2026

MATHEMATIC

Time Allowed: 2 hours 30 minutes

Total mark Scored	

Random No.						Personal No.		

Pupil's Name:.....

Pupil's Signature:.....

District ID No.

Read the following instructions carefully:

1. Do not write your **school** or **district name** anywhere on this paper.
2. This paper has two sections: **A** and **B**. Section **A** has **20** questions and section **B** has **12** questions. The paper has **16 printed** Pages.
3. Answer **all** the questions. **All** answers to both sections **A** and **B** must be written in the spaces provided.
4. **All** answers must be written using a **blue** or **black** ball point pen or ink. Any work written in pencil other than graphs and diagrams will **not** be marked.
5. No **calculators** are allowed in the examination room.
6. Unnecessary **changes** in your work and handwriting that cannot easily be read may lead to **loss of marks**.
7. Do not fill anything in the table indicated: **"FOR EXAMINER'S USE ONLY"** and boxes inside the question paper.

SECTION A: 40 MARKS

Answer **all** *questions in this* section

Questions **1** *to* **20** *carry* **two** *marks each*

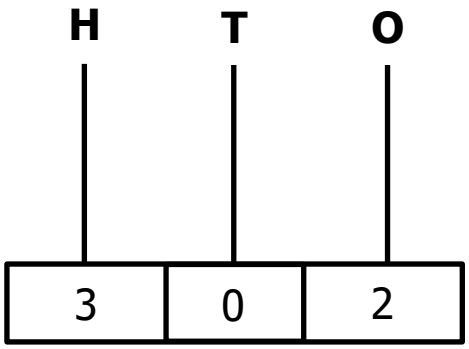

1. Work out:

$$\begin{array}{r} 4\ 3 \\ +\ 1\ 0 \\ \hline \\ \hline \end{array}$$

2. Simplify: $y^3 \div y^2$

3. Solve for r: $r + 8 = {}^{-}3r$

4. Draw beads to complete the abacus below.

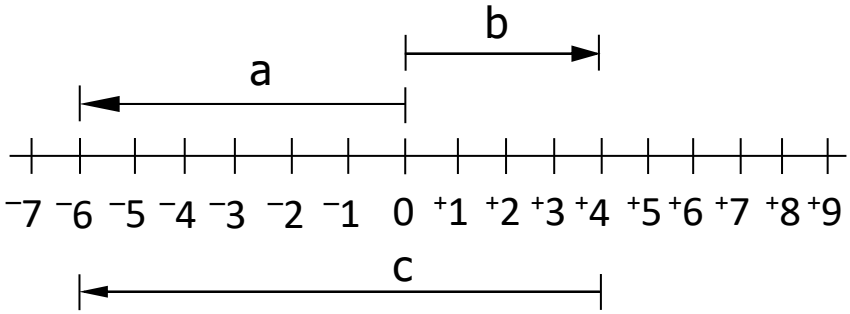

5. Okot was born in MCMLXII. Express the year he was born in Hindu-Arabic numerals.

6. In a class, there are 6 boys and 4 girls. If a pupil is picked at random to be the class captain, find the probability that the pupil picked is a boy.

7. Simplify: $6^3 - 4^0 + 1^2$

8. A businessman bought a jacket at sh 28,000. After selling it, he made a loss of sh 3,500. Find the selling price of the jacket.

9. Study the number line below and use it to answer the questions that follow.

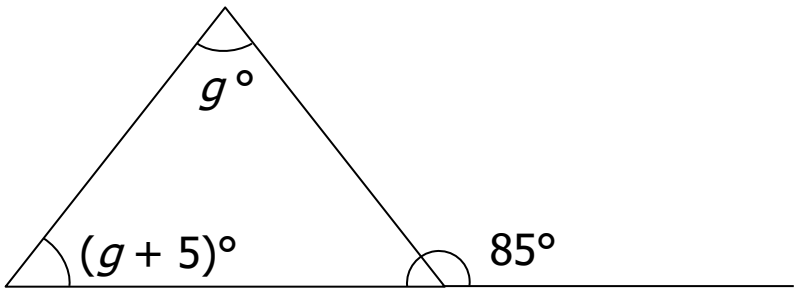

Write the mathematical sentence shown on the number line above.

10. During marking, learners scored the following grades in mathematics; 5, 2, and 6
Use the information given above to form the largest 3-digit number.

11. An academic term which took 93 days ended on Friday. Determine the day it started.

12. Ntambi borrowed sh 200,000 from Del Bank at a simple interest of sh 64,000 for 4 years. Find the amount of money Ntambi paid after 3 years.

13. In the diagram below, find the value of g .

14. The table below represents the grades scored by the pupils of Disney Junior School in mathematics test. Study and use it to find the value of r if the mean grade of the pupils is 3.

Frequency	///	//	r	///	////	////	////	///
Grades of the pupils	3	2	4	1	4	2	3	2

15. Find the missing modulus represented by letter t and y.

(i) 2(mod 3) = { 5, 8, t, 14, 17, 20, …}

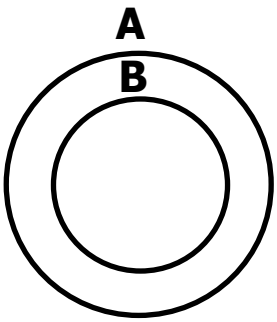

(ii) 1(mod 5) = {6, 11, 16, 21, y, 31, …}

16. A bank in Kampala exchanges dollars and Tanzanian shillings at the rates shown below.

Currency	**Buying rate**	**Selling rate**
1 US Dollar ($)	Ug sh 3,700	Ug sh 3,850
1 Tanzania shilling	Ug sh 1.6	Ug sh 1.8

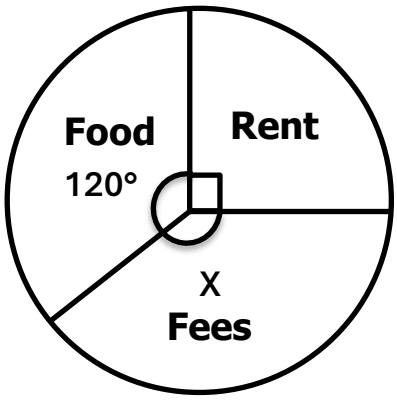

Calculate the amount in Uganda shillings a businessman with 180 dollars will receive from the bank.

17. In the Venn diagram below, shade **A** ∩ **B**.

18. Express 34_{five} into binary base.

19. The pie-chart below represents how Okello spends his monthly salary. Study and use it to find the size of the angle marked **X**.

20. Bruno swims round a 9.8 metre circular rink and finishes 2.3 metres behind his starting point in 3 seconds. Express his average speed in kilometres per hour.

