.....

.....

## SECTION B

*(Questions **51-55** carry **10** marks each)*

51. *Read the letter below carefully and then answer, in full sentences, the questions that follow.*

St. Peters Primary School,
P.O. Box 4,
Jinja.

5th August, 2019

Dear Mum,
I was glad to receive your letter yesterday. I read it after the evening class and it made me feel home sick. It is a long time since you last visited me and I feel like coming back home. You know I hate being away from home.

However, I am glad to inform you that our new teacher is so friendly to us and he has helped me in person to improve on my mathematics grades because he gives us more daily practices in the subject.

I hope to perform well in my final examinations, and hopefully, I shall get a first grade with Aggregate 4. Send my regards to Daddy and baby Pius.

Your loving son,
Isabirye Jacksonn

**Questions**

a. In which school is the writer?

.....

.....

b. When did Isabirye get a letter from home?

.....

.....

c. To whom did he write the letter?

.....

.....

d. How did the writer feel after receiving the letter?

.....

.....

e. How has the teacher helped the writer?

.....

.....

f. Apart from his father, who else does the writer send regards to?

.....

.....

g. Who wrote the above letter?

.....

.....

h. Give another word or group of words with the same meaning as the words underlined.

(i) grades.....

(ii) practices.....

52. *Study the poem below carefully and answer the questions that follow in full sentences.*

1) Third term's holiday is the longest of all.
2) During this long holiday, holidaymakers find time to travel near and far.
3) Children spend these two holidays at home since they are short.
4) First term's holiday is in May and second term's in August.
5) Every academic year has got three holidays.
6) This begins in December and ends at the beginning of February.
7) However, the first and second term's holidays are three weeks long.
8) When the holiday ends, children go back to school.
9) And also do their holiday exercises given to them by their teachers.
10) They help their parents at home during these short holidays.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

53. *Read the information that appeared in The Monitor newspaper of Monday, 5th August, 2019 and answer, in full sentences, the questions that follow.*

The family of Mr. & Mrs. Ogwapiti Moses of Soroti Town with deep sorrow announces the death of their grandson Okolimong Martin which occurred yesterday Sunday 4th August, 2019.

Informed are relatives, friends and in-laws. Burial will take place on Friday, 9th August, 2019 at 4:00pm at their ancestral home in Bukedeya.

Announced by Ogwapiti Moses.

**Questions**

a) What is the information about?

.....

.....

b) Where did the above information appear?

.....

.....

c) When was the announcement made?

.....

.....

d) According to the information, who has died?

.....

.....

e) Who is being informed?

.....

.....

f) When will the late be laid to rest?

.....

.....

g) When did Okolimong die?

.....

.....

h) Where will the burial take place?

.....

.....

i) Who made this announcement?

.....

.....

j) Write in full; pm

.....

.....

54. *Study the poem below and answer, in full sentences, the questions that follow.*

Examinations! Examinations!
The determinant for progress,
At all levels, we meet examinations,
Given to all at the same level,
Regardless of our abilities.

Examinations! Examinations!
The unfriendly exercise to pupils,
Who do not concentrate in class,
Those who don't pay attention to teachers,
As a result, they take low scores.

Examinations! Examinations!
For one's progress in education,
Whether simple or difficult,
Whether children or adults,
All fear examinations.

By: **M. Paul, 2019**

**Questions**

a) What is the poem about?

.....

.....

b) According to the poem, what determines progress?

.....

.....

c) Do you think examinations consider one's ability?

.....

.....

d) To whom are examinations unfriendly?

.....

.....

e) How many stanzas are in the poem?

.....

.....

f) Who is the writer of the above poem?

.....

.....

a) Give the opposite of the underlined words as used in the poem.

(i) same.....

(ii) low.....

b) Suggest a suitable title for the poem.

.....

.....

## SECTION A

1. Name the force which makes passengers in a vehicle to move forward and backward when the driver suddenly applies the brakes.

   .....

2. Write down the modern process of killing germs in milk.

   .....

   .....

3. Give a reason why most toilets bowls are made of ceramics.

   .....

   .....

4. Give the reason why water does not have a definite shape.

   .....

   .....

5. How many doses of anti-tetanus vaccine is a pregnant woman supposed to receive?

   .....

   .....

6. Why is it important for a school to have a school garden?

   .....

**Study the diagram below and answer the questions that follow.**

7. Complete the ray in the diagram above.

.....

.....

8. Name the angle labeled K in the above diagram.

.....

9. At what temperature does water become a solid?

.....

.....

10. How are viviparous animals different from oviparous animals?

.....

.....

11. Name the excretory organ that is affected by hepatitis disease.

.....

12. Besides protection, why are the fangs useful to a cobra.

.....

