.....

.....

50. Brenda is minding the newborn kittens this week. (Rewrite beginning: The newborn kittens .....)

.....

.....

SECTION B (50 MARKS)

51. Read the passage below and then answer, in full sentences, the questions that follow.

Of late, road accidents have become rampant in Uganda. This is brought about by the careless way people use roads. It has been realized that most road users do not know about road safety rules. A few of them who know about these rules surprisingly do not follow them well. That is why the number of road accidents rises day by day.
On 31st May, UNRA (Uganda National Roads Authority) issued out a report about the number of road accidents that have taken place this year. UNRA reported that the accidents have increased from last year's 365 to 400 this year, 2019, despite the many traffic police officers on roads.

UNRA's report shows that Kampala-Masaka Highway has the biggest number of accidents. This is because the traffic police officers accept bribes from bad road users. It is believed that they do this because the government does not give them enough allowances for the services they render to the nation. UNRA, therefore, advised the government of Uganda to increase the officers' allowances so as to reduce accidents on roads.

They also advised the Uganda Police Force to deploy traffic police officers who are mindful of protecting the lives of Ugandans. Such officers would reject bribes from road users who disrespect traffic rules. On the other hand, the traffic police also advise road users to be careful while on roads. This will help to reduce the accidents on the roads. The traffic police also ask the public to strictly follow road signs and also respect each other while on roads. In addition to the above, the traffic police also ask the pedestrians to always keep right, cross at the zebra crossing and walk on pavements in order to be safe while on roads.

Questions

1. What is rampant in Uganda of late?

   .....

   .....

2. When did UNRA issue out a report?

.....

.....

3. According to the passage, what was the report about?

.....

.....

4. According to the report, how many accidents have occurred this year?

.....

.....

5. Which road has the biggest number of accidents?

.....

.....

6. Why does the above road have the biggest number of accidents?

.....

.....

7. Which institution of government should deploy mindful traffic police officers?

.....

.....

8. Where should the pedestrians cross the roads from?

.....

.....

9. Give another word or group of words with the same meaning as the underlined word in the passage.

i) taken place.....

ii) rises .....

52. ***Read the poem below carefully and, in full sentences, answer the questions that follow.***

Shopping! Shopping! Shopping!
As usual I entered with my one note
Just like I used to enter the market
To buy whatever I wanted

Shopping! Shopping! Shopping!
The customer attendant
With her blunt smile asked
What would you like to buy?

Indeed this was a supermarket,
Because everything was super!
Do you think anything is missing from there?
You will lack words to describe.

To every stall, I moved
Pens, pencils, books, and envelopes I picked
School was beginning the next day
Flashed my note across the counter,
Letaru Supermarket is the place!

By Ssemakula Patrick

Questions;

a) What is the poem about?

.....

.....

b) What had the writer gone to do in the supermarket?

.....

.....

c) To which supermarket did the writer go?

.....

.....

d) By whom was the poem written?

.....

.....

e) Who talked with the writer at the supermarket?

.....

.....

f) What did the attendant want to know from the writer?

.....

.....

g) Why do you think the writer says everything is super at this supermarket?

.....

.....

h) Give another word with the same meaning as the underlined words in the poem:

i. indeed .....

ii. pens, pencils, books, and envelopes .....

i) Suggest a suitable title for the poem.

.....

.....

53. Below is a record of farmers compiled by the Sub-county Agricultural Officer of Kitoma in 2026. It shows the activities performed per season. Study it carefully and then answer, in full sentences, the questions that follow.

Season	Farmer's Name	Choice Crop	Activity Done
Early-dry Season	1. Opio Daniel	spinach	watering and spraying.
Early-dry Season	2. Nabirye Sarah	tea	pruning the older bushes.
Mid-dry Season	1. Mukasa Joel	rice	weeding the plots in the marsh.
Mid-dry Season	2. Kato David	cucumbers	weeding and mulching the beds.
Mid-dry Season	3. Auma Grace	sorghum	erecting scarecrows in the field.
Late-dry Season	1. Wanyama Paul	sorghum	harvesting green stalks for livestock feed.
Late-dry Season	2. Bwambale Mark	coffee	thinning the extra shoots.
Early-wet Season	1. Nalubega Mary	tobacco	spraying insecticides.
Early-wet Season	2. Okello Peter	groundnuts	applying compost to the soil.
Mid-wet Season	1. Mukasa Joel	maize	hand weeding and thinning.
Mid-wet Season	2. Chemutai Mercy	onions	transplanting seedlings from the nursery.
Late-wet Season	1. Kizza Francis	maize	sowing seeds.
Late-wet Season	2. Namubiru Rose	tomatoes	spraying fungicide.