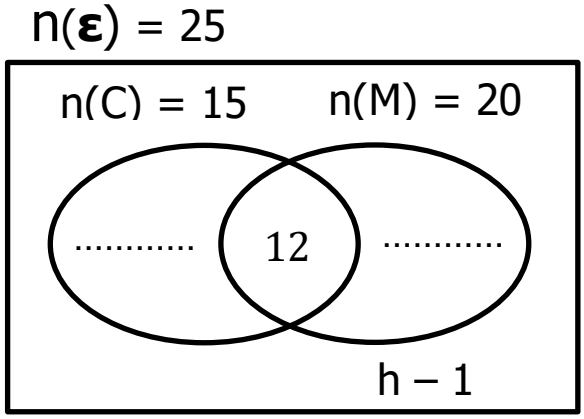

SECTION B: 60 MARKS

Answer **all** *questions in this section*

Marks for each section are indicated in brackets

21. At a party attended by 25 guests, 12 guests were served both Mirinda (M) and Coca-Cola (C), (2h – 3) guests were served Coca-Cola only, 20 guests were served Mirinda while (h – 1) guests were not served any of the two drinks.

(a) Use the above information to complete the Venn diagram below. (*02 marks*)

(b) Work out the number of guests who were served with only one type of drink. (*03 marks*)

22. John and Bosco left town **P** for town **Q** at the same time. Town **Q** is 180 km from town **P**. John drove at 80 km/h and had a refuelling break of half an hour during the trip, while Bosco maintained a constant speed of 60 km/h throughout the trip.

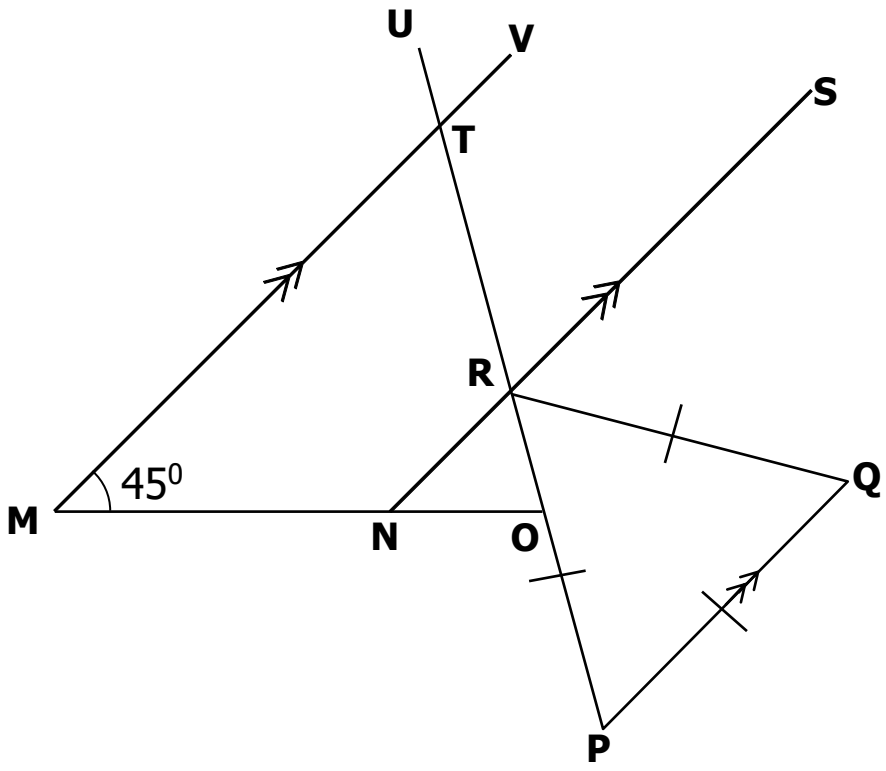

(a) Calculate how far Bosco was from town **Q** when John arrived at town **Q**. (*03 marks*)

(b) Find the speed Bosco should have maintained in order to reach town **Q** 45 minutes ahead of John. (*03 marks*)

23. (a) Using a ruler, a pencil and a pair of compasses only, construct a kite **KCEB** such that **KE** = 5 cm, **KB** = **BE** = 3.5 cm and **CB** = 9 cm. (*04 marks*)

(b) Measure length **KC**. (*01 mark*)

24. In the figure below, **MV**, **NS** and **PQ** are parallel lines. Angle **VMN** = 45^0 and **PQR** is an equilateral triangle. Study it and answer questions that follow.

(a) Find the size of angle **NOR**. (*03 marks*)

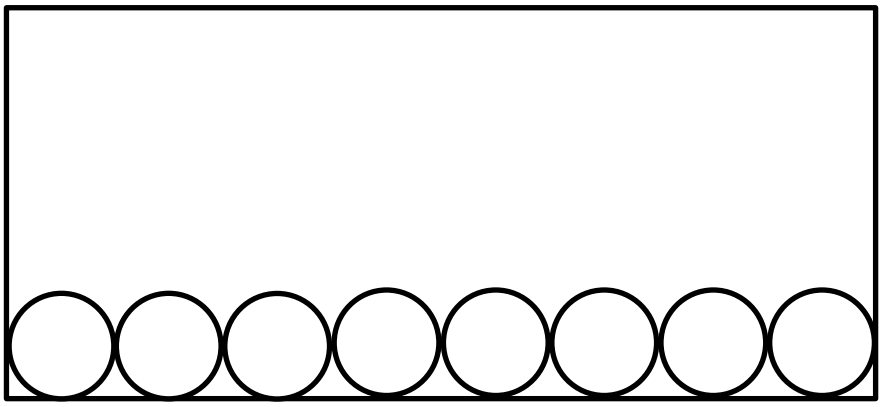

(b) Calculate the size of angle **MTU**. (*02 marks*)

25. Three pupils, Ismail, Mary, and Paul, were given some pens to share. Mary got a third of Ismail's share, but Ismail and Paul shared 50 pens in the ratio of 3:m respectively. If Paul got 5 pens less than a half of the total number of pens him and Ismail shared, find Mary's share.
(*05 marks*)

26. If $y = 4x + {}^{-}1$, complete the table below. (*05 marks*)

X	$\frac{1}{4}$	.....	.....	.....	$^{-}2$
Y	.....	$^{-}9$	$\frac{1}{3}$	$^{-}5$	.....

27. Ratib cut out circular coasters from rectangular cardboard sheet along its length and cut unknown number of circular coasters along the width as shown in the diagram below. Study and use it to answer the question that follow.

