……

……

SECTION B

(Each question carries 10 marks)

51. **Read the passage below and then answer, in full sentences, the questions that follow.**

At the end of every term, the best performers at Mbula Primary School are rewarded. This is done by the head teacher. It happens in front of other pupils. With excitement, the class teachers read out the names of the best five learners from primary one to primary six. The learners clap after each name is read out at the prize-giving ceremony.

I have a little sister who studies in this school. Last term, I was sent by my parents to **fetch** her for holidays. On arrival, I heard the head teacher give his end of term message to the learners. "Today we congratulate the pupils who worked hard in class this term," he said. "The three months of this third term had a lot of work, but there are pupils who excelled both in academic and in extra-curricular activities," he added.

Quickly, I walked to the school main hall. I was eager to witness the events at the end of term assembly. Besides, I looked forward to seeing my little sister receive her gift. After all, she was always number one in all the examinations. Unfortunately, my little sister was not among the best performers that term. Other pupils had taken her position in class. I was shocked.

When I tried to ask my little sister why she had declined, she simply cried. On insisting, she replied, "It is a long story; you reap what you sow, big sister!" Asking her for details, she said, "I played a lot and forgot to revise for examinations." In a soft voice, I said, "Don't worry because there is still chance for improvement." This comforted my little sister.

Immediately the assembly ended, my little sister, Matendo Veranda, packed her property. Thereafter, we boarded a motorcycle and headed home. As we had the ride, my little sister broke down again. In tears, she said, "I cannot imagine I have missed being taken to the Parliament of Uganda."

Thankfully, we reached home safely. The first person to see us was our father. He welcomed us and paid the fare to the boda boda cyclist. Next, we entered the house and found Mother busy preparing lunch for the holidaymaker. Surprisingly, Matendo instead walked **straight** to our bedroom and locked herself in the room. She took the envelope containing her report card with her. My father sensed something was wrong. After I settled down, I narrated the story to them. They were surprised at my little sister's performance. However, they did not blame her, but instead knelt down to pray for better results in the next class. Eventually, Matendo joined us in the prayer.

Questions

a) Which administrator rewards the best-performing learners at the end of every term?

……

……

b) Why do you think the best performers are rewarded in front of their fellow pupils?

……

……

c) What shows that the school is focused on promoting their learners' talents?

……

……

d) Why do you think the storyteller was disappointed with her little sister?

……

……

e) What made Matendo Veranda to decline in her academic performance?

……

……

f) Where were the best performers of the term taken during the holiday?

……

……

g) Why did Matendo Veranda fear to give her report card to her parents?

……

……

h) What lesson do you learn from the above story?

……

……

i) Give another word or group of words with the same meaning as these words underlined in the passage.

i) fetch ……..

ii) straight ……..

52. **Read the poem below and then answer, in full sentences, the questions that follow.**

Think twice, fellow Ugandans!
The human error on the environment,
That you practise for wealth,
On swamps, forests, bushes,
Cheat the future generation!

Oh! Uganda is bleeding!
Look at the floods in our country,
A sign that you make swamps homes.
Look at the endless drought,
A sign that trees are important!

Why not change our behaviour?
Instead of charcoal, use electricity.
Looking for where to build houses,
Spare swamps, wetlands.
Please, protect the environment!

The duty is for the young and the old!
Plant fruit trees around your homes,
Avoid dangerous chemicals on crops,
The root cause of the cancer disease,
Report evil **activities** on the environment!

Mini Ikiring

a) Which people are being called upon by the speaker?

.....

b) What has caused floods in the speaker's country?

.....

c) Which human error has led to drought in the speaker's homeland?

.....

d) When will the people in the speaker's country stop using charcoal?

.....

e) Where does the speaker advise people to build their houses?

.....

f) Apart from environmental protection, how will fruit trees benefit people?

.....

g) How dangerous is the use of chemicals on crops to human beings?

……

……

Give another word or group of words with the same meaning as each of the underlined words in the poem.

h) important……..

i) activities……..

j) Who is the writer of the above poem?