.....

13. Mention the group of birds to which the crested crane belongs.

.....

.....

14. Why is it not advisable to use water to put off fire caused by petrol?

.....

.....

15. Give one reason as to why drought is referred to as block in a food path.

.....

.....

16. Calculate the work done when force applied is 12kg and distance is 4cm.

17. What scientific name is given to liquid that conduct electricity?

.....

18. Give the importance of gall bladder in the digestive system

.....

19. Name the structure used by bacteria to locomote.

.....

20. How useful is a transformer in an electric circuit?

.....

.....

The diagram below is of a banana plant. Use it to answer questions 21 and 22.

21. Name the part named K.

.....

.....

22. Give a reason why some crop farmers intentionally burn bush on large scale as they prepare the seed beds

.....

23. Name the insect vector that breeds in fast flowing water.

.....

24. Name the form of energy produced by a germinating seed.

.....

.....

25. State the way scabies spread from one person to another?

.....

26. Where does chemical digestion start from in humans?

.....

27. Name the gas plants use at night?

.....

.....

28. What is the importance of lobsters and crabs to man?

.....

29. The hind legs of frogs and toads are longer than the fore legs. How is this important to them?

.....

.....

30. Name the energy resource form plants made by burning wood under limited supply of oxygen.

.....

31. Give the role of halters to a housefly.

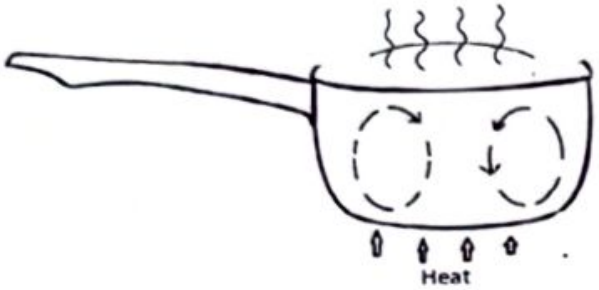

.....

32. Give a reason for blood screening before prescription

.....

.....

The diagram below shows water being heated form one end of the saucepan.

33. What does the diagram illustrated?

.....

34. Give one precaution u must consider when making magnets by stroking.

.....

.....

35. State the way plants purify the environment?

.....

36. Name the type of reproduction which involves the union of male and female gametes.

.....

37. Why do wind pollinated flowers produce a lot of pollen grains?

.....

38. Give a reason why some goat farmers carried out ear notching to their goats.

.....

.....

39. What scientific name is given to part of milk left after butter has been removed from it?

.....

.....

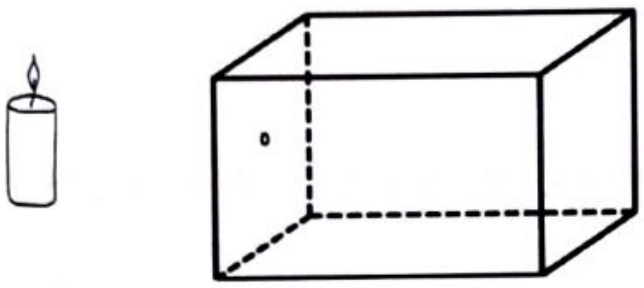

40. Write down one product obtained from petroleum.

.....

.....

## SECTION B (60 MARKS)

41. The diagram below shows a pinhole camera. The image of the object in from has been formed on a screen.

a) Draw on the diagram the image of the object formed by the pinhole camera.

.....

b) Give three characteristics of images formed by a pinhole camera.

(i) .....

(ii) .....

(iii) .....

42. Rearing livestock is one way of fighting poverty in Uganda.

a) Name one example of livestock.

.....

.....

b) Mention any two problems faced by livestock farmers.

(i) .....

(ii) .....

c) How can rearing livestock help to fight poverty?

.....

43. a) Give two causes of soil exhaustion.

(i) .....

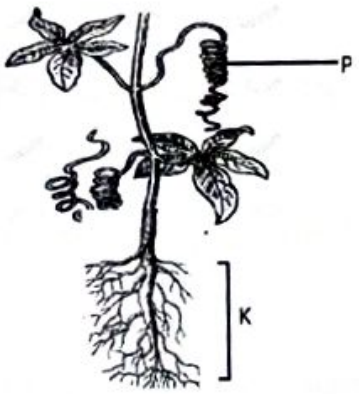

(ii) .....

b) State two ways of controlling soil exhaustion

(i) .....

(ii).....

44. The diagram below is of a garden peas.

a) Name the structure labeled P.

.....

b) What is the function of the structure you have named above?

.....

.....

c) What type of venation do the leaves above have?

.....

d) Name the plant system that makes up part marked K.

.....