112 cm

If the area of the uncut part of the rectangular cardboard sheet in the above diagram is 3,360 cm^2, determine the number of coasters that were cut along the width. (*06 marks*)

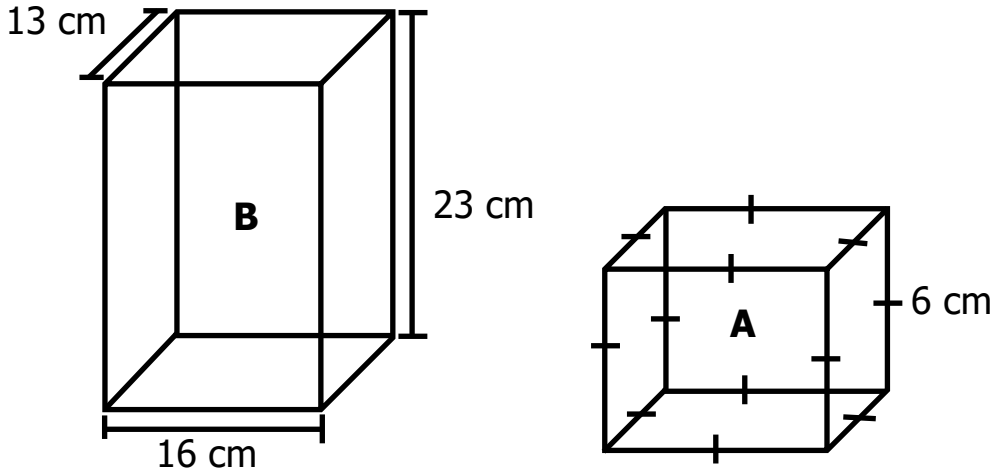

28. A school bursar bought 5 books and 2 geometry sets. Each book costs sh (x – 800) less than sh 3,700 and each geometry set costs sh (x – 400) less than sh 2,800. If he paid sh 17,700 in total, find the amount of money he spent on books. (*04 marks*)

29. Abdallah went to the supermarket and bought the following items;

5 kg of beans at sh 3,400 per kg
750g of groundnuts at sh 8,000 per 500g
4 packets of salt at sh 4,800
$3\frac{1}{2}$ litres of milk at sh 2,700 per litre
12 Oranges at sh 1,500 for every 3 oranges

If Abdallah was given a discount of 20% on his total expenditure, find the amount he paid for the items. (*05 marks*)

30. In the diagrams below, **A** is a cube with side 6 cm while **B** is a box measuring 16 cm long, 13 cm wide and 23 cm high. If cubes of size **A** were packed in the box **B**, calculate the volume of the space left in the box **B** after packing all cubes of size **A**. (*05 marks*)

31. The average mass of 10 sacks of cement is 45 kg. When 2 sacks were removed, the average mass became 47 kg. If the 5^{th} sack is 6 kg heavier than the 6^{th} sack, determine the mass of the 5th sack.

(*04 marks*)

32. The table below shows the journey covered by a taxi from Kampala to Masaka. Study it and answer the questions that follow.

PLACE	DISTANCE	ARRIVAL	DEPARTURE	FARE
Kampala			11:30a.m.	
Mpigi	40km	12:10p.m.	12:15p.m.	sh 6,000
Kayabwe	43km	1:05p.m.	1:20p.m.	sh 7,500
Lukaya	25km	1:45p.m.	1:55p.m.	sh 3,500
Masaka	26km	2:25p.m.		sh 4,000

(a) Find the distance from Kampala to Kayabwe. (*02 marks*)

(b) Faridah is a resident of Mpigi. She boarded the taxi and travelled to her grandparents' home in Lukaya. If she gave the taxi conductor a note of fifty thousand shillings, find the change she was given. (*03 marks*)

SECTION A: 40 MARKS

Answer **all** *questions in this section*

Questions **1** *to* **40** *carry* **one** *mark each*

1. Name the type of chicken kept for both eggs and meat.

.....

2. State any **one** negative effect of smoking to an individual.

.....

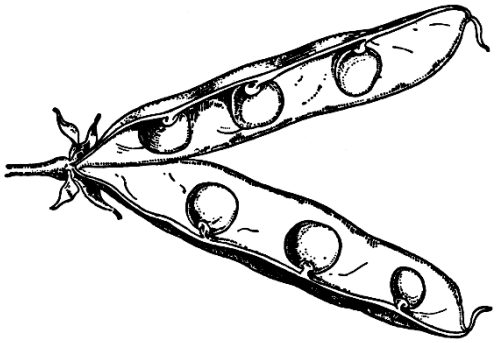

3. Give any **one** way in which soil loses its fertility.

.....

4. Name the form of energy produced by vibration of an object.

.....

The diagram below shows a method of seed dispersal. Study and use it to answer questions **5** and **6**.

5. Identify the method of seed dispersal shown in the above diagram.

.....

6. Mention any **one** plant whose seeds are dispersed through the method shown above.

.....

7. Give the role of the tongue during the process of food digestion.

.....

8. State any **one** role of a School Health Club in promoting sanitation.

.....

The diagram below shows a bird. Use it to answer questions **9** and **10**.

9. Identify the group of birds to which the above bird belong.

.....

10. State any **one** way in which the above bird is useful in the environment.

.....

11. State **one** importance of maintaining proper personal hygiene.

.....

12. State any **one** way of protecting water in the wells from contamination.

……

13. Write **one** sign and symptom of rickets in children.

……

14. Give any **one** way in which natural methods of family planning are better than artificial methods.

……

15. Name the viral immunisable disease of muscular skeletal system.

……

16. Write **one** way of controlling internal parasites in cattle.

……

17. Give the difference between the function of the pulmonary artery and that of pulmonary vein.

……

……

18. Identify the green colouring pigment in plants that traps sunlight during photosynthesis.

……

19. State **one** health problem which is associated with rapid population increase in an area.

……

20. Give **one** importance of the antennae to an insect.

.....

21. State the reason why topsoil is suitable for plant growth.

.....

22. Name the physical process by which dew is formed from the atmosphere.

.....

23. Give the reason why splints are tied on a fractured limb when giving First Aid.

.....

24. Name the element of Primary Health Care (**PHC**) that promotes child spacing among married couples.

.....

25. Mention any **one** energy resource obtained from water sources.

.....

26. Give any **one** advantage of castrating male farm animals.

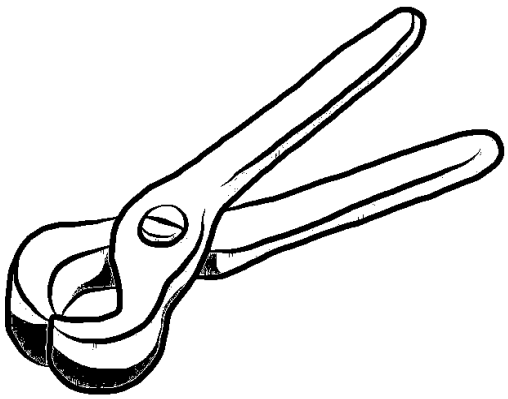

.....