……

53. **Below is a list of farmers made by the Parish Agricultural Officer of Musukire in 2026. It shows a record of the activities they did per season. Study it carefully and then answer in full sentences, the questions that follow.**

Season	Farmer's Name	Choice Crop	Activity Done
Early-dry Season	1. Adongo Hausa	cabbages	watering and spraying.

Mid-wet Season	1. Tele Jacob	maize	weeding with hands and thinning the plants.
Mid-wet Season	2. Ajore Herald	Rice	Planting the seedlings.
Late-wet Season	1. Obicho Joy	maize	Planting seeds.
Late-wet Season	2. Oluri Philemone	water melon	Spraying the crops.

Questions

a) Who took the above record of farmers' seasonal activities?

.....

b) In how many seasons did the farmers do the given activities?

.....

.....

c) Which farmer is a producer of raw materials for the tailoring industry?

.....

.....

d) What did Naga Musa do at the beginning of the dry season?

.....

.....

e) When did Junga Bob mulch his tomato garden?

.....

f) Why do you think Andak Tom didn't wait for his maize plants to mature?

.....

.....

g) What makes you think that Dero Dany was being disturbed by certain crop pests?

.....

.....

h) Which crop must have begun its life from a nursery bed before it was planted?

.....

.....

i) How many activities were recorded in the farming community above?

.....

.....

j) Why would you say that Obicho Joy is an ignorant farmer?

.....

.....

54. **On her arrival at the bus park, Kisuki Mambo, a P7 candidate who had just broken up for holidays, made some enquiries at the counter where he met Mrs. Maboya, the cashier. The two held a brief conversation. What the cashier said is given. Complete the dialogue with what you think were Mambo's correct words.**

Mambo:.....

Mrs. Maboya: Good evening, little traveller. I am the cashier of this Bus Company.

Mambo:.....

Mrs. Maboya: To travel on our bus, you must first acquire a ticket. Where are you going?

Mambo:.....

Mrs. Maboya: I am aware that schoolchildren like you are going home for holidays, but I want to know the exact destination.

Mambo:.....

Mrs. Maboya: The fare to Mabilirizi Town is thirteen thousand shillings. Do you have any luggage from school?

Mambo:.....

Mrs. Maboya: Even if you had carried it, you wouldn't have paid any extra money. We normally transport luggage free of charge.

Mambo:.....

Mrs. Maboya: You're welcome. Which bus do you plan to board?

Mambo:.....

Mrs. Maboya: You can pay for the ten o'clock bus because we still have seats that have not been booked yet.

Mambo:.....

Mrs. Maboya: Yes, the front seat is still vacant. I know the seat next to the window will serve better for a child like you.

Mambo:.....

Mrs. Maboya: What a nice name you have! You can now pay for the ticket as you wait for the departure time of your bus.

Mambo:.....

Mrs. Maboya: Thank you for the money for the ticket! We pray for journey mercies. Goodbye, Mambo.

55. **Imagine you are in boarding and you are suffering from a certain disease. As a pupil of Magira Primary School, PO Box 227, Namwaya, write a letter to the school nurse informing him about your sickness. In your letter to him, mention the exact disease you are suffering from. Tell him when you began feeling unwell. Inform him about the effect of being sick on your studies. Request him to get you some sweet tablets for the disease. Give him the reason why you prefer tablets to injections. Use your school address.**

DO NOT OPEN THIS BOOKLET UNTIL YOU ARE TOLD TO DO SO.

