(Join beginning: Both.....)

.....

.....

SECTION B

(Questions **51** to **55** carry **10** marks each.)

51. **Read the passage below and in full sentences answer the questions that follow.**

In an attempt to improve the use of English in Budongo Primary School, the head teacher introduced a vernacular task force in 2008. The pupils were told to use English all the time at school and even in dormitories. Some pupils didn't like the idea as those found using vernacular were always punished.

One morning, the head teacher announced that the whole school was going to have a debate as one way of improving on English speaking. This did not please those pupils who were good at using vernacular. They made noise and others refused to enter the main hall where the debate was to be held.
Four of the boys from P. 6 Violet decided to go to the nearby bush so as to dodge the debate. They had established a place where to hide when they saw a sugarcane plantation. They hurried into the garden and started eating sugarcanes.

Shortly, the owner of the garden, Mr. Awich Deng, came to check on his plantation as usual. He stopped for a while after **realizing** that there were people in the garden. He said to himself, "I am going to catch these boys today." He then tiptoed until he held one of the boys by the hand.

"You are the ones who steal my sugarcanes, let us go to the police. You will name the rest," Mr. Awich Deng shouted.
The other three boys decided to escape. As they were trying to do so, a speeding lorry knocked them dead. When Mr. Awich Deng saw the three dead bodies, he left the boy he had caught and ran back to his home. From that time, Reagan, who survived the accident swore never to dodge lessons or steal again.

1. Why did the head teacher of Budongo Primary School introduce a vernacular task force?

.....

.....

2. When was the vernacular task force introduced?

.....

.....

3. What happened to pupils caught speaking vernacular?

.....

.....

4. What happened when the pupils received news about the debate?

.....

.....

5. Who was the owner of the sugarcane plantation?

.....

.....

6. How many boys were caught by the owner of the sugarcane plantation?

.....

.....

7. What happened to the three other boys as they tried to run across the road?

.....

.....

8. Which boy was caught by Mr. Awich Deng?

.....

9. At which time of day did the head teacher announce that the school was to have a debate?

.....

.....

10. Give another **word or words** with same meaning as **realizing**

.....

52. (A) Below is a notice which appeared on the notice board of **Nasta primary school** on **15th October, 2014**.Study it carefully and answer, in full sentence, the question that follow.

To:	**ALL PARENTS O F PRIMARY SEVEN CANDIDATES.**
	YOU'RE ARE ALL LIMITED FOR P.7 CLASS MEETING
DATE:	20TH OCTOBER, 2014
TIME:	2:00PM- 4.00PM. IN THE MAIN HALL
N.B	PARENTS WHO HAVE NOT CLEARED SCHOOL REQUIREMENTS ARE ADVISED TO DO SO BEFORE COMING FOR THE MEETING.
	NO CASH WILL BE ALLOWED AT SCHOOL ALL PAYMENT SHOULD BE MADE IN THE BANK
	MANAGEMENT.

(a)Where can one read this information?

.....

.....

(b) Who are being invited?

.....

.....

(c)How long will the meeting take?

.....

.....

(d) What should parents who have not cleared school requirements do?

.....

.....

(e)Who wrote the notice?

.....

.....

53. (B) Mr. Manyanga is a great former in Butunda village Kkiwato subcountry. Below are his one week diary records.
Study it carefully and then answer in full sentence, the question that follow.

Day	**Date**	**Activity**
Sun	8-11-2014	Visiting the sick and friend
Mon	9 -11-2014	Budgeting for time and money
Tue	10-11-2014	Withdrawing money from the bank
Wed	11-11-2014	Planting tomatoes and paying worker
Thur	12-11-2014	Pay water and electricity bills
Fri	13-11-2014	Selling eggs and banking money
sat	14-11-2014	Harvesting onions

(a) When did Mr. Manyenga visit the sick?

.....

.....

(b) When did Mr. Manyenga pay his workers?

.....

.....

(c) What did Mr. Manyenga do on Thursday?

.....

.....

(d) Where was Mr. Manyenga on Saturday?

.....

.....

(e) How many activities did Mr. Manyengo do that week?

.....

.....

53. **Read the poem below carefully and answer the questions that follow in full sentences.**

Quite a useful pen
Used near and far, here and there,
My teacher pours red tears,
With it, he decorates my Mathematics

Quite a useful pen,
On duty in various offices, workplaces,
Filling Withdrawal forms in banks,
Held in the cashier's hand to sign forms

Quite a useful pen,
Recording events of all kind worldwide,
For newspapers, TVs and radio stations,
The journalist from Spain uses it.