Questions:

a) Who compiled the above seasonal farming record?

.....

.....

b) Across how many seasons were the agricultural activities carried out?

.....

.....

c) Which farmer grows a crop primarily used as a commercial leaf product?

.....

.....

d) What task did Nabirye Sarah undertake at the start of the dry season?

.....

.....

e) When did Kato David mulch his cucumber beds?

.....

.....

f) Why do you think Wanyama Paul harvested his sorghum stalks early?

.....

.....

g) What indicates that Auma Grace's crop was being targeted by bird pests?

.....

.....

h) Which crop was raised in a nursery bed before being moved to the main field?

.....

.....

i) How many distinct farming records/entries are documented in the table above?

.....

.....

j) Why might Kizza Francis be considered an inexperienced or ill-timed farmer?

.....

.....

54. On arriving at the railway station, Kateregga Fred, a P.7 candidate traveling for holidays, made inquiries at the customer desk where he met Mr. Kibuuka, the booking officer. Complete the dialogue with what you think were Fred's exact words.

Fred: .....

Mr. Kibuuka: Good evening, young traveler. I am the booking officer for this Rail Company.

Fred:.....

Mr. Kibuuka: To board our train, you must first purchase a ticket. Where are you heading?

Fred: .....

Mr. Kibuuka: I am aware that students are heading home for holidays, but I need your specific destination.

Fred: .....

Mr. Kibuuka: The fare to Jinja Station is fifteen thousand shillings. Do you have any heavy luggage from school?

Fred: .....

Mr. Kibuuka: Even if you were carrying a trunk, you wouldn't be charged extra. We transport personal baggage free of charge.

Fred:.....

Mr. Kibuuka: You're welcome. Which departure time do you prefer?

Fred:.....

Mr. Kibuuka: You can book the eleven o'clock train because we still have available seats.

Fred: .....

Mr. Kibuuka: Yes, the window seat in carriage three is still open. A window seat will suit a student like you. What is your name for the ticket details?

Fred: .....

Mr. Kibuuka: What a fine name! You may pay for your ticket now as you await your train's departure time.

Fred: .....

Mr. Kibuuka: Thank you for paying your fare! We wish you a safe journey. Goodbye, Fred.

55. Imagine you are **Ainebyoona Shavon**, in boarding school and you are suffering from an illness. As a pupil of **St. Jude Primary School, P.O. Box 104, Masaka**, write a letter to the school nurse informing him about your condition. In your letter, state the specific illness you are suffering from. Mention when you started feeling unwell. Explain how the illness is affecting your studies. Request him to prescribe chewable tablets for your condition. Provide a reason why you prefer chewable tablets over injections.

SECTION A: 40MARKS

Questions **1** *to* **40** *carry* **one** *mark each.*

1. Give any one way animals benefit from being protected in the environment.

   .....

2. State any one way the micropyle helps to promote seed germination.

   .....

   .....

3. Besides being vertebrates, mention one other way reptiles are similar to mammals.

   .....

   .....

4. How does exposing cassava slices to heat helps to preserve them.

   .....

   .....

5. State any one way pests destroy tuber crops in the garden.

   .....

6. Give any one condition under which a liquid changes to a gas.

   .....

7. How does clearing bushes around cattle farms helps to control the spread of nagana among cattle?

   .....

   .....