Read the following instructions carefully:

1. This paper has **two** sections: **A** and **B**.
2. Section **A** has 40 questions (40 marks)
   Section **B** has 15 questions (60 marks)
3. Answer all questions. All questions to both Sections **A** and **B** must be written in the spaces provided.
4. All answers must be written using a blue or black ball-point pen or fountain pen.
5. Unnecessary changes of work may lead to **loss** of marks. All diagrams must be drawn in pencil.
6. Any handwriting that cannot easily be read may lead to **loss of marks.**
7. Do **not** fill anything in the boxes indicated: **"For Examiners' Use Only"**

FOR EXAMINERS' USE ONLY

21 – 30		
31 – 50		
51 – 53		
54 – 55		

SECTION A. (40 Marks)

Answer all questions in this section

Questions 1 to 40 carry one mark each

1. Name the accident whose first aid is administered by the help of splints.

_____

2. Give any one way in which the stomach is important during digestion.

_____

3. State any one way of controlling multiplication of organisms that spread germs.

_____

4. State how the musical instrument used to officiate matches produces sound.

_____

5. Name the body organ that regulates the amount of water in the human body.

_____

6. Give any one way in which plants depend on animals in the environment.

_____

7. Give any one reason why a goat shed should be built with a slanting floor.

_____

8. In the space provided below, draw a diagram to show the type of reflection that occurs on a smooth shiny surface.

9. State how salting preserves food.

_____

10. Mention the way in which breastfeeding boosts the immunity of a baby.

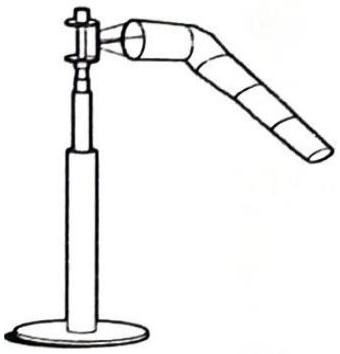

_____

_____

11. Give any one sign and symptom of dysentery in humans.

_____

The diagram below shows a weather instrument. Use it to answer questions 12 and 13.

12. Name the element of weather that helps the above weather instrument to operate.

_____

13. Give any one way of promoting the effectiveness of the above weather instrument.

_____

14. State any one way in which plants conserve the environment.

_____

15. Mention any one farm activity done by poultry farmers using heat energy.

_____

16. Give any one method you can use to remove impurities from water.

_____

17. State a reason why it is not advisable to use cold water when applying tepid sponging.

_____

18. Give any one way an adolescent can manage body odour.

_____

19. Give any one way through which a school health prefect can promote PHC at school.

_____

20. Mention any one energy resource obtained from water.

_____

21. State any one effect of strong wind to crop farmers.

_____

22. Name the intestinal worms that enter our bodies through drinking contaminated water.

_____

23. State how sheep farmers protect their sheep against flystrikes.

_____

24. Give any one reason why a spade is grouped under simple machines.

_____

The diagram below shows a flying mammal. Use it to answer questions 25 and 26.

25. Give a way through which the above animal is able to fly.

_____

26. State how the above animal is able to dodge obstacles during its flight.

_____

27. Write down the appropriate First Aid for an insect in the eye.

_____

28. Give any one situation that proves that light travels faster than sound.

_____

29. Mention any one example of an item used in harvesting rain water.

_____

30. Give the reason why a sweet potato garden does not require to be mulched.

_____

31. State a way in which soda manufacturers prevent soda bottles from breaking when soda freezes.

_____

32. Name the membrane that protects the eyes of a bird as it is flying.

_____

33. State any one way in which unwanted plants in the garden lower crop yields.

_____

34. Give any one way of reproducing stored sound.

_____

35. State any one characteristic of chemical changes.

_____

36. A P.7 pupil calculated the Mechanical Advantage (M.A) of a machine with an effort of 40N used to move a load of 80N and gave 2N as the answer. Identify the error in the pupil's answer.

_____

_____

_____

_____

37. State any one way in which performing regular physical exercises benefits the respiratory system.

_____

38. Give any one feature used to identify a vein.

_____

39. State any one importance of maternal and child health care as an element of PHC.

_____

40. Give any one difference between a clinical thermometer and a six's thermometer.

_____

SECTION B: 60 MARKS

Answer all questions in this section

Questions 41 to 55 carry four marks each

41. a) State any two ways of controlling effects of flowing water in a home compound.

i) _____

ii) _____

b) Give a way in which each of the ways you have given in (a) above controls the effects of flowing water in a home compound.

i) _____

ii) _____

42. a) Name the mineral salt lost through breastfeeding.