27. Write **one** way in which mulching helps to conserve water in the soil.

.....

.....

The diagram below is of a simple machine. Use it to answer questions **28** and **29**.

28. Identify the class of levers to which the above machine belong.

.....

29. Indicate on the diagram with an arrow and letter **F**, fulcrum of the machine.

.....

30. Give any **one** danger of sharing houses with domestic animals.

.....

31. State **one** reason why seeds may fail to germinate even when all conditions for germination are provided.

.....

32. Write the type of metamorphosis that a butterfly undergoes.

.....

33. State the property of air that enables sucking of drinks through a straw.

.....

34. State how pouring of oil on stagnant water controls the breeding of mosquitoes.

.....

.....

35. State the mode of reproduction in mushrooms.

.....

36. Give any **one** danger of poor disposal of wastes in our environment.

.....

37. State any **one** factor considered by doctors when prescribing drugs to patients.

.....

38. Name the part of the human skeleton that protects the lungs and the heart from mechanical injuries.

.....

39. Give any **one** sign and symptom of coccidiosis infection in rabbits.

.....

40. State the reason why a Ventilated Improved Pit (**VIP**) latrine should not have a lid on the drop hole.

.....

.....

SECTION B: 60 MARKS

Answer **all** *questions in this section*

Questions **41** *to* **55** *carry four marks*

41. (a) Mention any **two** products obtained from milk.

(i) .....

(ii) .....

(b) State any **two** advantages of milking using a machine.

(i) .....

(ii) .....

42. (a) Give any **two** similarities between fish and reptiles.

(i) .....

(ii) .....

(b) State any **two** ways in which reptiles are important to people.

(i) .....

(ii) .....

43. (a) State any **two** causes of anti-social behaviours among children.

(i) .....

(ii) .....

(b) Give **two** ways of controlling anti-social behaviours in children.

(i) .....

(ii) .....

44. (a) State **two** factors which affect the speed of sound.

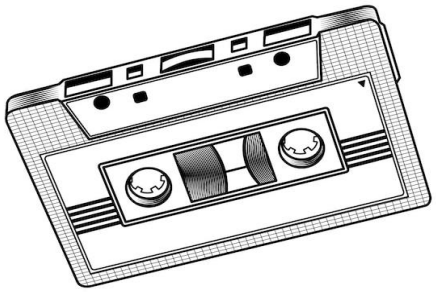

(i) .....

(ii) .....

(b) Give the reason why sound waves do not travel in vacuum.

.....

(c) Identify the method of storing sound where sound is recorded on the device below.

.....

45. (a) Mention **two** examples of stem tuber crops.

(i) .....

(ii) .....

(b) Apart from stem tubers, give any other group of underground stems.

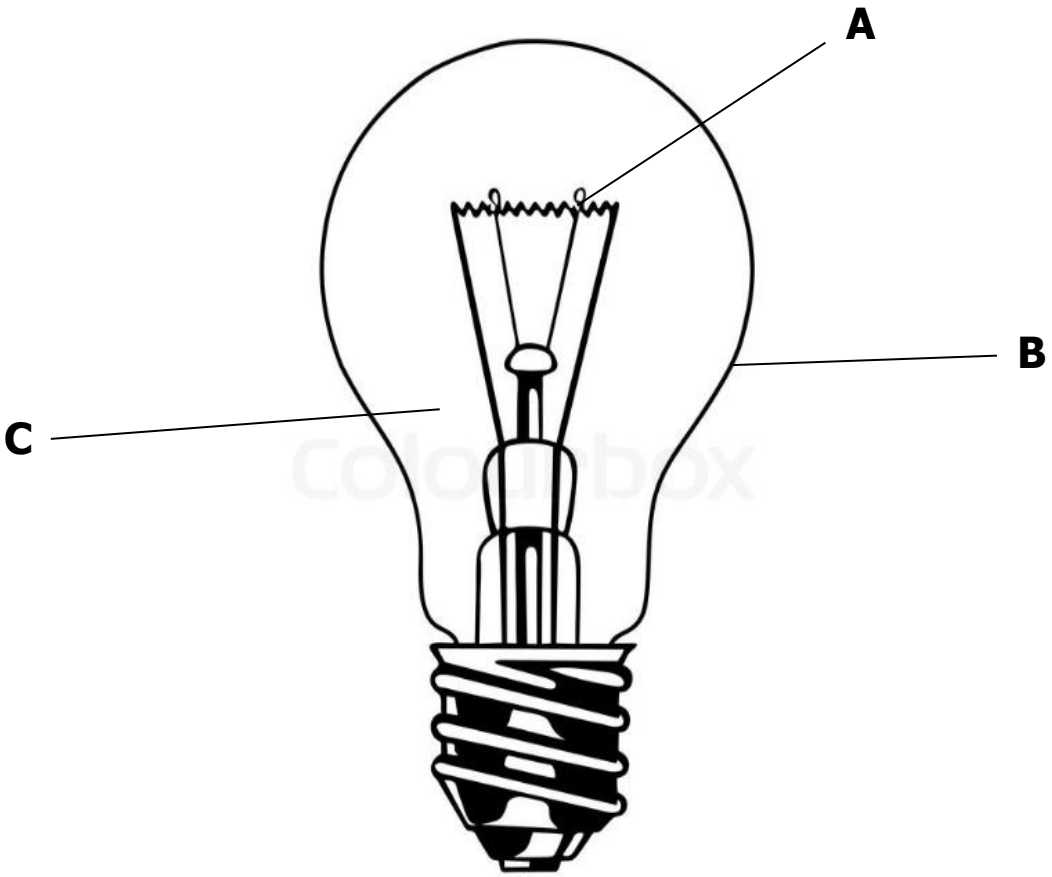

.....

(c) Give the reason why sugarcane plant is not classified under stem tuber crops.

.....

.....

46. The diagram below is of an electric bulb. Study and use it to answer the questions that follow.

(a) Name **two** inert gases found in the area marked **C**.

(i) .....

(ii) .....

(b) State the energy change which occurs in part marked **A**.

.....

(c) Give **one** reason why the part marked **B** is made of a transparent glass material.

.....

47. Study the table below and use it to match the crop growing activities in list **Q** to their advantages in list **R**.

Q: Activity	**R: Advantage**
mulching	Removes hiding places for crop pests.
staking	Prevents time wastage when planting.
pruning	Keeps water in the soil.
seed selection	Prevents rotting of tomato fruits.