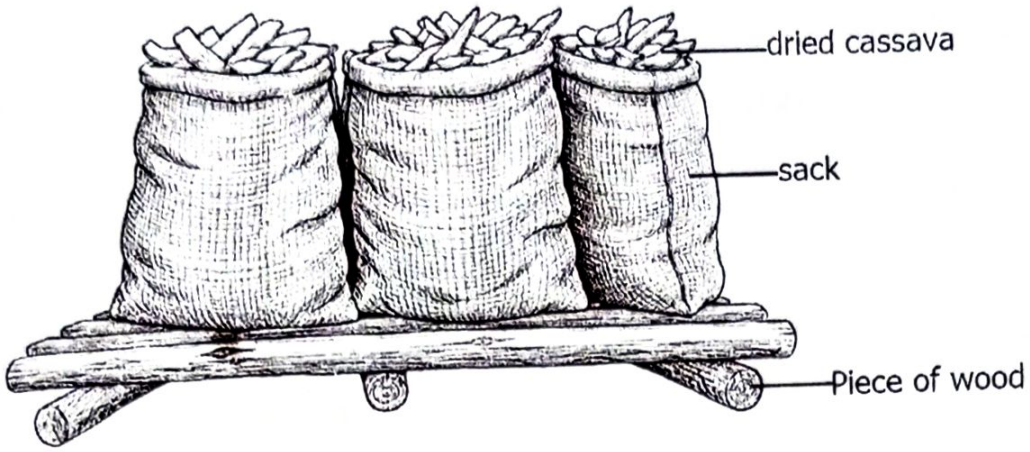

8. State one similarity between mushrooms and human beings in the way they feed.

   .....

9. Give any one way of reducing risks of snake bites in homes.

   .....

The diagram below shows a way crops are properly stored after harvesting. Use it to answer question **10**.

10. Give one reason why dried cassava is stored as shown in the diagram above.

.....

.....

11. State any one way the body immunity of a baby can be boosted naturally.

.....

12. Give any one way in which people working in the KCCA garbage collection programme can protect themselves from infections.

.....

13. Mention one role of a teacher in reducing teenage pregnancies in the community.

.....

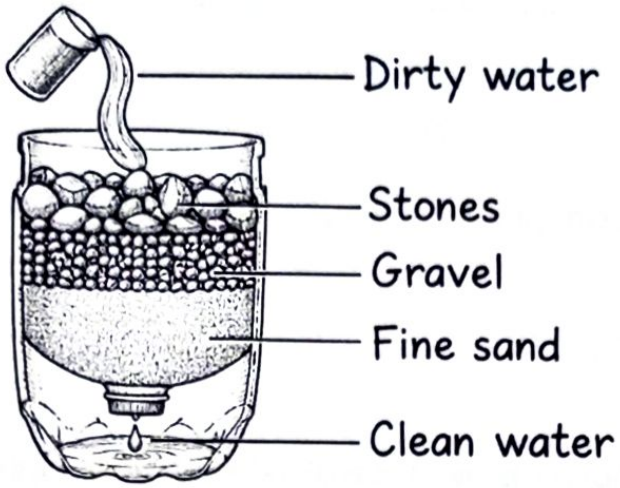

.....

14. Give any one-way people benefit from growing crops and trees on the same piece of land.

.....

.....

The diagram below shows a method of obtaining clean water. Use it to answer questions **15** and **16**.

15. How does the method shown in the diagram make water clean?

    .....

16. Give any one importance of the clean water obtained by the above method.

    .....

17. State any one way the government uses the information collected during a health survey.

    .....

    .....

18. Mention one practice which can help to control the spread of ringworm infection among people.

    .....

19. State one characteristic which make a duck suitable to its mode of feeding.

    .....

    .....

20. Give any one way the wearing eyeglasses help an individual to avoid contracting redeye disease in case of an outbreak.

.....

.....

21. Why does the Ministry of Health advise parents to install mosquito nets on the beds of the family member?

.....

.....

22. Give any one reason why some families in town areas fail to have enough food.

.....

.....

23. Why is it a bad practice to push metallic objects in electric sockets?

.....

24. Give any one way of reducing risks of poisoning by chemicals in a home.

.....

.....

25. Besides controlling vector pests, mention any one other way regular weeding helps to control crop diseases.

.....

.....

26. What role do claws play in the feeding of an eagle?

.....

.....

27. Mention any one importance of a windlass in our daily life.

.....

.....

28. Give any one reason why it is a bad practice for people to share accommodation with animals.

.....

.....

29. State the factor which makes zero grazing applicable in town areas.

.....

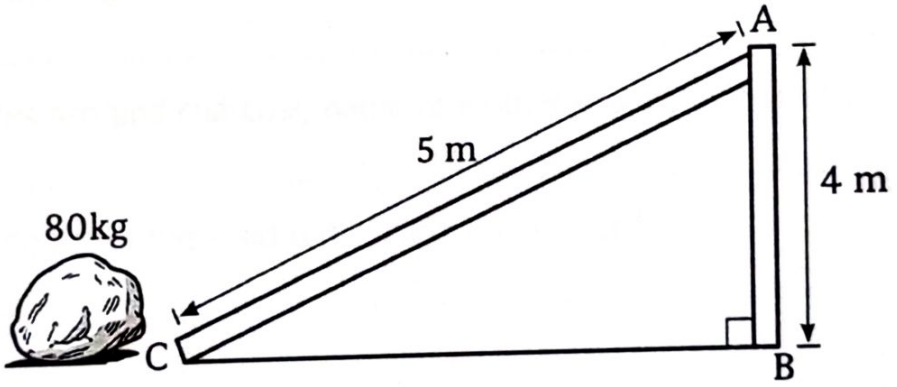

.....