_____

b) Give any one challenge faced by breastfeeding mothers.

_____

c) State one reason why babies should be fed regularly.

_____

d) Apart from proper and regular feeding, give any one other way of caring for babies.

_____

43. The diagram below shows a form of drug abuse. Use it to answer the questions that follow.

a) Identify the form of drug abuse shown above.

_____

b) Give two ways in which the above form of drug abuse is dangerous to a pregnant mother.

i) _____

ii) _____

c) Write down any one life skill that can help a person to safeguard against the above form of drug abuse.

_____

44. a) State how a fuse protects electrical appliances from damage.

_____

_____

b) Write down any one other component of an electric circuit apart from a fuse.

_____

c) Give two ways in which magnets are useful in our daily life.

i) _____

ii) _____

45. a) Name the sanitary tool used to provide clean flowing water for washing hands.

_____

b) Give a reason why stagnant water around a home should be drained.

_____

c) Apart from draining stagnant water, state any two other ways of promoting cleanliness in a home.

i) _____

ii) _____

46. a) Write down any two ways through which people misuse latrines.

i) _____

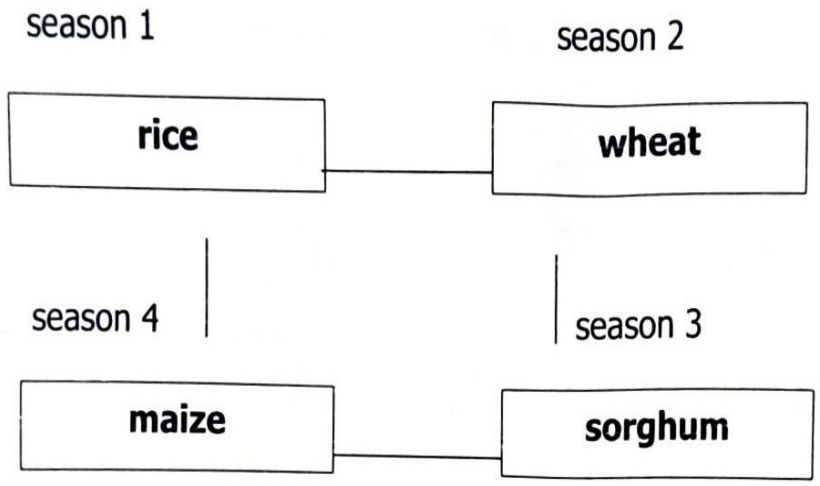

ii) _____

b) State any two importance of using a latrine correctly.

i) _____

ii) _____

47. <u>The diagram below shows a crop growing practice carried out by a farmer. Use it to answer the questions that follow.</u>

a) Name the above crop growing practice.

_____

b) Give a reason to support your answer in (a) above.

_____

c) Explain how the above crop growing practice affects the yields of a crop farmer. (02 marks)

_____

_____

48. a) State any one form of antisocial behaviour.

_____

b) Give two ways in which good behaviour of elders in the community controls antisocial behaviour in the youth.

i) _____

ii) _____

c) Mention any one danger of antisocial behavior in the community.

_____

49. a) You are provided with the following materials;
open bottle, burning charcoal stove, lid and cold water.
Describe an experiment to show that air exerts pressure using the above materials.

_____

_____

_____

_____

_____

_____

_____

_____

50. a) Give any two signs of a healthy rabbit.

i) _____

ii) _____

b) State how free air circulation is promoted in a hutch.

_____

c) Write down any one way of caring for a rabbit.

_____

51. a) Give any one way in which joints allow friction free movement in the human body.

_____

b) Name the disorder that affects muscles when they are overstretched.