Quite useful a pen,
This, some people don't know about
Yet it's there when they need it
Thankful I am for its existence.

Musonge.

Questions

1. What is the above poem about?

.....

.....

2. According to the poem where is the pen used?

.....

.....

3. How do you think the teacher decorates the pupil's Mathematics?

.....

.....

4. According to stanza 2, who holds the pen?

.....

.....

5. How many stanzas are in the above poem?

.....

.....

6. Why do people in banks fill withdrawal forms?

.....

.....

7. Who is the author of the poem?

.....

.....

8. What is the nationality of the journalist?

.....

.....

9. What is the writer thankful for?

.....

.....

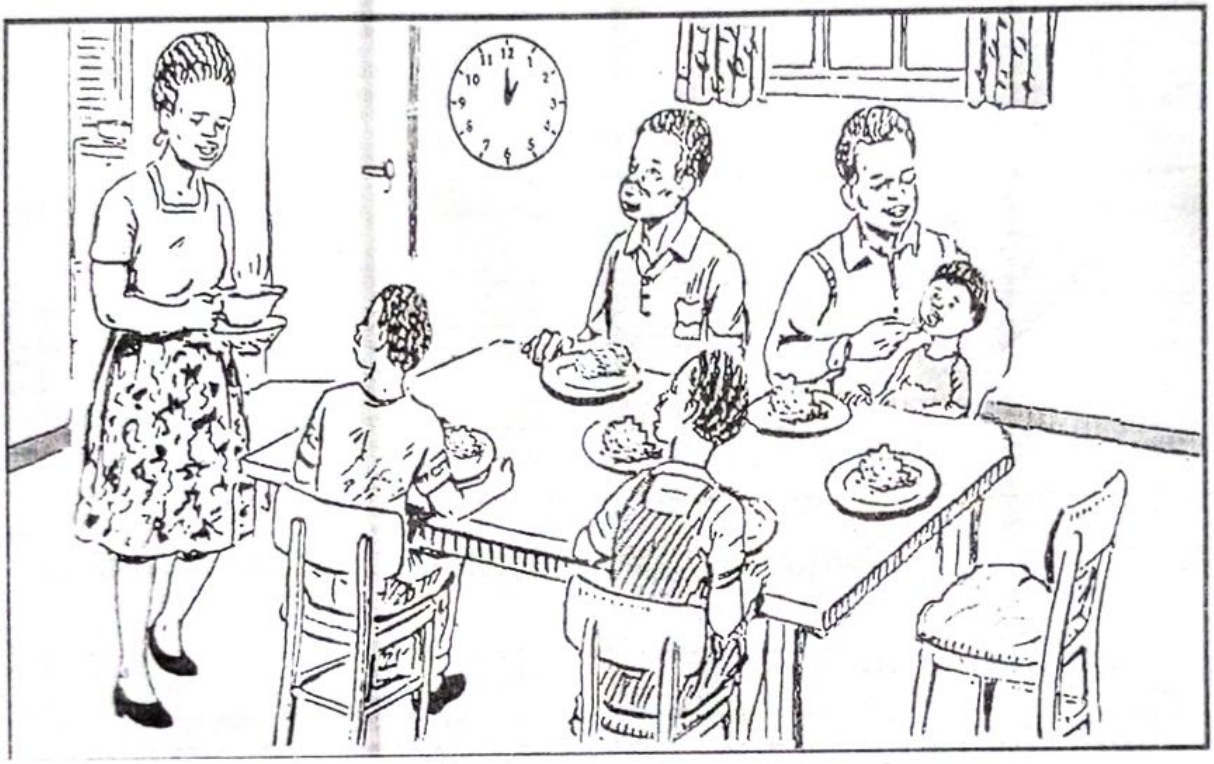

10. Suggest a suitable title to the poem.

.....

.....

54. **Study the picture of Mr. Njabire Joshua's family and then answer in full sentences the questions that follow. You may use these words to help you.**

father, mother, baby, children, carry, feed, uncle, dining, eat, serving

a) Whose family is shown in the picture?

.....

.....

b) How many children has this family?

.....

.....

c) What are the people in the picture doing?

.....

.....

d) Who is carrying food to the table?

.....

.....

e) What shows that the father is sharing responsibility with the mother?

.....

.....

f) What do you call a brother to your father?

.....

.....

g) Which meal is the family enjoying now?

.....

.....

h) Why hasn't one chair been occupied?

.....

.....

i) Mention one home chore a child like you should do home.

.....

.....

j) Suggest a suitable title to this picture composition.

.....

.....

