(Rewrite as one sentence beginning: Whereas.....)

.....

.....

50. "Our breakfast will be ready at 8:00 a.m. today," said the students.

(Rewrite the sentence using: ..... said that .....)

.....

.....

SECTION B: 50 MARKS

Questions 51 to 55 carry ten marks each.

51. **Read the passage below carefully and, in full sentences, answer the questions that follow.**

"Come out everyone, the invigilators and supervisors are already checking the candidates," shouted Namara, our academic prefect. It was a crucial moment because everyone was hurrying to the entrance of the examination hall to be checked ahead of the special examination.

We got so surprised on reaching the hall, to find that they were fellow candidates acting as supervisors and invigilators. I asked Kiiza, my desk mate what was going on. He told me that they had started with a briefing by the head teacher, who was Mako, one of the candidates. Not delaying, I also presented myself for checking amidst confusion. As soon as we settled in the well-arranged main hall, the "invigilators" distributed the question papers. It was at this point when I realized that it wasn't a joke as I had thought.

Things were serious, it was a real exam moment.
Surprisingly when I read the instructions on the question paper, I found out that it was just a revision paper. At that time, they ordered us to begin answering the paper right away. How easy the exam was! When time was over, the bell was rung and we all stood. The "invigilators" collected the scripts and sealed them in a parcel. They called upon two candidates to sign on the parcel as proof that it had been sealed. Wendy and Obong, disguised as UNEB scouts, received the parcels.

Barely had the exercise ended when we all burst into laughter. Looking confused, I asked Sheena, one of the "invigilators" what the whole drama was about.
She told me that we had been acting what exactly takes place before and during the P.L.E exercise. I, also, couldn't hold my laughter.

Questions:

(a) What is the passage about?

.....

.....

(b) Why did every candidate rush to the main hall?

.....

.....

(c) What was the work of the invigilators?

.....

.....

(d) Why was the writer surprised when she reached the main hall?

.....

.....

(e) What made the writer realise that it was not a joke as she had thought?

.....

.....

(f) By whom were the candidates briefed?

.....

.....

(g) Who is Namara in this school?

.....

.....

(h) What kind of question papers were the candidates given?

.....

.....

(i) Why was such an exercise organized in the school?

.....

.....

(j) In what state did the writer ask Sheena about the drama?

.....

.....

52. The advertisement below appeared in Tuko Newspaper of 15th July, 2026. Study it carefully and use it to answer the questions in full sentences.

FRESH CHICKEN POULTRY FARM — KIYUNGA BUSIA

- Broilers: 30,000/= (2kgs)
- Kroilers: 35,000/= (2½kgs)
- Layers: 20,000/= (1kg)
- Eggs: 12,000/= (1 tray)

Chicks:

- Kroiler: 3,000/=
- Broiler: 2,000/=
- Layer: 2,500/=

Open: 6:00am – 7:30pm | Days: Monday – Saturday

CALL: 0776 3456 (Salesperson)

NB: CLOSED ON FRIDAYS AT NOON.

by

Hajjat. Juma Shifa (Sales Manager)

Questions:

(a) Where can one find the above information?

.....

.....

(b) When did this information appear in the newspaper?

.....

.....

(c) What is being advertised?

.....

.....

(d) How much is one kilogram of broiler?

.....

.....

(e) In which village is the farm located?

.....

.....

(f) How many kilograms of Kroilers would one buy if he had 70,000/=?

.....

.....

(g) Why would one keep layers rather than broilers on his farm?

.....

.....

(h) How many days is this poultry farm open in a week?

.....

.....

(i) Why do you think the farm is closed on Fridays at noon?

.....

.....

(j) Who advertised the farm?

.....

.....

53. Read the poem below and in full sentences answer the questions that follow.

A disciplined or good child
One who values education
Pays attention to teachers
Talks respectfully and politely.

A disciplined or good child
Stays away from bad company
Does class work at school
Helps the family at home.

A disciplined or good child
Cares for their property
Respects people's property
Every time and everywhere.

A disciplined or good child
Knows when to say sorry
Also knows when to say thank you
Is importantly God fearing.

— Kisembo Arthur

Questions:

(a) What is the poem about?

.....

.....

(b) How does the writer look at education?

.....

.....

(c) How does the good child talk?

.....

.....

(d) Why do you think the writer is loved?

.....

.....

(e) What should the child avoid according to Stanza Two?

.....

.....

(i) It took place at 2:00pm during a heavy down pour.