_____

c) State any two ways in which muscles are important in the human body.

i) _____

ii) _____

52. In the table below, A shows terms used in measurement while B shows the meaning of each term.

A	B
Density	Amount of liquid a container can hold
Mass	Amount of space occupied by an object
Volume	Quantity of matter contained in an object
Capacity	Mass per unit volume of a material

a) Match correctly the terms in A with their meaning in B.

Density _____

Mass _____

Volume _____

Capacity _____

53. a) Give the meaning of the term swamp reclamation.

_____

_____

b) State any one reason why people reclaim swamps.

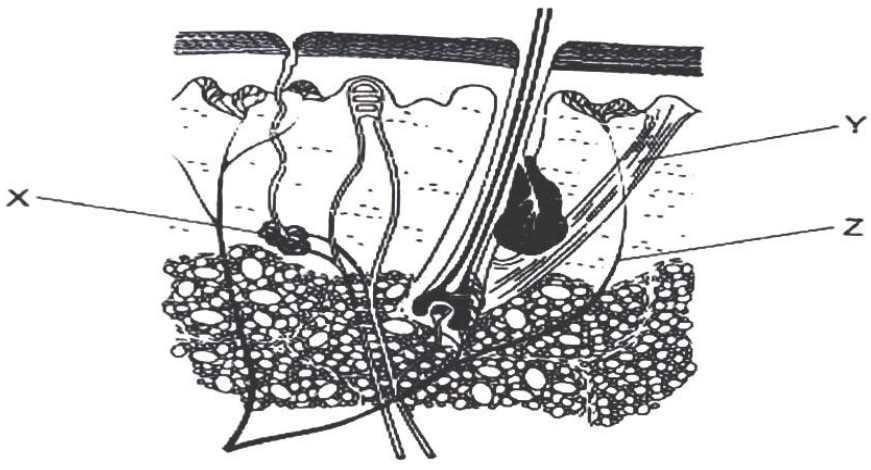

_____

c) Mention any two ways in which swamp reclamation is dangerous.

i) _____

ii) _____

54. The diagram below shows the human skin. Use it to answer the questions that follow.

a) Name the part marked X.

_____

b) State the function of part Y.

_____

c) State how part Z is similar to the optic nerve of the human eye.

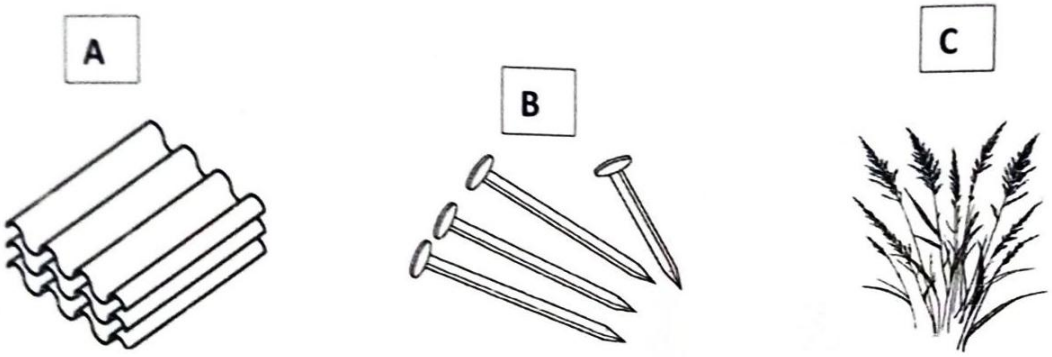

_____

_____

d) Give any one way in which the human skin regulates body temperature on a cold day.

_____

55. The diagrams below show materials used in building a house. Use them to answer the questions that follow.

a) Name the type of house built using material C.

_____

b) Mention any one other material used to build the type of house you have named above.

_____

c) State how material B is useful when building a house.

_____

d) Give any one way in which a house promotes the health of people.

DO NOT OPEN THIS BOOKLET UNTIL YOU ARE TOLD TO DO SO.