55. **Batu Basina**, a Primary Seven pupil in **Magombe Primary School**, apologized to her class teacher. She was sorry for slapping a classmate who had thrown her dictionary down.

Study her letter and fill in what you think are the missing words.

.....,
P.O. Box 9911
Busia.

25th September, 2023

Mrs. Ann Wekesa,
The Class teacher, P.7
Magombe Primary School
P.O. Box 9911
Busia

Dear.....,

Re: ..... FOR SLAPPING BAVVE JOHNSON

Referring to the above subject, I hereby write to ..... for slapping Bavve Johnson this morning.

I know that such behaviour is unacceptable. Johnson picked my dictionary and ..... it down so I thought slapping him would teach him to respect people and property. I am very ..... and I ..... to behave better next time.

I shall be very happy if my apology is positively considered.

Yours .....

.....

Section A: 40marks

1. How does the use of electricity for cooking promote wood fuel conservation?

   .....

   .....

2. Give any one way the use of drugs by an individual may encourage the spread of HIV/AIDS in the community.

   .....

   .....

3. State any one importance of decomposition as a chemical change in the environment.

   .....

   .....

4. Explain how the trimming of fingernails helps to reduce on the spread of diarrhoeal diseases among people.

   .....

   .....

5. Give a reason why a blue tin appears blue.

   .....

   .....

6. Give one advantages of processing milk into other products like yoghurt, butter etc.

   .....

   .....

7. Mention one way painting enables metals to last longer.

   .....

   .....

8. How does poverty lead to malnutrition among people in a family?

.....

.....

9. How does breathing through the mouth affect the respiratory system?

.....

.....

10. Besides making food soft and killing germs, mention one other importance of cooking food.

.....

.....

The diagram below shows a plant with a weak stem climbing another. Use it to answer questions 11 and 12.

11. Which method of climbing is shown in the diagram above?

.....

12. Give any one way plants benefit from the above practice.

.....

.....

13. Suppose you are a health prefect at your school, mention one message you can pass on during girl's talk to help them keep their reproductive system health.

.....

.....

14. Name the bone in the human body that is covered by the triceps and biceps muscles.

.....

15. Give one way the lack of health education contributes to high mortality in the community.

.....

.....

16. Why are bean seeds planted in the dry soil unable to germinate?

.....

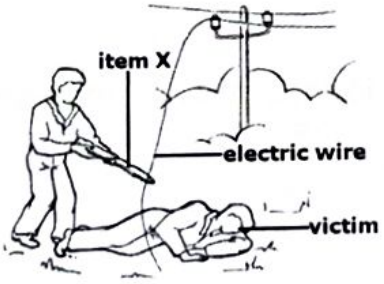

.....

17. State one difference between a clinical and six's thermometer.

.....

.....

The diagram below shows a person disconnecting a victim from electricity using item X. Use it to answer question 18 and 19.

18. State a reason why the person disconnecting the victim from electricity should stand on dry wood / timber.

.....

.....

19. Which characteristic should item **X** possess for the helper to be safe from electrocution?

.....

.....

20. State one disadvantage of low friction on roads.

.....

.....

21. Give one-way health workers ensure proper drug prescription to prevent overdose or under dose in patients.

.....

.....

22. Why are seeds planted in clay soil at a high risk of rotting rather than germinating?

.....

.....

23. State any one way amphibians like frogs and toads help to improve people's health in the community.

.....

.....

24. How does timely weeding help to control crop diseases?

.....

.....

25. Mention any one way you benefit from a diet chart displayed in your classroom.

.....

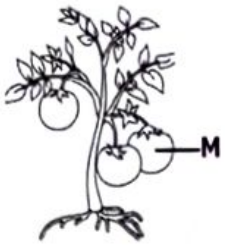

.....

26. How does the speed of rotation of a dynamo affects the amount of electricity it produces?

.....

.....

The diagram below shows a plant. Use it to answer question 27.

27. How does part marked **M** help to prevent plant extinction in the environment?

.....

.....

28. Name the process in kidneys which helps to prevent loss of useful materials from the body.

.....

29. How do cracks in walls promotes the spread of cockroach borne diseases?

.....

.....

30. Give one-way vaccination improves the body's ability to resist disease germs.

.....

.....

31. Give any one way the good behaviour of a teacher help to prevent truancy.

.....

.....

32. Why are organic materials decomposed in an open area unable to produce biogas?

.....

.....

33. Why do commercial poultry farmers prefer artificial brooding to natural brooding?

.....

.....

34. State the reason why a ship which is made from sinking materials, does not sink.

.....

.....

35. How does having enough rest and sleep help to maintain body health?

.....

.....