(j) Lastly, they drove off in their car.

Correct Order / Rearranged Story:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

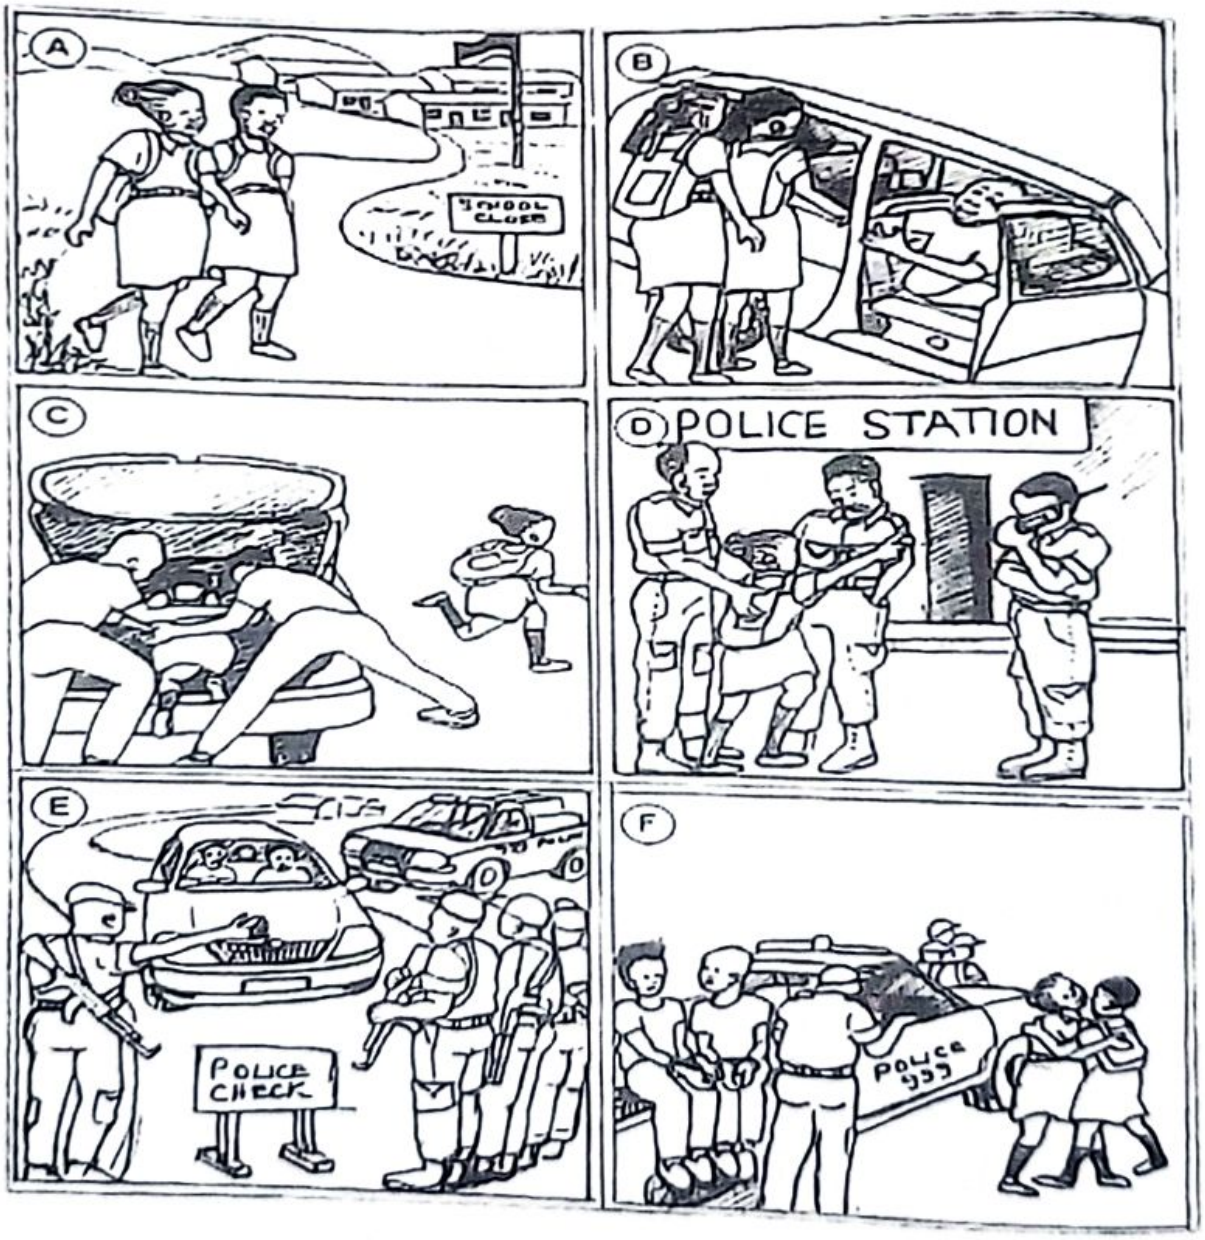

.....