(a) mulching .....

.....

(b) staking .....

.....

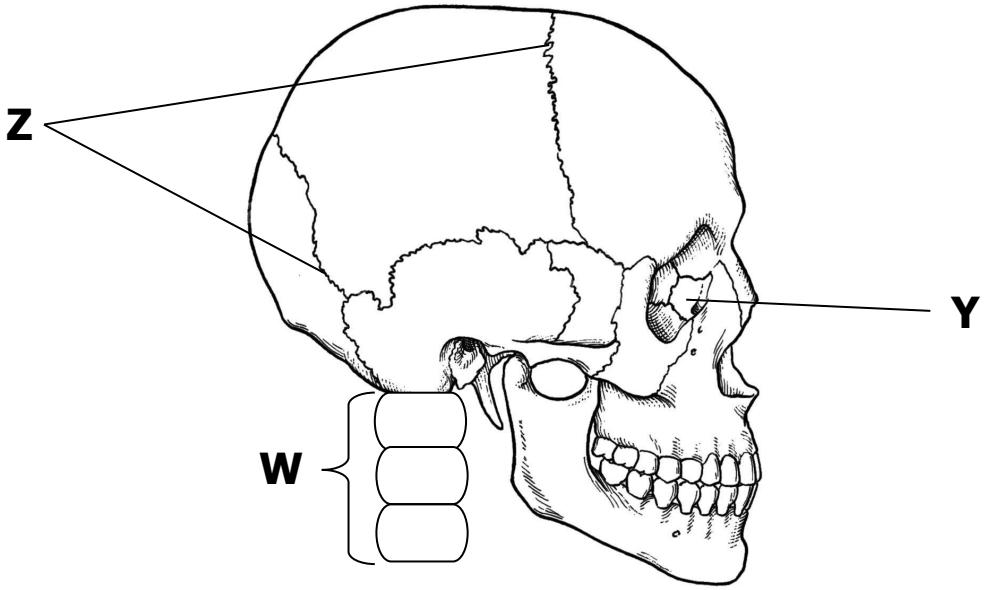

(c) pruning .....

.....

(d) seed selection .....

.....

48. The diagram below shows part of a human skeleton. Study and use it to answer the questions that follow.

(a) Name the part of a human skeleton shown.

.....

(b) Give the function of part marked **Y** on the shown part.

.....

(c) Write **one** way in which joint **W** is different from joint **Z**.

.....

.....

(d) State **one** way of protecting the shown part of human skeleton from mechanical injuries.

.....

.....

49. (a) Give the meaning of the term deficiency diseases.

.....

.....

(b) The table below shows food nutrients, their sources and deficiency diseases. Study and complete it correctly.

Food nutrient	**Source**	**Deficiency disease**
proteins	Eggs	.....
.....	Oranges	Scurvy

(c) Give the most suitable way of protecting oneself against deficiency diseases.

.....

50. (a) Give **two** raw materials used by the human body during respiration.

(i) .....

(ii) .....

(b) Mention any **one** by-product of respiration.

.....

(c) State any **one** way of keeping the lungs in a proper working condition.

.....

51. (a) Apart from transpiration, name any other plant process which occurs in the leaves.

.....

(b) Give any **two** factors which affect the rate of transpiration.

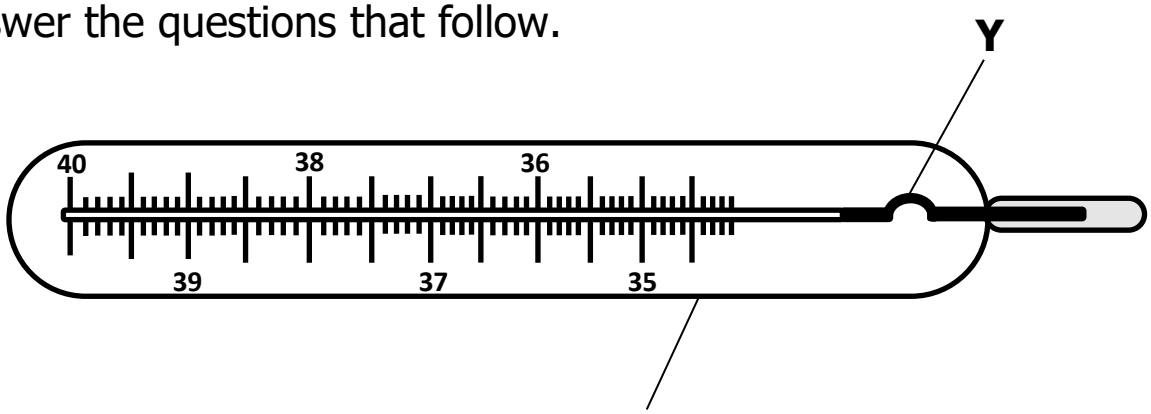

(i) .....

(ii) .....

(c) Give any **one** importance of transpiration to plants.

.....

52. The diagram below is of a clinical thermometer. Study and use it to answer the questions that follow.

(a) Identify the part marked **X**.

.....

(b) State the function of the part marked **Y** in a clinical thermometer.

.....

(c) Give **two** reasons why mercury is preferred to water.

(i) .....

(ii) .....

53. (a) Mention any **two** examples of water pollutants.

(i) .....

(ii) .....

(b) Give the importance of each of the following steps in cleaning clothes;

(i) rinsing .....

.....

(ii) wringing .....

.....

54. (a) Give any **one** importance of conduction of heat to people.

.....

(b) You are provided with a match box, a candle, an iron rod and a piece of wax. Describe how you will use the above materials to demonstrate heat transfer by conduction. (*03 marks*)

.....

.....