30. State the behaviour which makes a crocodile a cold blooded vertebrate.

.....

.....

The diagram below shows a machine used for lifting loads. Use it to answer questions **35** and **36**.

31. State the distance through which the load is to be lifted.

.....

32. Give one advantage of using the above machine to lift loads.

.....

.....

33. Write one importance of rock particles in soil.

.....

34. State what happens when an opaque object is placed in the path of light.

.....

.....

35. How is steam energy useful in the generation of electricity?

.....

.....

36. Why should a good site for setting up a garden be well drained?

.....

.....

37. Why should people who has have sustained severe burns be give plenty of fluids to drink?

.....

38. How is prolonged breast feeding important to a mother?

.....

.....

39. Besides ash and charcoal, name one other product of burning.

.....

40. How do the anthers aid fertilisation in a flower?

.....

.....

SECTION B

Answer **all** *questions in this section*

Questions **41** *to* **55** *carry four marks each*

41. **Aken kept pineapple juice and after some days, it turned into alcohol.**

a) Which process turned the pineapple juice into alcohol?

.....

b) Besides making alcohol, mention any two other ways in which the process you have named in (a) above is useful to human beings.

(i) .....

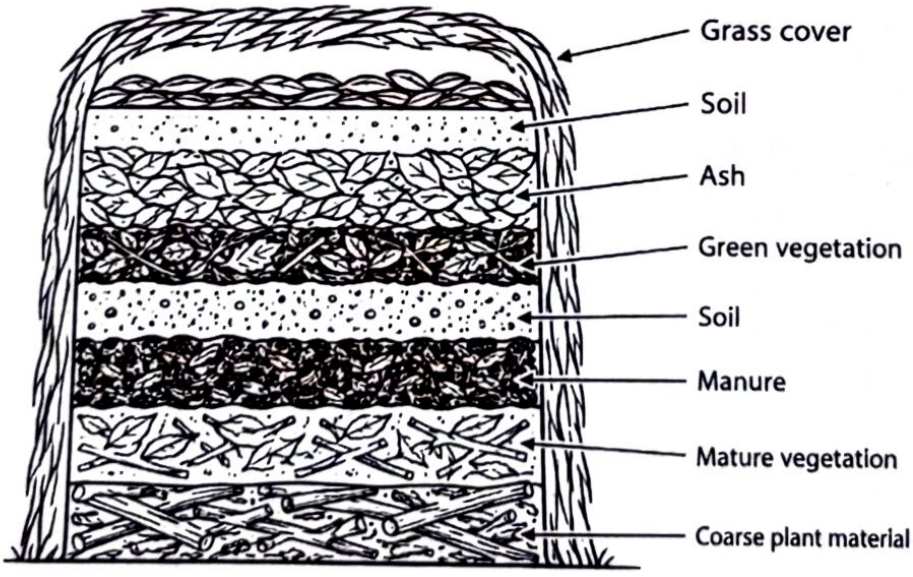

.....

(ii) .....

.....

c) Which fungus enables the process named in (a) above to occur?

42. The diagram below shows a manure making project conducted by primary five pupils on their science exhibition. Study and use it to answer questions that follow.

a) Identify the type of organic manure the pupils made as their project.

.....

b) Why did the pupils do the following on the above structure?

(i) Covering it grass: .....

.....

(ii) Adding ash: .....

.....

c) Give any one advantage of using the manure the pupils made in their project.

.....

.....

43. a) Which blood vessel return deoxygenated blood to the heart from the body?

.....

b) State the function of the left atria in the human heart.

.....

.....

c) Mention any two ways the good health of the human heart can be maintained.