.....

54. Pictures **A – F** tell a story. Study each picture carefully and then write **one sentence** to describe what is happening.

You may use the following words to guide you:

abducting	roadblock	driver	lift
stopped	leaving	hugging	forcing
arrested	kidnapping	reporting	police officers

1 Picture A:.....

.....

2 Picture B:

.....

.....

3 Picture C:

.....

.....

4 Picture D:

.....

.....

5 Picture E:

.....

.....

6 Picture F:

.....

.....

7. What shows that the girls are happy in picture F

.....

.....

8. What is likely to happen to the men after picture F

.....

.....

9. What story does this picture teach you?

.....

.....

10. Suggest a suitable title for the story

SECTION A

1. Name one class of food that protects the body against diseases.

.....

2. Give one way in which volume is different from capacity.

.....

.....

3. Mention one way how ball bearings help to reduce friction in moving parts of a machine.

.....

.....

4. State the reason why it is important to take a child who has pushed a bean seed into the nose to a health worker.

.....

5. Give any one advantage of using a coiled filament over a straight filament in an electric bulb.

.....

.....

6. Mention the term that refers to the degree of compactness of particles in a substance.

.....

7. State one way a village health team (**VHT**) help to promote health in rural areas.

.....

47.(a)Give one reason why modern beehives are preferred to traditional ones in bee farming?

.....

.....

(b)State any two factors any bee farmer should consider before setting up beehives for rearing bees.

(i).....

(ii).....

(b)Give one role bee farming plays towards cosmetics industries.

.....

.....

48 a) Name the examples of chemical change which leads to the formation of the following substances;

(i) humus .....

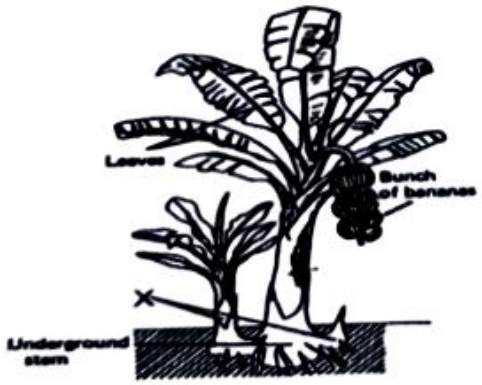

(ii)ash .....

c) State any two ways how chemical changes can be dangerous to the environment.

i) .....

ii).....

49.The diagram below shows a flowering plant. Use it to answer questions that follow.

8. Write the meaning of the term **silting**.

.....

.....

.....

9. State one importance of perches in a poultry house.

.....

.....

The diagram below shows a germinating seed. Study and use it to answer questions 10 and 11.

10. Name the type of germination shown above.

.....

11. Identify one way how the function of the cotyledon of the above seed is different from that of the maize grain.

.....

.....

12. State the reason why a wind mill should be placed on an open raised area.

.....

.....

13. Give the reason why the periscopes do not form laterally inverted images yet they use plane mirrors.

.....

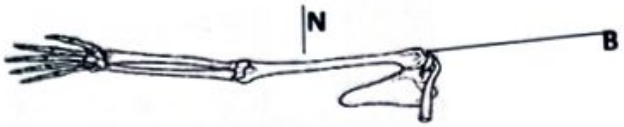

.....

14. Give one importance of a weather chart to pupils at school.

.....

.....

The diagram shows the part of the human skeleton. Study and use it to answer the questions that follow.

15. Name the bone labelled **N**.

.....

16. Mention the movable joint at point **B**.

.....

17. Give any one way in which you can tell that a child is suffering from vitamin A deficiency.

.....

18. State one way used to identify locusts under incomplete lifecycle.

.....

.....

19. Give one reason why strings of guitars are usually made of wires of different thickness.

.....

.....

20. Give any one sign of cassava mosaic on the cassava crops.

.....