36. Give one reason why you would choose to propagate your onions by bulbs rather than seeds?

.....

.....

37. Identify the type of skeleton in arthropods.

.....

38. Explain how the widening of blood vessels under the skin helps to cool the body on a hot day.

.....

.....

39. How do echoes help sailors to avoid water accidents?

.....

.....

40. Give any one effect of HIV/AIDS to an individual.

.....

.....

SECTION B (60 MARKS)

41. a) Name one crop attacked by each of the following diseases.

(i) Brown streak disease: .....

(ii) Cigar end rot disease:.....

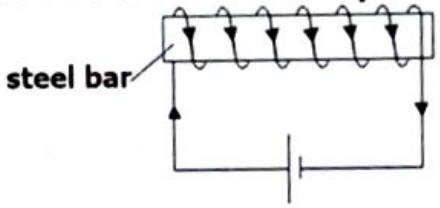

b) State any one way a crop farmer can identify disease attack in his crops.

.....

c) Give any one-way crop farmers can control diseases in their crops without using chemicals.

.....

42. ***The diagram below shows a method used to make temporary magnets. Use it to answer questions that follow.***

a) What name is given to the magnet the steel bar will become after magnetization?

.....

b) On the steel bar, use an arrow and letter N to show the end that will become the South pole after magnetization.

c) State any way the above method of magnetization is useful in our daily life.

.....

d) What should be observed in order to produce a strong magnet by the above method?

.....

.....

43. After milking his cow, Davis observed some pus-like substances and blood clots in milk.

a) Which disease was his cattle suffering from?

.....

b) State one measure Davis would take to prevent the disease from spreading to other cows on the farm.

.....

.....

c) Mention any two practices you would recommend to Davis to enable his cow stay calm and less stressed during the milking process.

(i) .....

(ii) .....

44. **The diagram below shows dispersal in plants. Study and use it to answer questions that follow.**

a) Which type of dispersal is undergone by the above seeds?

.....

b) State any one characteristic of the above seeds to the mode of dispersal named in (a) above.

.....

.....

c) Give any two reasons why seed dispersal is important in the environment.

(i) .....

.....

(ii) .....

.....

45. a) Mention one form of poor sitting posture.

.....

b) Give any one-way poor posture affects the skeletal system.

.....

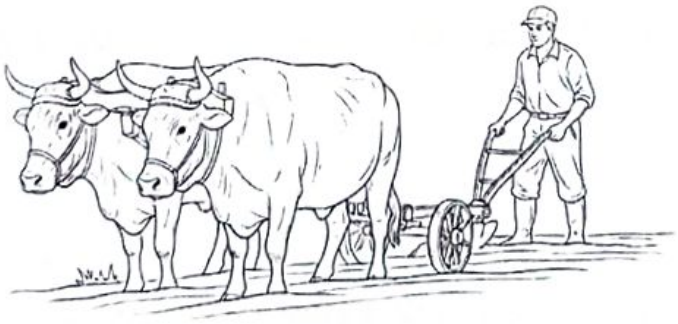

.....

c) Besides observing proper posture, state two other ways of maintaining proper health of the skeletal system.

(i) .....

(ii) .....

46. **The diagram below shows how animals can be used as an energy resource. Study and use it to answer questions that follow.**

a) Identify the activity done by the animals above.

.....

b) What type of cattle provides labour used to do the activity above?

.....

c) State any two ways of conserving animals as a resource in the environment.

(i) .....

.....

(ii) .....

.....

47. **VHTs carried out a survey on immunisation in Kito village. The table below shows the number of children in each age group who had not been immunised. Study the table and answer the questions that follow.**

Age bracket	0 – 1 month	2 – 5 months	6 – 11 months
Number of children	140	112	87

a) Suppose the government is to provide vaccines to vaccinate the above children, name one specific vaccine that should be provided in the largest quantities.

.....

b) Which age bracket requires a vaccine that boosts children's immunity against pertussis?

.....

c) Besides using it to know the right quantity of vaccines to be provided, state two other ways the government can use the above information.

(i) .....

.....

(ii) .....

.....

48. a) Beside the position of pivot, load and effort, mention one other characteristic of first class levers.

.....

.....

b) Give one example of a lever under the first class.

.....

c) A one-meter ruler was pivoted at the 60cm mark and a weight of 20N was hang at the 80cm mark. What is the size of the force that should be applied at the 20cm mark for the ruler to balance? (**2marks**)

49. a) State **two** laws of reflection of light.

i.....

.....

ii .....

.....

b) Mention any one way reflection of light is useful to people.

.....

.....

c) Give a reason why a plane mirror produces a regular reflection of light.