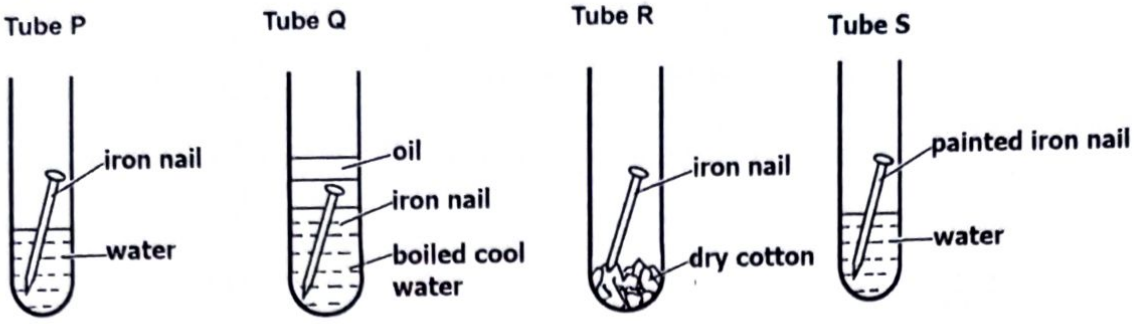

(i) .....

.....

(ii).....

.....

44. The experiment below was carried out to investigate the conditions necessary for rusting to occur. Study and use it to answer questions that follow.

a) Identify the tube in which the iron nail will rust after some time.

.....

b) State the reason why water in Tube Q was boiled before it was used.

.....

.....

c) Give any one way in which rusting is important in the environment.

.....

.....

d) Mention any one reason why rusting is regarded as a chemical change.

.....

45. a) Give the meaning of a woodlot.

.....

.....

b) Mention any one factor to consider before setting up a woodlot project.

.....

c) State any two importance of a woodlot project.

(i) .....

.....

(ii).....

.....

46. **Galen wanted to plant beans in the new growing season.**

a) State any two good qualities the bean seeds Galen should plant.

(i) .....

(ii).....

b) How does seed selection promote each of the following?

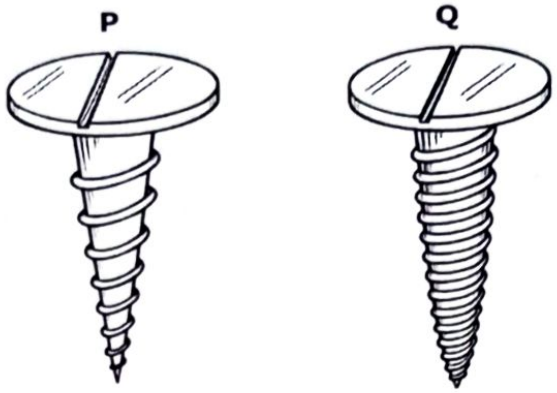

(i) Uniform maturity of crops: .....

.....

(ii)Maximum germination of seeds: .....

.....

47. The diagrams below show two screw nails **P** and **Q**. Study and use them to answer questions that follow.

a) Identify the screw nail which requires less force to be driven into a piece of wood.

.....

b) State a reason for your answer in (a) above.

.....

.....

c) How does friction force negatively affect the proper working of screw nails?

.....

d) State the principle of machines on which screws work.

.....

48. a) State any one way echoes are useful in the environment.

.....

.....

c) How does installing soft porous materials on walls help to reduce echoes in cinema halls?

.....

.....

d) On shouting, the boy heard his sound again after 10seconds when it collided with a cliff. How far was the boy from the cliff if his sound travelled at a speed of 330m/s? (***2marks***)

.....

49. a) Melly Jay usually collects 998 eggs from her 1000 layer birds. The day a blast occurred near her farm, the birds laid only 200 eggs. State any two reasons why most of the birds did not lay eggs that day.

(i) .....

(ii) .....

.....

b) Give one reason why business poultry prefer keeping exotic birds to local ones.

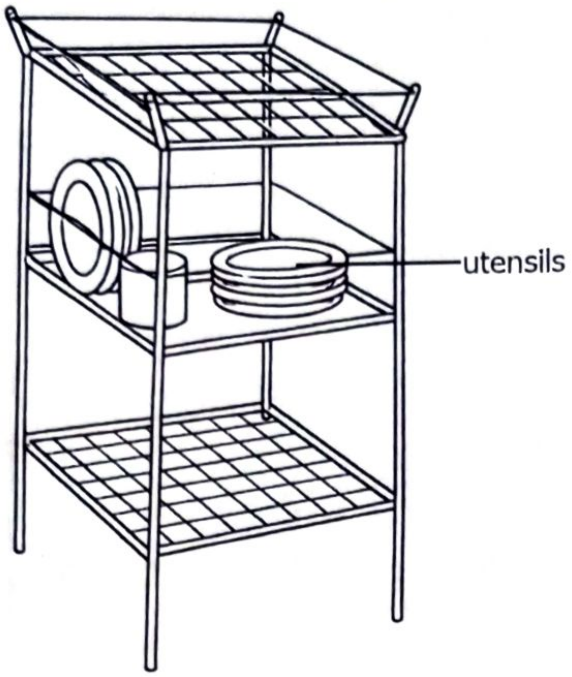

.....