21. State the reason why potassium and sodium are commonly lost during dehydration and demineralization.

.....

.....

22. Name the element of PHC which helps to reduce the death of mothers and their babies.

.....

23. Give any one way in which the placenta is important to the developing foetus in the uterus.

.....

.....

24. State one way how mulching controls the growth of weeds in the garden.

.....

.....

25. Give a reason why breast feeding is recommended for at least two years.

.....

.....

26. State one the reason why ash and sawdust are added during the making of compost manure.

.....

.....

27. Give the reason why a farmer would prefer to propagate onions by bulbs to using seeds.

.....

28. State the reason why water exists in the three states of matter.

.....

.....

29. Mention the way a swim bladder keeps the fish buoyant.

.....

.....

30. State any one way how hammering the magnet affects its magnetism.

.....

.....

The diagram below is one of the instruments found in the first aid box. Study and use it to answer questions 31 and 32.

31. Name the instrument shown above.

.....

32. Give one use of the above instrument in offering first aid.

.....

.....

33. Explain how surface area affects the capacity of an object.

.....

.....

34. State any one use of echoes in our daily life.

.....

.....

35. Identify any one way in which the human body works.

.....

.....

.....

36. Give the meaning of the term food poisoning.

.....

.....

.....

37. State one way how gonorrhea can lead to the spread of AIDS.

.....

.....

38. Mention one activity that the school health club can do to promote food hygiene at school.

.....

.....

39. Mention one factor that affect the nature of the shadow formed by an object.

.....

40. Give a reason why screws are said to be force multipliers.

.....

.....

SECTION B:

41.a) Give the two states of matter in which heat travels by convection.

i).....

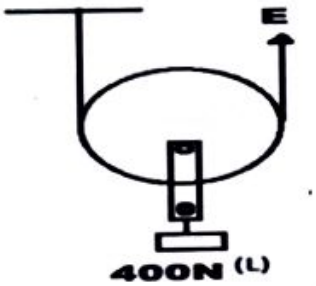

(ii).....

b) State any two ways in which heat transfer by convection is helpful in our daily life.

i).....

ii).....

42. The diagram below shows a type of pulley. Study it carefully and answer the questions that follow.

(a) Name the type of pulley system shown above.

.....

(b) Give one advantage of using the above type of pulley system.

.....

.....

(c) Find the effort needed to raise the load in the above pulley.

.....

43.a) Name the disease of rabbits that causes wounds on their ears.

.....

c) State any one exotic breed of rabbits kept for fur production.

.....

d) Give any two reasons why farmers prefer keeping rabbits to sheep

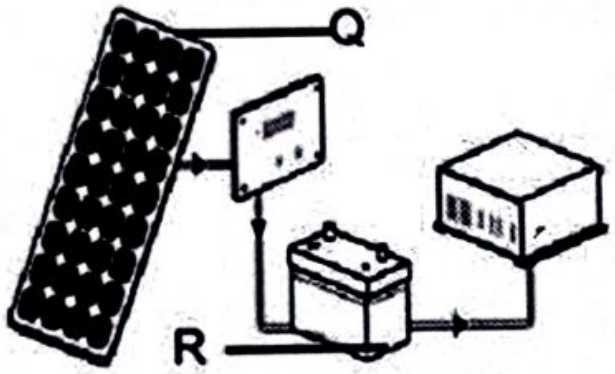

i).....

.....

ii).....

.....

44. **The diagram below show a simple solar system. Study and use it to answer questions that follow.**

a) Name the source of energy used by the above system.

.....

b) State the function of the following parts of the system.

Q: .....

R: .....

c) State one way in which the above system is better than using a petrol generator.

.....

.....

45.(a) Mention any one sign of beriberi.

.....

b) Give any two ways in which a diet chart (menu) can be important in a school.

i).....

ii).....

(c) Identify the cause pellagra in the body.

.....

46.The table below shows a cattle disease, their causes and prevention. Study and complete it correctly.

Disease	**Cause**	**Prevention**
Heart water	.....	Spray to kill ticks
.....	Virus	Regular vaccination
Mastitis	Bacteria	.....
.....	Protozoa	Spray to kill tsetse flies

(a)Name part marked with letter **X.**

.....

(b) How is the above plant propagated?

.....

(c)Give one reason why the above plant should be propped.

.....

.....

(d) Identify one disease that affects the above plant.

.....

52.The table below shows the list terms in soil science in A and their meanings in B in a wrong order.