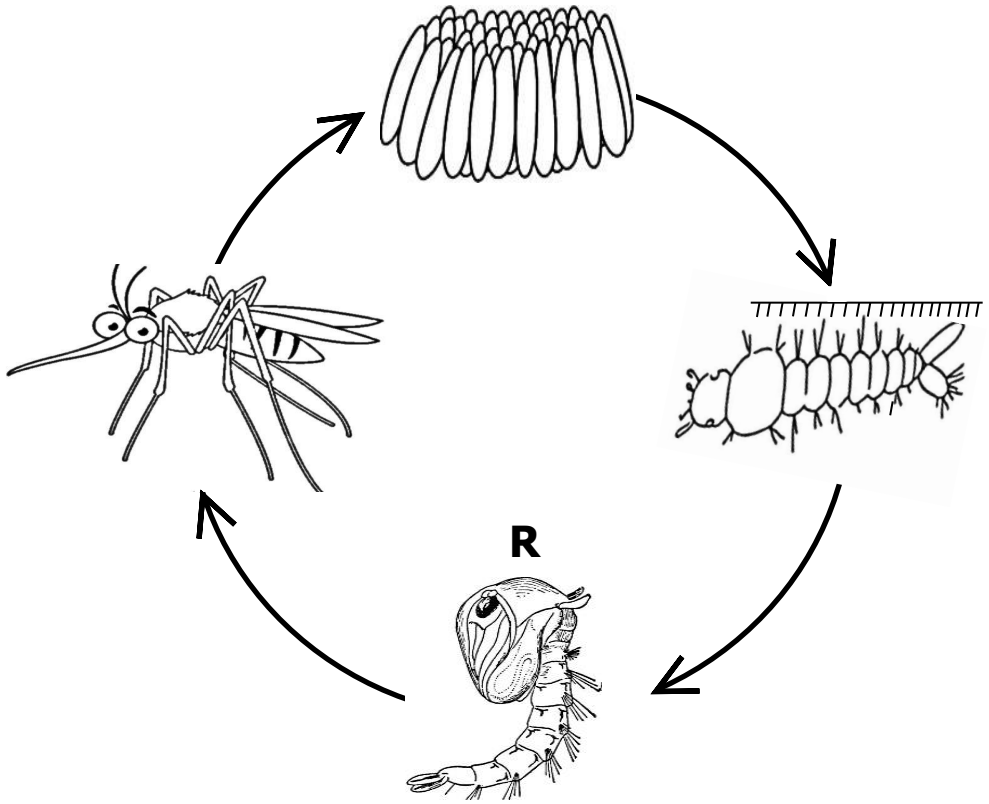

.....

.....

.....

.....

55. The diagram below shows the life cycle of a type of mosquito. Study it carefully and answer the questions that follow.

(a) Name the stage of the life cycle marked **R**.

.....

(b) Identify the type of mosquito whose life cycle is shown above.

.....

(c) Name the disease that is transmitted by the type of mosquito shown above.

.....

(d) Give **one** way of controlling the breeding of the above disease vector.

.....

SECTION A: 40 MARKS

Answer **all** *questions in this section*

Questions **1** *to* **40** *carry* **one** *mark each*

1. Name the component of a home that promotes food security.

.....

2. Give **one** way in which the recreational activities promote unity among people in our communities.

.....

3. State the name of the animal regarded as the "ship of the desert".

.....

4. Give **one** way in which the early Arabs contributed to the social development of the people of East Africa.

.....

5. Mention **one** economic activity carried out in savannah grasslands.

.....

6. Give **one** way in which greeting visitors promotes good relationships in the community.

.....

7. State how the method used by Uganda to get her independence was different from that of Kenya.

.....

.....

8. Write **one** effect of global warming on drainage features.

.....

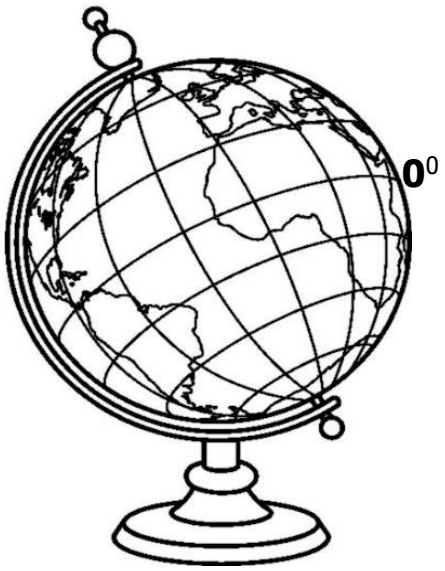

9. Give **one** reason why Arusha is important to African countries.

.....

10. State **one** way in which peacekeeping missions have helped to restore peace in countries affected by war.

.....

Study the diagram below and use it to answer the questions **11** and **12**.

11. Give a reason why the line marked **0°** on the diagram above is used as the starting point for measuring other lines of latitude.

.....

12. State **one** precaution children should take when flying kites.

.....

13. A tourist boat capsized on Lake Victoria. State how the presence of rocks could have contributed to this accident.

.....

14. Mention the River-Lake Nilotic tribe which settled in Nyanza province.

.....

15. State how fishermen benefit economically from water bodies in an area.

.....

16. Give **one** reason why areas with few economic activities have low population.

.....

17. If the time at Greenwich is 1 : 00 p.m., write the time in a country located at longitude **50°E**.

.....

18. State **one** way in which pavers in the school compound reduce maintenance costs.

.....

19. Write **one** way in which The Aids Support Organisation (**TASO**) has assisted **HIV**/**AIDS** victims in Uganda.

.....

20. Give **one** way in which the absence of clear routes affected early explorers negatively in East Africa.

.....

21. State **one** way in which a loan from the World Bank can help Uganda to construct roads.

.....

22. State how Buy Uganda, Build Uganda (**BUBU**) implementation helps Mr. Atiku a local shoe maker in Yumbe District to earn more money.

.....

23. Write **one** precautionary step taken by the Ministry of Education following the recent accidents involving school children.

.....

24. Give **one** way in which Marcus Garvey contributed to the economic welfare of Africans.

.....

25. State how the hardness of basement rocks help during dam construction.

.....

26. Give **one** way in which a school badge is different from a school motto.

.....

27. State **one** way in which gender equality can be promoted in Uganda.

.....

28. Mention the political change that took place among African communities due to Boer settlement in the interior.

.....

29. Give **one** way in which government inspection helps to improve service delivery in districts.

.....

30. Mention the railway line that was constructed in Sudan to support the Gezira scheme in the transportation of raw cotton to ginneries.

.....

31. State how energy-saving stoves help to reduce deforestation.

.....

32. Give **one** way in which the Judiciary helps the Executive to implement laws.

.....

33. State **one** way in which peacekeeping forces discourage people from stealing.

.....

34. State any **one** way in which the people of pre-colonial Uganda were socially organised.

.....

35. Give **one** reason why the German cotton-growing policy in Tanganyika led to the Maji-Maji rebellion.

.....

For each of the questions **36** *to* **40***, answer* **EITHER** *the Christian* **OR** *the Islamic question but not* **both***.* **No marks** *will be awarded to a candidate who attempts both alternatives in* **a particular question**.

36. **EITHER**:

State how helping the lame people promotes unity in the community.

.....

OR:

State how helping the lame people promotes unity in the community.

.....

37. **EITHER**:

Give **one** way in which Jesus fulfilled God's promise to Abraham.

.....

OR:

Give **one** way in which Isa fulfilled Allah's promise to Ibrahim.

.....

38. **EITHER**:

State how offering sacrifices showed belief in God in African Traditional Society (**ATS**).

.....