Read the following instructions carefully:

1. This paper has **two** sections: **A** and **B**.
2. All the working for both sections **A** and **B** must be shown in the spaces provided.
3. All working must be done using a blue or black ball-point pen or fountain pen. Any work done in pencil other than graphs, pictures and diagrams will **not** be marked.
4. **No calculators** are allowed in the examination room.
5. Unnecessary changes of work may lead to **loss** of marks.
6. Any handwriting that cannot easily be read may lead to **loss of marks.**
7. Do **not** fill anything in the boxes indicated: **"For Examiners' Use Only"**

FOR EXAMINERS' USE ONLY		
Qn. No.	**MARKS**	**EXRS' IN.**
1 – 5		
6 – 10		
11 – 15		
16 – 20		
21 – 22		
23 – 24		
25 – 26		
27 – 28		
29 – 30		
31 – 32		

SECTION A. (40 Marks)

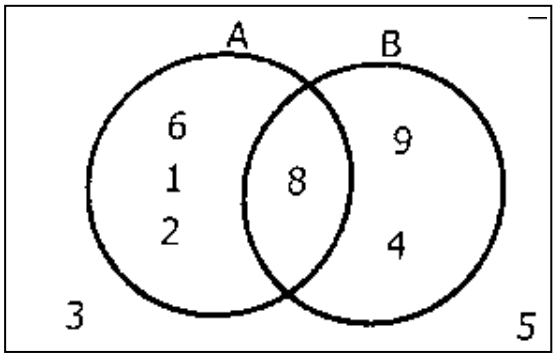

1. Work out: 1010 ÷ 5

2. Write XCIX in words.

3. Find the sum of the next two numbers in the sequence below.

   1, 8, 27, _____, _____

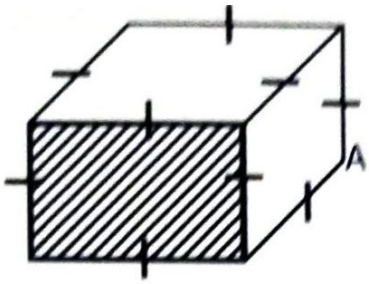

4. **Study the Venn diagram below and use it to answer the questions that follow.**

   How many subsets are in B′ ?

5. Peter left home at 8:20 a.m. By the time he left, his sister Precious had already left home 40 minutes earlier. At what time did Precious leave home?

6. **In the figure below, the area of the shaded region is 36 cm². Find the length AB.**

7. **Construct an angle of 135° in the space below.**

8. After covering $\frac{1}{4}$ of the journey, Opio remained with 60 km to cover. Calculate the total distance Opio had to cover.

9. Mubiru kept a bundle of 20 notes of five thousand shillings each in his house. After 2 months, he found out that the notes worthy sh. 25,000 were eaten by a rat and could not be accepted. How much money did Mubiru remain with?

10. Simon Peter was born in 80 BC and died in AD. When he was 130 years. In which year of AD did he die?

11. Solve: 2k + 10 = 4

12. A rectangular garden covers an area of 244 m². Calculate the area covered by the garden in square centimetres.

13. 3y89 is a four-digit number. If the product of the value of y and the place value of 8 is 4,000. Find the digit represented by y.

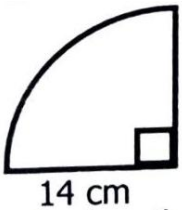

14. Simplify: 0.5 ÷ $\frac{1}{4}$

15. The average age of 4 boys is 8 years. Calculate their total age.

16. A total number of 82 trees were planted equally on both sides of a straight road. If they were planted at intervals of 5m, calculate the length of the road in metres.

17. Use >, < or = to complete:
    $^{+}4 - {}^{-}4$ _____ $^{+}4 + {}^{+}4$

18. A piece of wire was folded to form the figure below.

Calculate the length of the piece of wire that was used.

19. The number of pupils at a certain school was 600 last term. This term, it increased by $3\frac{1}{2}$%. Calculate the number of pupils in the school this term.