A	B
Soil profile	The ability of the soil to support plant life.
Soil fertility	The removal of top soil from one place to another.
Soil erosion	The prevention of damage or wastage of soil.
Soil conservation	The vertical arrangement of soil layers.

a) Soil profile .....

b) Soil fertility .....

c) Soil erosion .....

.....

d) Soil conservation .....

50.When a stone was dropped into a measuring jar containing 100cc of water, the water level raised to 115cc.

(a)Calculate the volume of the stone. (2mks)

.....

(b)State the method that has been used to find the volume of the stone.

.....

(c)Identify one factor that enables objects to float on water.

.....

51.Describe the steps followed to make local salt from plant material.(4marks)

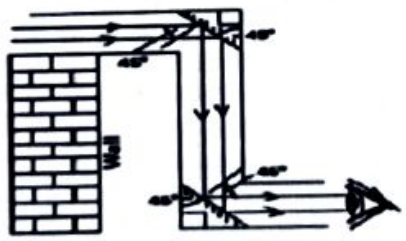

(i).....

(ii).....

(iii).....

(iv.....

53. Study the diagram below shows an optical instrument. Use it to answer the questions that follow.

a) Name the optical instrument shown above.

.....

b) Give a reason why the above optical instrument does not form laterally inverted images yet is uses plane mirrors.

.....

.....

c) State the way how above instrument help to promote security of an area.

.....

.....

(d)Identify the principle of light on which the above instrument works.

.....

54.Nursery bed preparation is an important stage in crop growing.

a) State any two factors one would consider when starting a crop farming business.

i).....

ii).....

b) State any one reason why some crops are first grown in a nursery bed.

.....

.....

c) Name one tuber crop that is first grown in a nursery bed.

.....

55. a) Name the female reproductive cells in humans.

.....

b) Explain the meaning of the following terms;

i. fertilization

.....

.....

ii. ovulation

.....

.....

c) Mention any one way of caring for a pregnant woman.

.....

.....

SECTION A: (40 marks)

1. Workout: $15 \div 3$

2. Write "**eighty thousand sixty-one**" in figures.

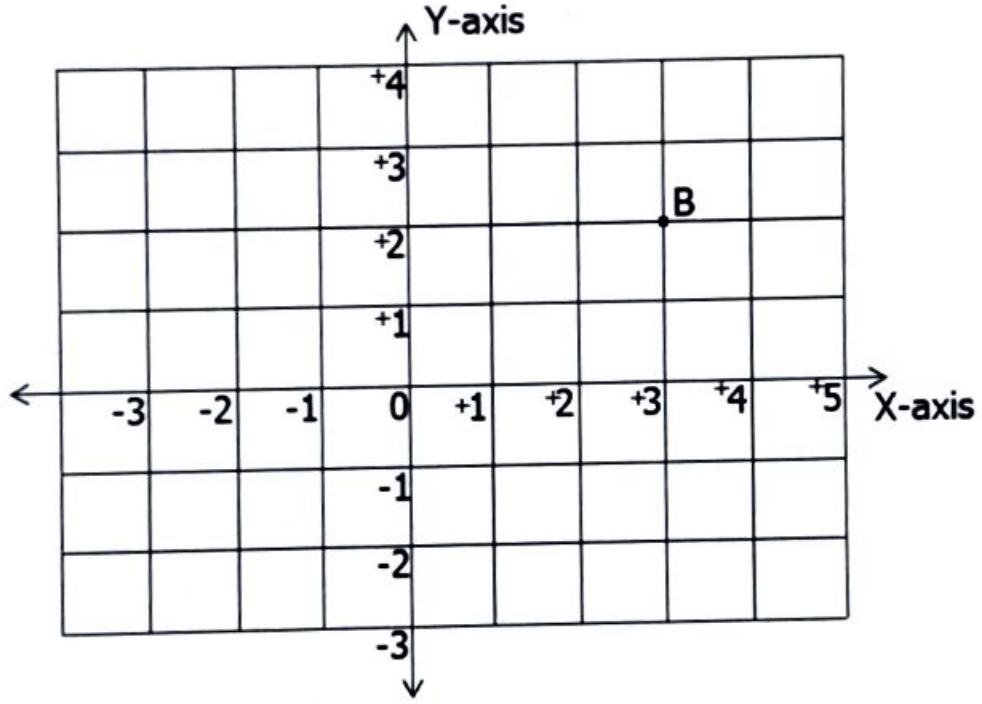

3. Find the **sum** of the next two numbers in the sequence below
   6, 8, 11, 16, 23, ..., ...

4. Given that R={1, 2, 3, 4, 6} and S ={0, 5, 7, 9}. Draw a Venn diagram showing the two sets above.

5. Express 0.242424... as a common fraction

6. Solve for y: $3 - 2(y - 1) = 7$

7. Study the coordinate graph and use it to answer the questions that follow.

i) Write the coordinates of point B

ii) Plot the point A(0, -2) on the coordinate graph above.