45. a) Which process enables the liver to make poisonous substances of metabolism harmless?

.....

.....

b) Write down any one toxic material made harmless by the liver.

.....

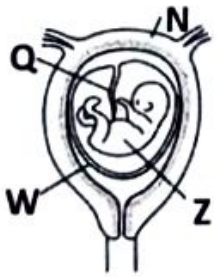

c) How can you as P.7 candidate care for the liver?

.....

d) Name one disease that affects the human liver.

.....

46. Use the diagram below to answer questions that follow.

a) What does part Q lead to?

.....

(b) Letter Z shows a developing baby 6 months old. What is it called at that age?

.....

.....

c) What do you call babies who are produced from?

(i) One fertilized egg?

.....

(ii)Two different fertilized eggs?

.....

47. What do the following animals use as weapons?

i) Elephants.....

ii) Dogs.....

iii) Bulls.....

iv) Scorpion.....

48. a) Complete the table below correctly.

| Agrochemicals On a livestock farm | Role |
|---|---|
| i) antibiotic | |
| ii) mabendazole | |
| iii) amistraz | |
| iv) iodine solution | |

49. a) Give term is used to refer to a recovering patient undergoing treatment?

.....

.....

b) Write down two ways of caring for a person in (a) above.

.....

.....

c) Give one way of caring for sick people.

.....

.....

50. a) State one chemical methods of controlling weeds in the garden.

.....

b) Mention any two uses of weeds to people.

.....

.....

c) State one way weeds dangerous to crop farmers?

.....

51. a) Name the mammal that spends its life both in water and on land.

.....

b) Mention the fat layer that helps to keep the whale warm in water.

.....

c) Give a reason why spiny-anteater is special from the rest of other mammals.

.....

d) Name the mammal that moves by flying.

.....

52. a) Give the meaning of the following terms;

(i) Photo.....

(ii) Synthesis.....

(b) How are the following useful during photosynthesis?

i) Sunlight.....

ii) Chlorophyll.....

53. a) Give the difference between Hand milking and Machine milking?

.....

.....

(b)Write down three procedures taken by dairy farmer in the preparations for milking.

i) .....

ii) .....

iii) .....

54. You are provided with the following materials; iron filings, a piece of paper and a bar magnet, use them to prove that magnetism is strongest at the poles.

.....

.....

.....

.....

.....

.....

.....

.....

55. Study the diagram below and use it to answer the questions that follow.

a) To which group of simple machine does it belong?

i).....

ii).....

b) How is the above garden tool useful to young farmers at school?

.....

c) Mention any two ways of protecting the above garden tools from rusting.

.....

## SECTION A: (40 marks)

1. Work out: $36 \div 9$

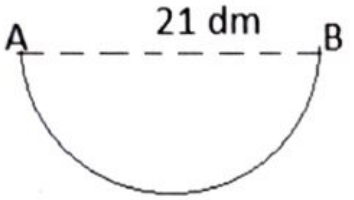

2. Find the number whose scientific notation is $4.75 \times 10^{-2}$

3. Given that set P = {Composite numbers less than 10}. Find the number of proper subsets of set P.

4. The average mass of a certain number of pupils in a group is 48kg. How many pupils were in the group if their total mass is 336kg?

5. Find the highest number of girls that can share either 30 or 48 sweets without leaving any remainder.

6. Find the length of the arc AB in the figure below

7. Simplify: $5k - 4k^3 + 4k - 3k^3$

8. Express $16\frac{2}{3}\%$ as a simplified ratio

9. Work out: 4 – 9 = ..... (finite 8)

10. Using a pair of compasses, a pencil and a ruler, construct an angle of $90^0$ at point M without extending the line

M

11. Round off 37.97 to the nearest tenths.

12. Solve for m in $4m^2 = 144$

13. Express 8.27 Hm as centimetres

14. How many minutes will Mukisa need to cover 90km at a speed of 75km/hr?

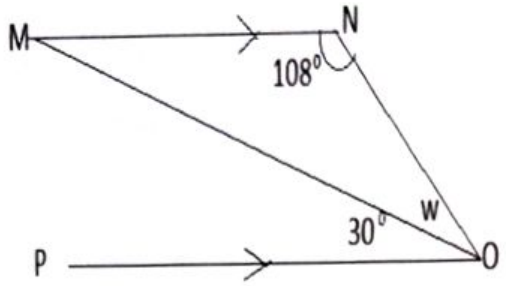

15. After selling a pair of shoes for sh.47,000, a trader made a $17\frac{1}{2}$ % profit. Find the buying price of the pair of shoes.

