remaining tomatoes each at sh. 600 making a profit of 20%.

a) At what price did he sell all the tomatoes? (3 marks)

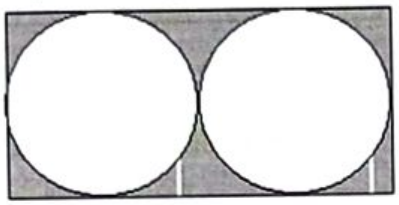

b) Find the number of tomatoes that got spoilt. (2 marks)

28. The interior and exterior angles of a regular polygon are the ratio of 3:2 respectively.

a) Find the size of each angle

b) Work out its interior angle sum.

29. Study the diagram below and use it to answer the questions that follow.

Given that the two circles have a total area of 308 cm^2, calculate the area of the shaded part.

30. a) If water in a 20 litre jerrycan leaks at a rate of half a litre every 30 minutes, how much water will be in the jerrycan after two and a half hours? (3 marks)

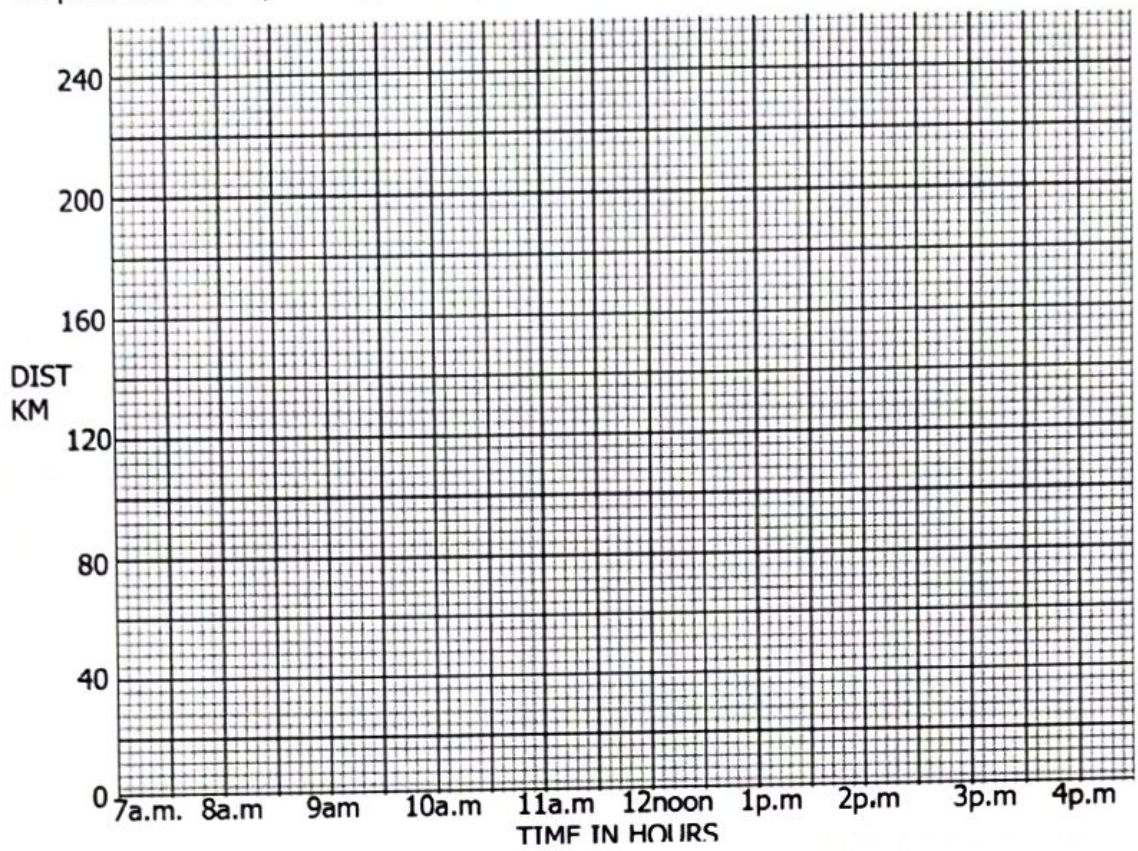

b) Kasiru can sweep the classroom in 3 minutes while Kairu can sweep the same classroom in 6 minutes. If both work together to sweep the same classroom, how long shall it take them to complete the sweeping of the classroom? (2 marks)

31. a) Using a ruler, a pencil and a pair of compasses, construct a rhombus ABCD, where diagonal BD = 6cm and diagonal AC = 8cm. (3 marks)

b) Calculate its area. (1 mark)