8. Round off 92634 to the nearest thousands.

13. A circular flower garden was fenced using 55 poles fixed at intervals of 0.7 metres. Find the distance around the flower garden in metres.

14. A forty-five minute training ended at 2:20p.m. At what time did the training begin?

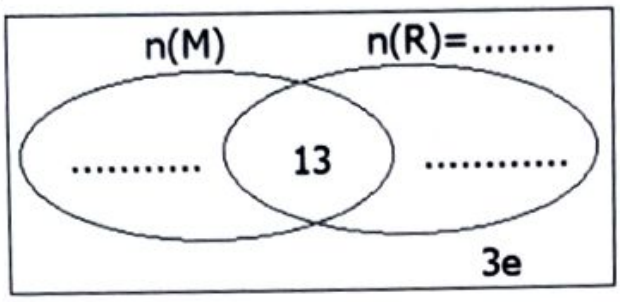

15. What name is given to a regular polygon whose interior angle is 144^0?

16. Workout: $2.4 \div 3.0$

SECTION B: (60 marks)

21. At a wedding function, 2e +7 guests ate Matooke (M) only, 32 guests ate Rice (R) and 13 guests ate both types of food while 3e guests ate other types of food.

a) Complete the Venn diagram below. (3 marks)

b) If 27 guests did not eat Rice, find the value of e. (2 marks)

c) How many guests attended the function altogether? (1 mark)

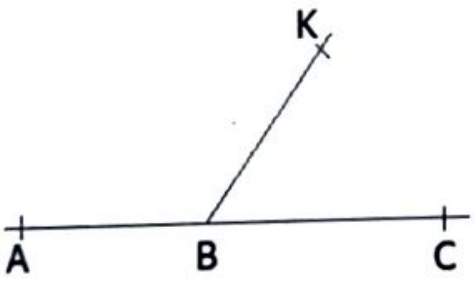

22. a) Workout: $\frac{0.24}{1.2} - \frac{0.09}{0.5}$ (2 marks)

17. Omara bought 6kg of meat. Calculate the weight of his meat in grams.

18. Find the mean of the following: $2y + 4$, $3y$, 0 and 16

19. Given that k = r = 4 and m = -2. Evaluate; $\frac{kr-m}{m+5}$

20. Using a ruler, a well sharpened pencil and a pair of compasses only, copy angle KBC onto point G

b) Abdul used sh. 12,000 to buy food and this was $\frac{2}{3}$ of his pocket money. How much was his pocket money? (2 marks)

23. Nelissa went shopping and bought the following items
    - 3kg of meat at sh. 12,000 per kg
    - 500g of sugar at sh. 6,000 each kg
    - (p) mangoes at sh. 4,000 for every 2 mangoes.
    - 2 kg of maizeflour at sh. 1,200 each kg

    If Nelissa spent sh. 65,400 on all items bought, find the value of p. (5 marks)

24. A taxi charges sh. 12,000 for an adult and sh. 8,000 for a child from Masaka to Kampala.

a) Mr. Othieno travelled with his wife and his 7year daughter. How much did they pay altogether? (2 marks)

b) If another taxi carried 14 adults without a child and they all paid using two thousand shilling notes. How many bank notes did the conductor collect? (2 marks)

25. Given the number; 123.64

a) Write the **place value** of 6 in the given number above. (2 marks)

b) Find the sum of the value of 2 and place value of 4. (3 marks)

26. Using a ruler and a pair of compasses only. Construct a triangle PQR where PQ = 6cm, angle PQR = 120^0 and QR = 5cm. Drop a perpendicular line from R to meet PQ at point O. (5 marks)

27. Mukwaya drove at 64km/hr for 3hours from town T to town R. If he returned at a steady speed of 96km/hr.

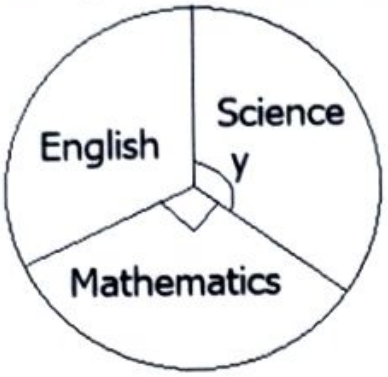

a) How far from town T is town R? (2 marks)

b) Calculate the average speed for the whole journey. (3 marks)