.....

c) Mention any one breed of chickens kept for egg production.

.....

50. The diagram below shows a structure where utensils are put after washing them at home. Use it to answer questions that follow.

a) Name the structure shown in the diagram above.

.....

b) State any two importance of putting utensils on the above structure after washing them.

(i) .....

.....

(ii).....

.....

c) Give any one good quality of the structure shown in the diagram above

.....

51. a) What name is given to the natural skin moisturiser produced by the skin?

.....

b) State the role of the sweat gland in the regulation of body temperature on a hot day.

.....

.....

c) Mention any two ways people can maintain the elasticity of their skin.

(i) .....

.....

(ii).....

.....

52. a) Apart from fibres, mention any one other resource obtained from animals.

.....

b) Give any one use of animal fibres.

.....

c) State any two ways people can ensure constant supply of resources from animals.

(i) .....

.....

(ii).....

.....

53. a) Apart from causing expansion, state one other way heat gain affects each of the following states of matter.

(i) Liquids: .....

.....

(ii) Gases: .....

.....

b) State the reason why alcohol is used to measure the lowest temperature in the six's thermometer.

.....

.....

c) Give any one-way heat transfer by convection help in the management of airborne diseases in a home.

.....

.....

54. In the table below, **A** shows diseases of the reproductive system while **B** shows their effects.

A	**B**
Gonorrhoea	Smelly vaginal discharge, paralysis and insanity
Syphilis	Pregnancy complications and high risks of HIV/AIDS contraction.
Candidiasis	Blockage of oviducts in women and sperm ducts in males
Trichomoniasis	Damages the skin and unending genital infections.

a) Gonorrhoea: .....

.....

b) Syphilis: .....

.....

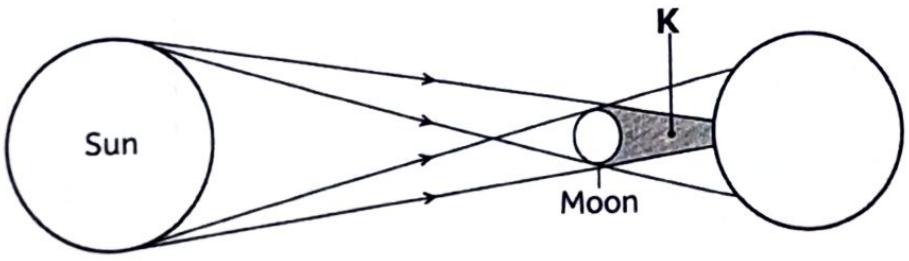

c) Candidiasis: .....

.....

d) Trichomoniasis: .....

.....

55. The diagram below shows a type of eclipse. Study and use it to answer questions that follow.

a) Identify the type of eclipse shown in the diagram above.

.....

b) How does the eclipse shown the diagram above occur?

.....

.....

c) What does a person standing at point **K** experience during the type of eclipse shown above?

.....

d) State the principle of light on which eclipses are formed.

.....

1. Workout:
$$\begin{array}{r} 41 \\ \times\ 5 \\ \hline \\ \hline \end{array}$$

2. Find n(A), if A = {months of the year which begin with letter J}.

3. Subtract: $4\frac{3}{5} - 2\frac{1}{5}$

4. If  represents 12 pineapples, how many pineapples are represented by  ?

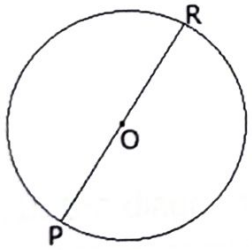

5. Workout the Least Common Multiple (LCM) of 8, 9 and 14.

6. Use a pair of compasses and a ruler only to construct an angle 120^0 in the space below.

7. Given that m = 0.5 and n = 6, find the value of mn + 4n

8. Find the average of; 8, 12, 4, 5 and 1.

9. A nursery school has a round play field shown below on which children do their physical studies. O is the center of the field and PR= 28metres.

If children run round the field twice, what distance do they cover?