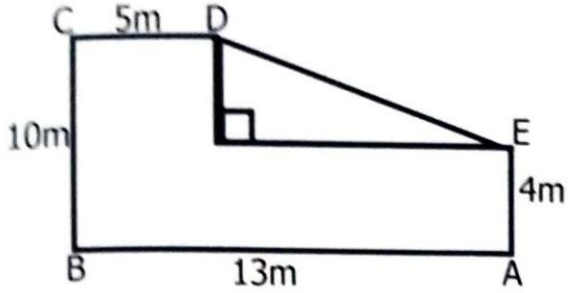

20. The table below shows addition of numbers in base five.

+	2	3
3	_____	11
4	11	_____

Complete the table above.

SECTION B (60 MARKS)

21. **Study the figure below and use it to answer the questions that follow.**

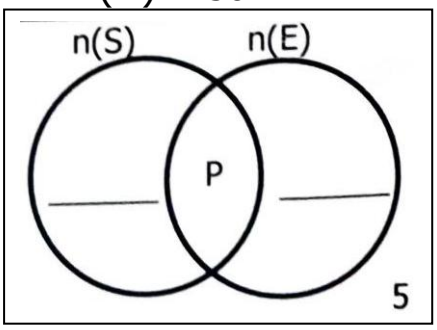

Opio covered the distance from A to B, B to C, C to D, D to E and then E to A. What distance did he cover? **(5 marks)**

22. In a class of 50 pupils, all of them like mathematics. 35 pupils like mathematics and science (S), 40 pupils like mathematics and English (E), P pupils like all the 3 subjects unlike 5 of them like mathematics only.

(a) Use the above information to complete the Venn diagram below. (2 marks)

N(M) = 50

(b) How many pupils like only two types of subjects? (3 marks)

23. **(a).** Express 348.1 in standard form. **(2 marks)**

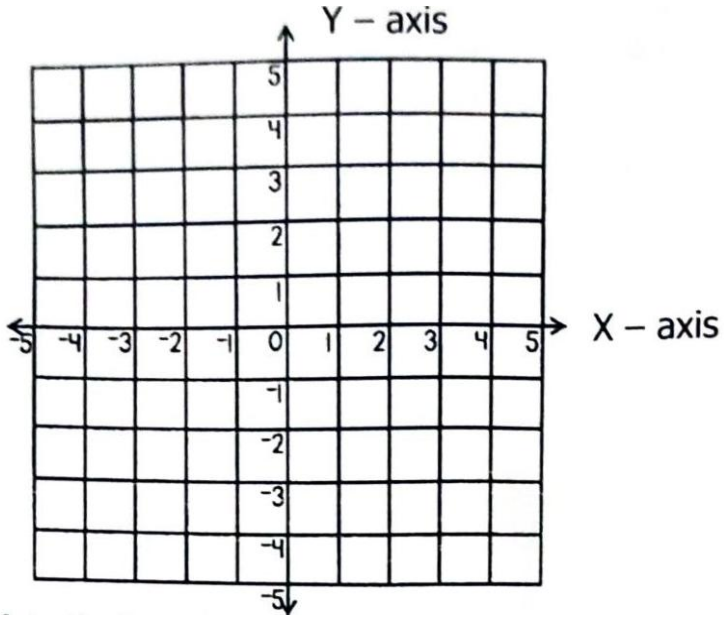

(b). Find the number whose standard form is 3.84×10^{-4}. **(2 marks)**

24. Last month, a trader went to the shop to buy rice and cooking oil. By that time, the ratio of the cost of 1 kg of rice to 1 litre of cooking oil was 2:3 respectively.
This month, he went back to the same shop. However, the shop keeper informed him that the cost of 1 kg of rice was still the same but that of cooking oil had increased by sh. 1,000. If the ratio of 1 kg of rice to 1 litre of cooking oil is 4:7 respectively this month.