28. a) Solve for k: $3 - \frac{k}{2} = 1$ (2 marks)

b) In a shop, the cost of a mathematical set is sh. (3h + 300), the cost of a rubber is sh. (1200 - h) and the cost of a book is sh. (2h - 600). If the cost of a mathematical set is three times the cost of a book. Find the value of h. (3 marks)

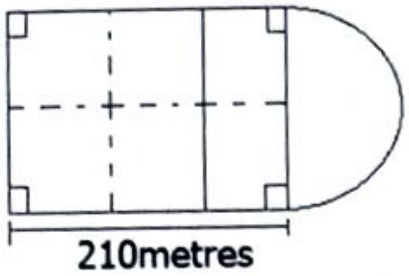

29. The circle graph below represents 60 different books in Mr. Nano's home library. Use it to answer the questions that follow.

a) Given that 20 books are for English. Find the value of y in degrees.
(3 marks)

b) How many more science books than mathematics books are there?
(2 marks)

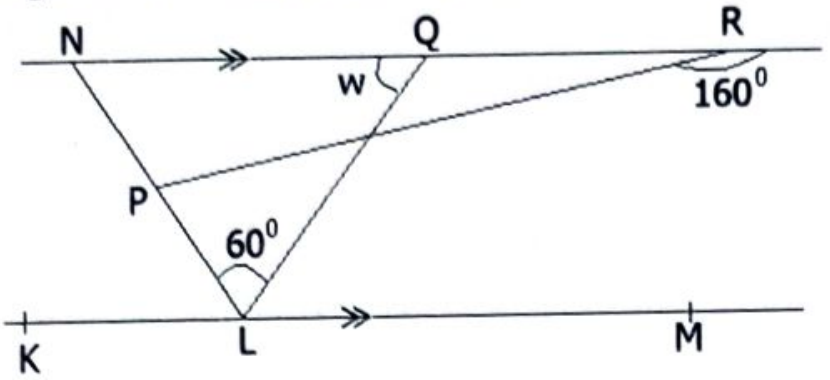

30. A piece of land of length 210 metres is divided into square plots and a semi-circular plot as shown in the figure below. (use π as $\frac{22}{7}$)

a) Find the width of the land. (2 marks)

b) Find the area of the whole piece of land. (3 marks)

31. In the diagram below NR and KM are parallel lines. Angle NLQ = 60^0, angle NPR is twice angle NLQ. Use it to answer the questions that follow.