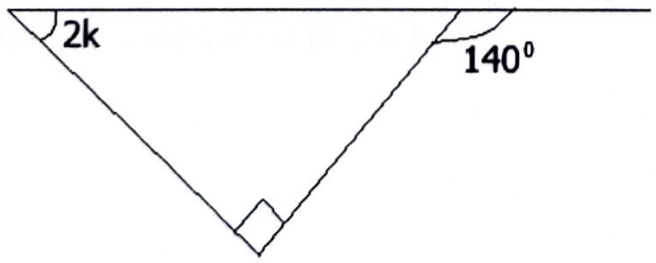

(Take $\pi=\frac{22}{7}$)

10. Kavuma bought five bottles of milk of size 250ml each. How many litres of milk did he buy?

11. Write 4,306 in words.

12. A family invited 15 guests for a birthday party. Each of the invited guests was given a bottle of soda of sh.1000 and a doughnut of sh.500. Find the total amount of money spent on the invited guests.

13. In the diagram below, find the value of k.

14. A hawker bought a pair of Croc shoes at sh.4000 and later sold them at sh.4500. Express his profit in terms of percentage.

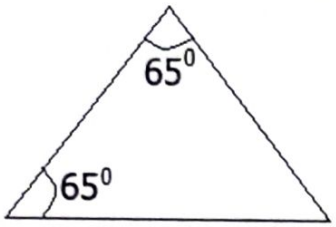

15. Simplify: $6b - 4c + 5c - 5b$.

16. Omara withdrew some money from the bank and he was given five thousand shilling notes numbered consecutively from AP534201 to AP534300. Find the amount of money withdrawn by Omara.

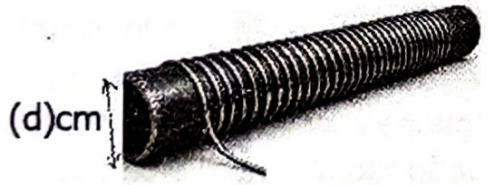

17. A taxi carries 14 passengers while a coaster carries 29 passengers. A national boxing team needed the two vehicles for two journeys each in order to transport the team's players and officials. Calculate the total number composition of the team.

18. The cost of 5 counter books is sh.30,000. Find the cost of four similar counter books at the same rate.

19. Show all the lines of folding symmetry in the figure below.

20. Odur had a wire of length 43.56 metre. He wound round a metallic pipe 22 times as illustrated below. Calculate the its diameter.

SECTION B: (60 marks)

21. In a school, the bells for primary section and nursery section ring at intervals of 50 minutes and 30 minutes respectively. The bells are rung for the first time at 7:30 a.m.

    a) At what time will the two bells be rung together for the second time? (04 Marks)

    b) How many times does the bell for nursery section ring before they ring together? (02 Marks)

22. A family of six children and some adults went for a family tour. Each child paid sh.25,000 for transport while sh.35,000 was paid per adult. If Sh.290,000 was enough to meet their transport cost. Calculate the total number of adults who went for the family tour. (04 Marks)

23. A class has 24 boys. 10 boys participate in Music, Dance and Drama (MDD), and 12 participate in sports (S), e boys take part in both activities while 7 boys neither participate in MDD nor sports.

a) Complete the Venn diagram below with the above information.

$n(\varepsilon) = 24$ (03 Marks)

b) Find the number of boys who do not participate in sports.

(03 Marks)

24. a) Workout: $3\ 1\ 2_{five}$ (02 Marks)

$-\ 1\ 2\ 3_{five}$

b) Given that: $14_{ten} = 32_{m}$, find the value of m (03 Marks)