16. Change $97_{ten}$ to base five.

17. Find the next two numbers in the sequence below

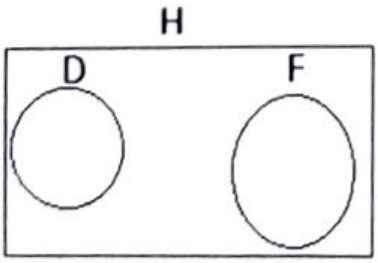

-13, -10, -7, -4, ....., .....

18. In the figure below, line MN and OP are parallel. Use it to find the value of w

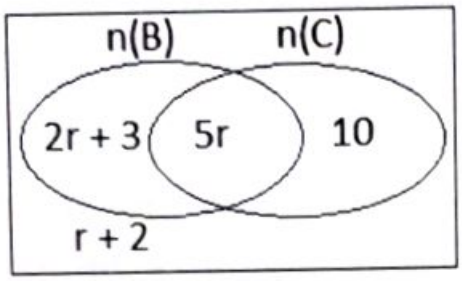

19. Simplify: $\frac{7}{9} \div 3\frac{1}{2}$

20. How are sets D and F related to set H?

## SECTION B: (60 marks)

21. A certain group of tourists had their breakfast at Karuma. They were served accompaniments as roasted cassava (C) and bread (B) as shown on the Venn diagram below

a) If 23 tourists ate only one kind of accompaniment, find the value of r
**(2 marks)**

b) Find the probability of selecting a tourist who had bread for breakfast
**(2 marks)**

22. A doctor instructed a patient to take her medicine(tablets) as two tablets after every eight hours for five days

a) Write each days dose in digital form **(1 mark)**

b) If a patient was charged sh. 10,000 for consultation, sh. 3000 for laboratory tests and sh. 1400 per tablet. Calculate her total bill **(3 marks)**

23. a) Solve and find the solution set for; $-4 \leq 2p < 8$ **(2 marks)**

b) Pedro is 9 years old and Gene is 15 years old. How many years ago was Gene twice as old as Pedro? **(3 marks)**

24. In an interview of 20 questions, 5 marks were awarded for every correct answer and 2 marks were deducted for every wrong answer given.

a) If one of the interviewees passed 13 questions and failed the rest, find his score **(2 marks)**

b) Amina, one of the interviewees scored 72 marks, how many questions did he fail? **(3 marks)**

25. The table below shows the rates at which Muna forex bureau buys and sells some foreign currencies. Use it to answer questions that follow.

| Currency | Buying rate | Selling rate |
|---|---|---|
| 1 USA Dollar | Ug sh. 3600 | Ug sh.3650 |
| 1 Kenya shilling | Ug sh. 30 | Ug sh. 32 |

a) If Wandera had Ksh. 54,750 and used the whole amount to buy an air ticket to USA, what is the cost of the ticket in US dollars? **(3 marks)**

b) An orphanage was offered US dollars 4000 and Ksh. 13,000. How much money in Uganda shillings did the orphanage receive altogether? **(3 marks)**

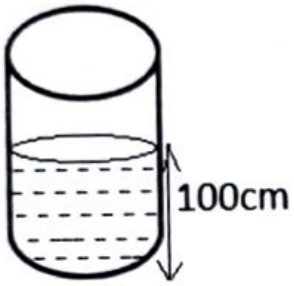

26. Nangabo subcounty has 12,000 people, of whom $\frac{2}{5}$ are males and the rest are females. 0.4 of the males and $12\frac{1}{2}$ % of the females are children, how many children are in that subcounty? **(5 marks)**

27. a) Find the value of m in the figure below. **(2 marks)**

b) Find the supplement of $(k + 36^0)$ **(2 marks)**

28. The cylindrical container below is currently containing 1540 litres of water. Use it to answer the questions that follow

a) Calculate the radius of the container( take $\pi = \frac{22}{7}$ ) **(2 marks)**

b) If the container is $\frac{4}{5}$ full, find its capacity. **(3 marks)**

29. A motorist left Jinja for Kampala at 7:30am. Driving at a steady speed of 60km/hr for $1\frac{1}{2}$ hours. He rested for 30 minutes and then resumed his journey to his destination, 120km away at a steady speed of 40km/hr

a) At what time did he reach his destination? **(3 marks)**

b) Work out the motorist's average speed for the whole journey. **(2 marks)**

30. a) Simplify: $1\frac{3}{7} + 7\frac{2}{3} \div 3\frac{5}{6}$ **(3 marks)**

b) Work out: $\frac{16.2 - 9.95}{1.25 \; x \; 0.05}$ **(3 marks)**

31. Tom bought 30 mangoes at sh. 300 each but x mangoes got spoilt. He sold the rest at sh. 500 each and made a profit of sh. 4000

a) Calculate the cost price of all the 30 mangoes. **(2 marks)**