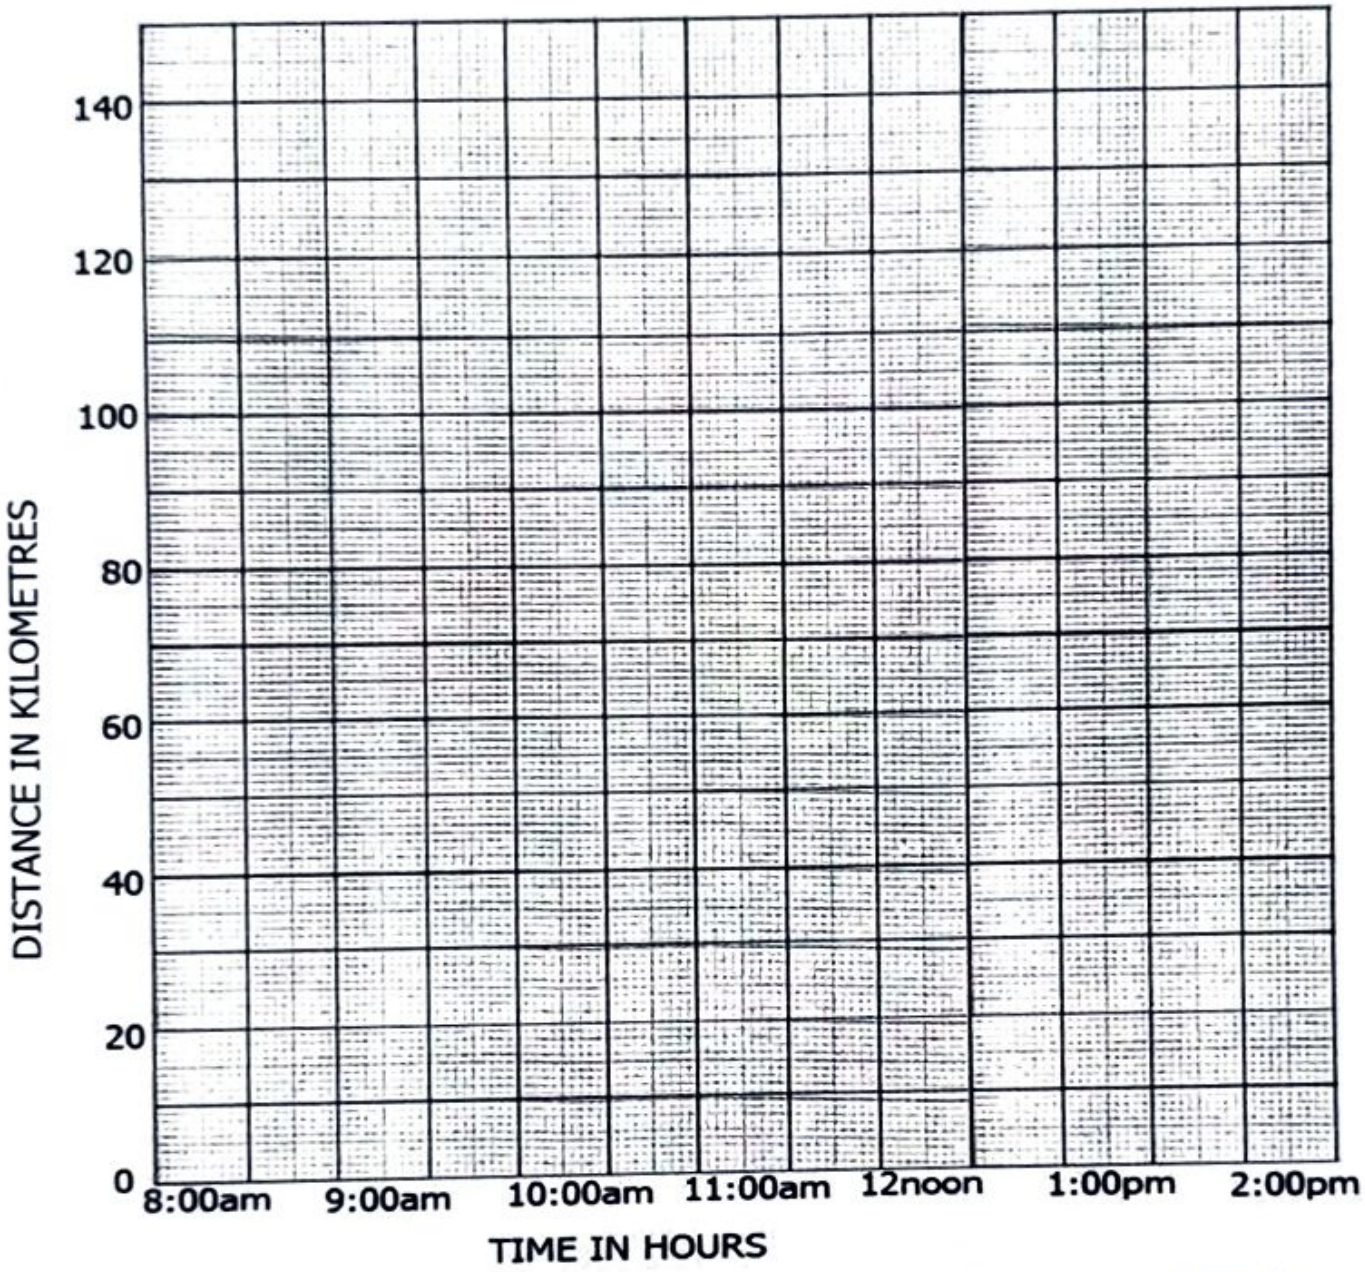

a) Find the size of angle w. (3 marks)

b) Calculate the size of angle QLM (2 marks)

32. A motorist left home at 8:30am moving at a speed of 45km/hr to school for 2hours. After spending 30minutes at school, he moved to the market at a speed of 40km/hr where he reached at a half past midday. He left the market at 1:00pm and went back home at a speed of 100km/hr.

a) Represent the motorist's journey on graph below. (5 marks)

b) At what time did he return home? (1 mark)