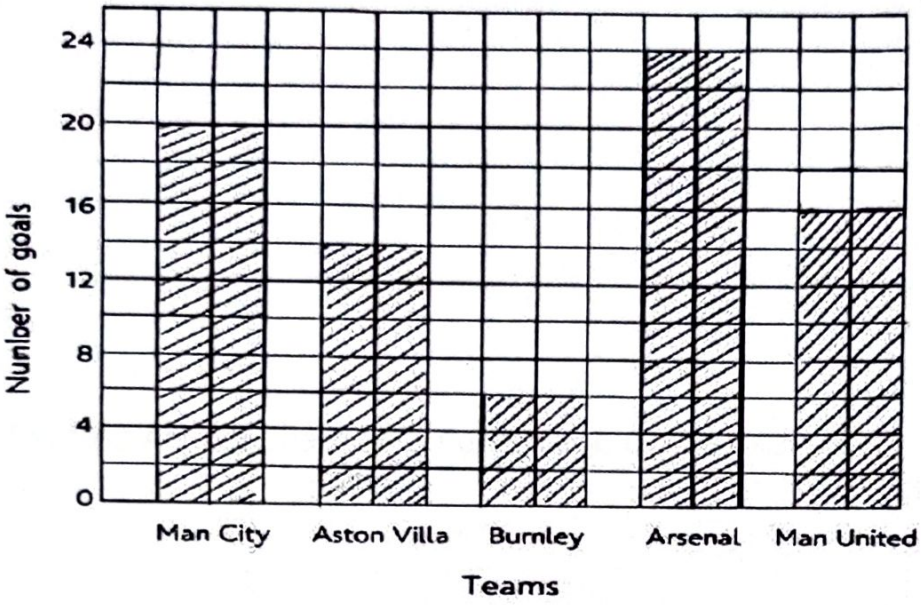

25. a) Using a ruler and a pair of compasses only, construct a triangle ABC in which length AB = 6.5cm, angle ABC = 60^0 and angle BAC = 45^o.

(04 Marks)

b) Measure the size of angle ACB. (01 Mark)

26. Workout: $\frac{5.72-2.12}{0.3\ x\ 0.12}$ (04 Marks)

27. The bar graph below shows the number of goals scored by five English Premier League teams. Study it carefully and answer the questions that follow.

a) Name the team that scored fewest number of goals (01 Mark)

b) How many goals did Aston villa score? (01 Mark)

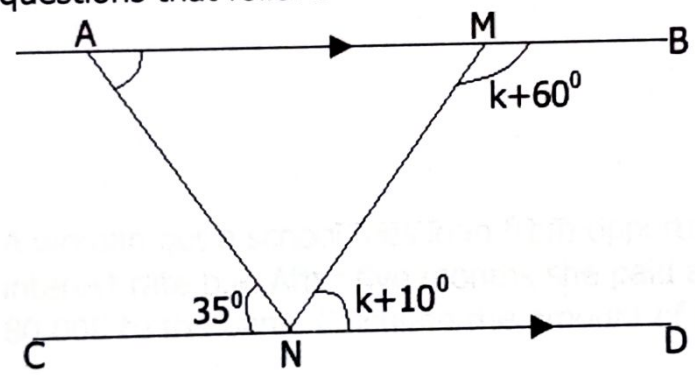

c) Calculate the average number of goals scored by all the teams.
(03 Marks)

28. Three girls, Kisakye, Angel and Gift shared sweets in the ratio 6:5:9 respectively. Kisakye got 18 sweets.

a) How many sweets did the girls share altogether? (04 Marks)

b) Express Angel's share as a percentage of the total share. (03 Marks)

29. In the diagram below, line AB is parallel to line CD. AMN is a triangle, angle BMN = $k+60^0$ and angle DNM = $k+10^0$. Use it to answer the questions that follow.

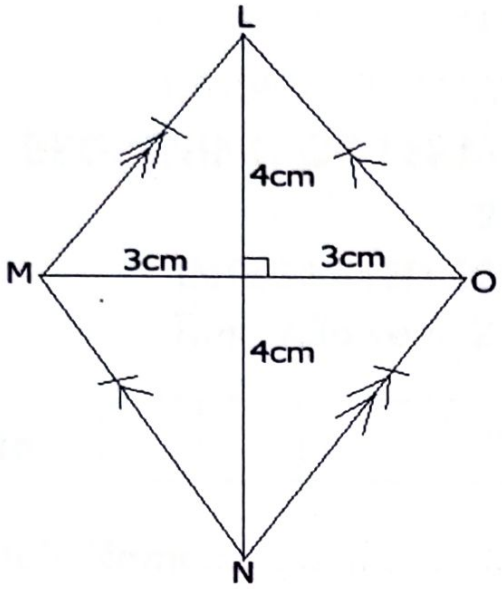

a) Find the value of k. (03 Marks)

b) Find the size of angle ANM. (02 Marks)

30. A milk salesman collected milk from a farm in a cylindrical milk can of diameter 14cm and height 100cm. He later sold the milk at Sh.2000 per litre. Calculate the total amount of money collected from the whole milk can. (Use $\pi = \frac{22}{7}$) (06 Marks)

31. A woman got a school fees loan from opportunity bank at a 20% interest rate p.a. After five months she paid an interest of sh. 80,000 to the bank. Calculate the amount of the loan. (04 Marks)

32. In the figure below LMNO is a rhombus. Diagonals LN and MO intersect at right angles. LN = 8cm and MO = 6cm. Study it carefully and use it to answer the questions that follow.

a) Find the area of the figure (02 Marks)

b) Workout the length MN. (02 Marks)