OR:
State how offering sacrifices showed belief in Allah in African Traditional Society (**ATS**).

.....

.....

39. **EITHER**:

State how Jesse showed obedience to God when Samuel came to his home.

.....

.....

OR:
State **one** way in which prophet Muhammad (**P**.**B**.**U**.**H**) showed honesty before he became prophet.

.....

40. **EITHER**:

Give **one** reason why King Herod felt threatened by the birth of Jesus Christ.

.....

.....

OR:
Give **one** reason why Pharaoh felt threatened by the birth of Prophet Musa (**A**.**S**).

.....

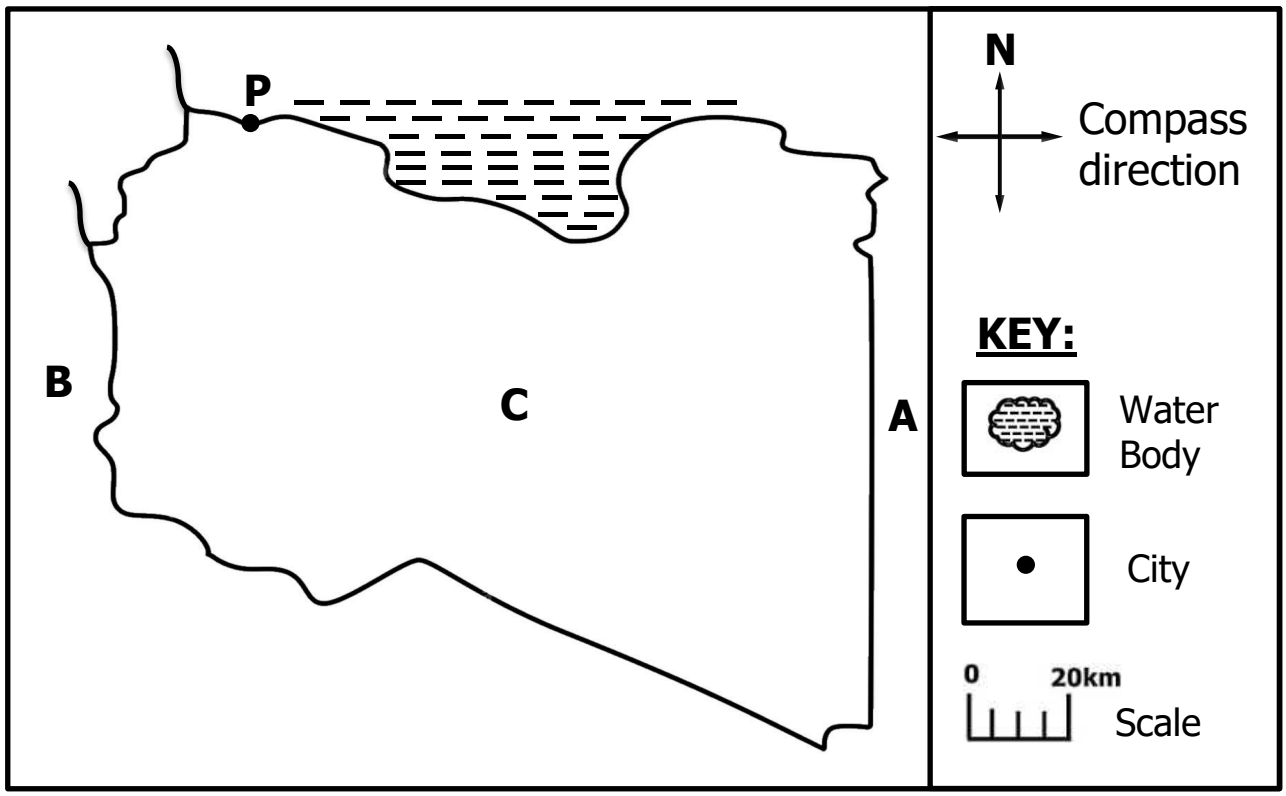

.....

SECTION B: 60 MARKS

Answer **all** *questions in this section*

Questions **41** *to* **55** *carry four marks each*

41. Study the sketch map below and answer the questions that follow.

(a) Identify the city marked **P**.

.....

(b) State **one** way in which high population in the Northern region of the country above affects the environment.

.....

(c) Give **one** way in which joining **OPEC** benefits the country above.

.....

(d) State **one** reason why political instability slows down development in the country above.

.....

42. (a) Write **O**.**A**.**U** in full.

.....

.....

(b) Give **one** way in which the formation of **O**.**A**.**U** strengthened the political position of newly independent African states.

.....

(c) Give **one** reason why Addis Ababa was chosen as the seat of **O**.**A**.**U**.

.....

.....

(d) Name the organisation that replaced the **O**.**A**.**U**.

.....

43. Mr. Kato (40 years) and Ms. Sarah (28 years) went to vote during presidential elections but both were not allowed to vote.

(a) Give a reason why they were disqualified from voting.

.....

.....

(b) State **one** duty of a polling constable at the Polling Station.

.....

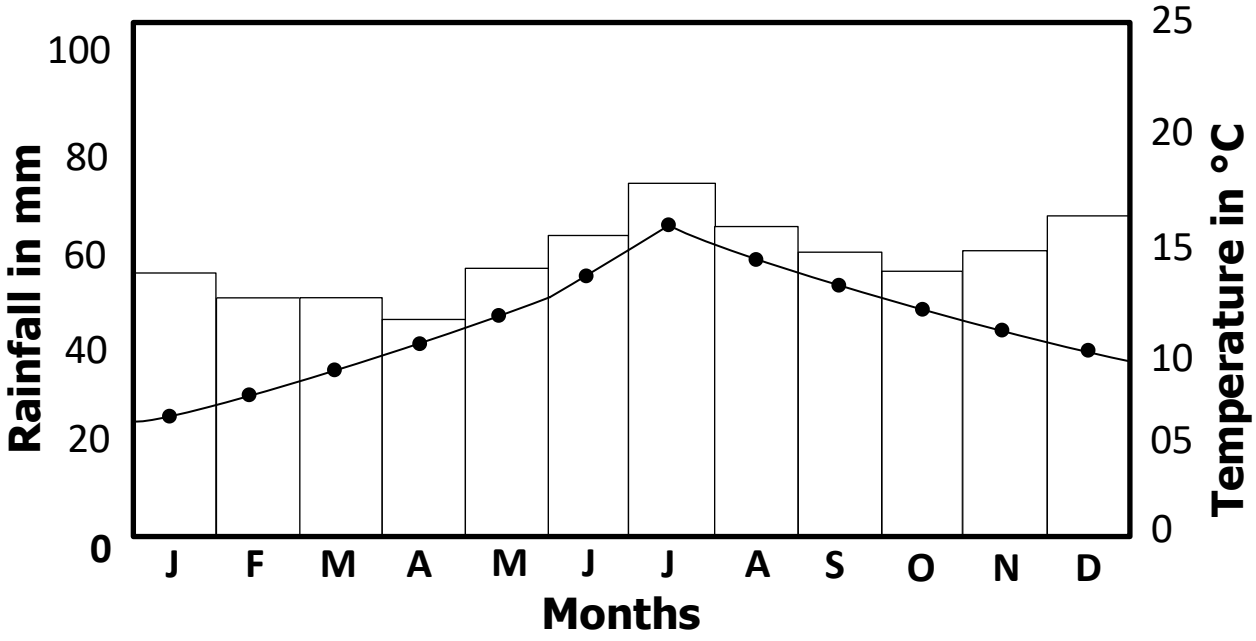

(c) Name the main officer in charge of a Polling Station.