(a) What was the cost of 2 kg of rice last month? (4 marks)

(b) What is the cost of 1 litre of cooking oil this month? (2 marks)

25. **(a).** Plot the points A ($^{-}3$, $^{+}2$), B (0, $^{+}2$), C ($^{+}3$, $^{-}2$) and D ($^{-}3$, $^{-}2$) on the grid below. **(4 marks)**

(b). Join A to B, B to C, C to D and D to A. **(1 mark)**

(c). Name the figure formed. **(1 mark)**

26. **(a).** Using a ruler, a pencil and a pair of compasses, construct a triangle ABC where AB = 7 cm, ∠ABC = 75° and ∠CAB = 30°. **(4 marks)**

(b). Measure ∠ACB. **(1 mark)**

27. **(a).** Convert 0.2727… to a common simplified fraction. **(2 marks)**

(b). Work out: $\dfrac{(0.12)^2}{0.0014 + 0.00004}$ **(3 marks)**

28. The sum of 3 consecutive multiples of 6 is 54.

a) Find the multiples. **(4 marks)**

(b). Calculate the range of the multiples. **(1 mark)**

29. A cyclist left town T and travelled to town R at a given speed in 2 hours. He had a stop over of 1 hour at town R and then continued to town P at a certain speed in 4 hours. The distance from town T to town R was 120 km less than that of town R to town P. Calculate the speed the cyclist used to travel from town R to town P if the average speed for the whole journey was 40 km/h.

(4 marks)

30. Balam went to the shop with a fifty-thousand-shilling note and bought the following items. After buying all the items, he was given change of six thousand five hundred shillings.
    2½ kg of sugar at sh. 4,000 per kg
    2 litres of cooking oil at sh. 6,000 per litre
    20 tomatoes at sh. 500 for every 4 tomatoes
    2 bars of soap at sh. y per bar
    Find the value of y. **(5 marks)**

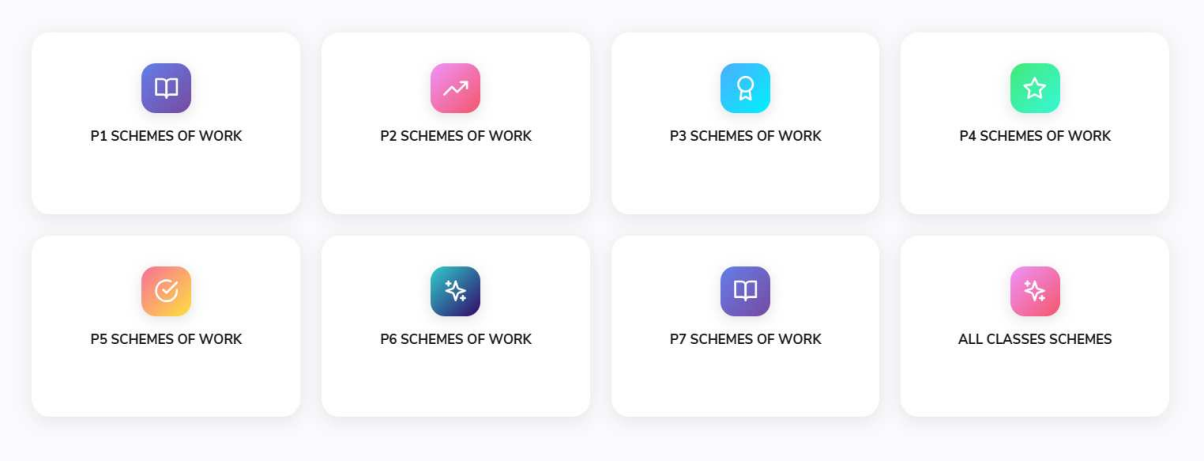

31. In a district, there are 20 sub-counties. Each sub-county has 8 parishes. During operation wealth creation program, the government gave 214 cows to each of the first 100 parishes that registered first and the remaining parishes received 200 cows each. How many cows did the government give out to the district? (5marks)

32. **(a)** Work: 2 – 4 = _____ (finite 7) **(2 marks)**

(b) Solve for y: 3y + 4 = 5 (finite 7) **(3marks)**

END