.....

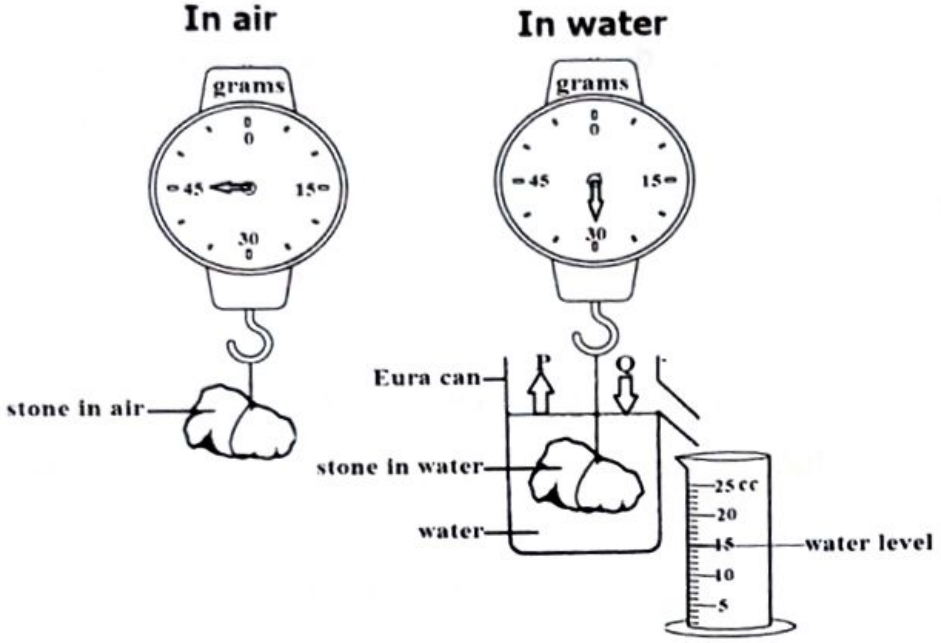

.....

d) Write one measure an apiarist can take to prevent his bees from leaving the colony.

.....

.....

50. A stone of was measured both in air and in water as shown in the diagram below. Study the diagram and answer questions that follow.

a) State the actual mass of the stones.

.....

b) Which force does arrow **Q** represent?

.....

.....

c) Why was the mass of the stone measuring less in water than in air?

.....

.....

d) If there was 60cc of water in the eureka can, how much water remained in the can after the stone was immersed?

.....

51. After obtaining juice from ripe bananas, Kenny added water and roasted millet to the juice.

a) By what process does the mixture turn into alcohol?

.....

b) Why did Kenny add roasted millet to the juice?

.....

.....

c) Give any one use of alcohol in each of the following fields.

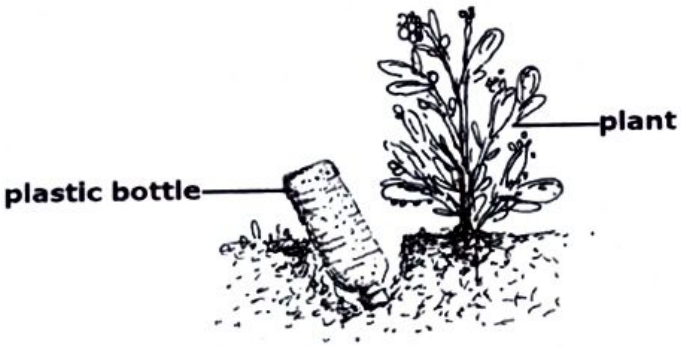

(i) Medical field:.....

.....

(ii) Transport field:.....

.....

52. The diagram below shows a plant being irrigated using a plastic bottle. Study and use it to answer questions that follow.

a) Which wastes management practice in the 5Rs does the above practice promote?

.....

b) How does the above practice in waste management help to reduce soil pollution?

.....

c) Give any two reasons why waste bins with different types of waste should be marked / coded.

(i) .....

.....

(ii) .....

.....

53. Mention any two examples of primary sex characteristics among;

a) Males

(i) .....

(ii) .....

b) Females

(i) .....

(ii) .....

54. Primary five pupils were provided with two balloons of the same size, threads, a straight piece of stick, a needle and a string. Explain how they used the materials to demonstrate the property "**air has weight**"

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

55. The table below is about four different groups of birds. Study and complete it correctly.

Group	**Beak type**	**Foot type**
....	Spoon shaped	Fully webbed
Birds of prey	....	Sharp curved talons
Scratching bird	Strong firm beak	.....
....	Spear-like	Partly webbed

End