.....

(d) State **one** way in which elders benefit the country through their representation in Parliament.

.....

44. Study the climatic graph below and use it to answer questions that follow.

(a) Identify the month that had the least average rainfall.

.....

(b) State the relationship between rainfall and temperature as shown on the above graph.

.....

(c) Identify the type of climate shown above.

.....

(d) Write **one** characteristic of the type of climate shown above.

.....

45. (a) State **one** way in which **ECOWAS** has promoted regional trade in Africa.

.....

(b) Mention **two** trade items that were exported from America to Europe along the Afro-American route during the Triangular Trade.

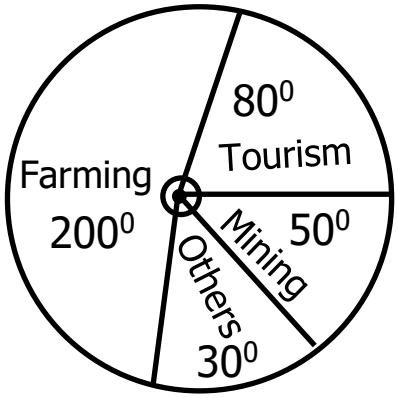

.....

(c) State **one** method used to obtain slaves from Africa during the Triangular Trade.

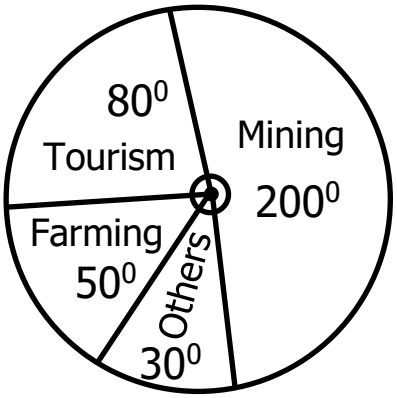

.....

46. The pie charts below represent Countries **X** and **Y**. Study and use it to answer the questions that follow.

X

Y

(a) Identify the major economic activity in the following countries;

(i) Country **X** .....

(ii) Country **Y** .....

(b) Give **one** reason why country **X** earns less income than country **Y** yearly.

.....

(c) State **one** reason why country **X** is more suitable for setting up agro-based industries than country **Y**.

.....

47. (a) Give **one** reason why winds blow from one area to another.

.....

(b) Mention **two** elements of wind recorded at the meteorological centre.

(i) .....

(ii) .....

(c) State any **one** reason why arid climatic regions are cold at night.

.....

48. (a) Name **one** historical site in East Africa.

.....

……

50. That boy came to school late. The teacher warned him seriously. (*Join the sentences beginning*: Having ……..)

……

……

SECTION B: 50 MARKS

Questions **51** to **55** carry ten marks each

51. *Read the passage below and,* **in full sentences**, *answer the questions that follow.*

Laropi Garage is a large workshop on the outskirts of Moyo Town in Moyo District, Northern Uganda. Started over fifteen years ago, it has grown into one of the busiest vehicle repair centres in the area. Every day, dozens of taxis, boda bodas, private cars and trucks come for servicing. The garage is popular among drivers and vehicle owners from across West Nile because of its quick service.

Despite this popularity, Laropi Garage is also notorious for a high rate of theft. It employs many young men, most of whom are unemployed school leavers who could not continue with education. Due to lack of jobs, some of these youths have joined bad groups. Taxi owners who park their vehicles at the garage overnight often report missing batteries, radios, spare tires and side mirrors in the morning. This has caused many people to lose trust in the garage.

One worker, Oryema Juma, aged 24, was the leader of a group called the "Spanner Boys" that specialised in stealing car parts and selling them in Moyo Town. One night he stole a battery, a radio and two side mirrors from a church van. The van belonged to Pastor Anguyo, who had parked it overnight after coming for prayers in Moyo. The stolen items were valued at 2 million shillings. After this incident, many church leaders became afraid to park at the garage.

Fortunately, Oryema left behind his black cap and a pair of greasy gloves at the scene. Police from Laropi Police Station used the items to identify and arrest him. He made a statement and was taken to Moyo Magistrate's Court where he was charged with theft. He spent four months on remand before being found guilty. The magistrate sentenced him to eight years in Gulu Prison, where he is now serving his sentence. News of his arrest brought relief and joy.

(a) Where is Laropi Garage located?

.....

(b) Why is Laropi Garage popular among drivers and vehicle owners in West Nile?

.....

(c) Who are the majority of workers employed at Laropi Garage?

.....

(d) What do taxi owners often report missing from their vehicles in the morning?

.....

(e) How much were the items stolen from Pastor Anguyo's van worth?

.....

(f) What did Oryema forget at the scene that helped the police to arrest him?

.....

(g) In which court was Oryema Juma charged with theft?

.....

(h) For how many years was Oryema Juma sentenced to prison, and where is he serving the sentence?

.....

(i) Give another word to mean the same as "unemployed" as used in the passage.

.....

(j) Suggest a suitable title for the passage.

.....

52. *Read the poem below and,* **in full sentences**, *answer the questions that follow.*

A happy time
Music and dance are,
With drums beating loudly,
And guitars playing sweetly,
Filling the whole hall with joy.

A happy time
Music and dance are,
With pupils dancing happily together,
Moving to the rhythm of the music,
Showing their amazing talents proudly.

A happy time
Music and dance are,
With the choir singing very loudly,
And voices reaching up high,
Bringing happiness to everyone.

A happy time
Music and dance are,
With spectators clapping and cheering loudly,
And big crowds gathered on the stage,
Enjoying the beautiful performance.

Achidri Gerald

(a) What is the poem about?

.....

.....

(b) What instruments are mentioned in the poem?

.....

(c) How many stanzas does the poem have?

.....

.....
